Kryptok Double Vision Lenses

When the age of forty to forty-five years is reached one needs another pair of glasses—a pair for reading and a pair for distance vision. Kryptok combine these two pairs into one, the upper half of the lens for distance vision and the lower half for reading. Kryptoks are not two lenses cemented together—they are two strengths of glass fused into one.

THE HOUR IS STRIKING

The hour is striking. The day of the "Home Community" is here. The same hour that strikes the doom of the congested metropolis strikes also the nation-wide slogan of "Back to the Home Town" The hour is striking. And the people of ten thousand home communities know it, YOU can not fail to hear it. And you will do YOUR share in helping to usher in the greatest era of prosperity this continent has seen. YOUR co-operation is needed to make this prosperity complete—to make it go ALL the way round.
