To Save Aeroplanes Lighting On Ocean

LONDON, Feb. 26.—(By The Canadian Press)—An experiment with an aeroplane made buoyant on alighting on the water in an emergency was carried out recently at Felixstowe by officers of the Aeroplane and Armament Experimental Establishment at Martlesham Heath, Suffolk. A similar attempt was made two or three years ago, and the present experiment indicates the importance of the subject, especially to the Fleet air arm, in which land aeroplanes are flown from the decks of aircraft-carriers and in the event of engine failure may have to alight on the sea.

The aeroplane used in this experiment has been modified so that the sides of the fuselage might be made to collapse outward by the operation of a lever in the pilot's cockpit and to cast out on to the surface of the water a number of air bags to serve as floats. The bags remained inflated until they were needed to support the machine on the water and were then rapidly filled from bottles of compressed air carried in the fuselage.

The aeroplane, alighting on the sea in the ordinary way, was almost submerged, and then as it lost speed was buoyed up by the air bags and floated with the upper wing and part of the fuselage above the surface. The machine was left in the sea for several hours to prove the possibility of its remaining afloat long enough for rescue and salvage operations to be carried out.

U. S. CRIMES EACH YEAR COST \$16,000,000,000

KANSAS CITY, Feb. 26.—Crime costs the United States \$16,000,000,000 annually, Dr. Ray O. Wyland, New York, director of the National Boy Scout Educational Department said here in an address before 4,000 Scout troop leaders and assistants.

"One criminal takes as much money from the American public every year as it would cost to give character training to 160 normal boys and girls for a whole year," Dr. Wyland said. "It would be cheaper to add to the annual budget for teaching American youths the right habits."

The Boy Scout movement has been commended for its effectiveness in training and building character more often than any other social agency, he said.

GANDHI INVESTED WITH FULL POWERS

NEW DELHI, India, Feb. 26.—Mahatma Gandhi was today invested by the working committee of the All-India National Congress with the power of absolute decision in his conversations with Lord Irwin, Viceroy of India.

This action by the Congress executive was generally constructed as an optimistic sign. It also tended to set at rest rumors, which were current, of dissension within the ranks of the working committee.

Gandhi now expects to be summoned again to the Viceroy's palace at any time. Both sides in the peace parleys are just now marking time pending receipt from London of the Cabinet's views regarding the Nationalist demands.

The main demands submitted by the Mahatma are: General amnesty for political prisoners, enquiry into alleged excesses by the police, restoration of property confiscated for non-payment of taxes, and the freedom of peasants in making soil.

STORM PRECEDED QUAKE

LONDON, Feb. 26.—A dispatch just received from Raratonga, Cook Islands, reports that the recent New Zealand earthquake was preceded there by a tremendous, but windless, ocean storm which lasted a whole night.

January 28 was a perfect summer day in this tropic region, with the sky cloudless and the sea calm and blue. Suddenly the ocean waves rose 15 feet high outside the lagoon, rolled over the reef and rushed up the harbor, swamping sheds and throwing spray 80 feet in the air.

There was not a breath of wind and through the spray it could be seen that the ocean was perfectly calm beyond the zone of disturbance. Giant waves lashed the harbor all night, then subsided.

IN MEMORIAM

MRS. AUGUSTINE LAVOIE

ACADIEVILLE, Kent Co., Feb. 26.—Mrs. Augustine Lavoie, sister of Mrs. Frank Gould of Acadieville, passed away recently at her home in Roversville, following an illness of two months. Mrs. Lavoie was 49 years of age and was formerly Miss Agnes Gallant. She had many friends in Kent and Northumberland Counties also on Prince Edward Island.

She is survived by her husband, four sons, Patrick, William, Ernest and Gerald Lavoie, six daughters, Mrs. Arsene Caisie, Mrs. Francis Hache, Mrs. David Caisie, the Misses Marie, Rita and Melba Lavoie, three brothers Matthias, Peter and Joseph Lavoie of East Collette, Northumberland County and two sisters Mrs. Frank Gould of Acadieville and Mrs. Peter Murray of Mayfield, P. E. I.

A High Mass of Requiem was sung at the Parish Church, Reverend Father Babineau, pastor, many relatives and friends attending. The pall bearers were: Onesime Richard, Damien Richard, Alphonse Caisie, George Gallant, Emile LeBlanc and Leo Herrell.

CORNWALL-YORK WOMEN'S INSTITUTE

The February monthly meeting of the Cornwall-York Institute was held at the home of Mrs. Mack MacPhail on Feb. 2nd. Twenty-three members were in attendance and the literary portion of the program was concerned with the works of Robert Burns. Roll call was answered with a quotation from the poems of the immortal Scottish Bard. The resolution committee was instructed to follow up the resolution submitted last July to the annual meeting of Women's Institutes, by this branch, regarding a rest room at Charlottetown for country women, and to see that the proper construction was being placed upon this resolution.

A number of bills for schools in the district were paid and on motion, it was agreed to give the York Point, Cornwall and Meadow Bank schools a grant of \$5.00 each for school purchases. A bill for hall blinds was also approved.

A very fine contribution to the evening's entertainment was in the form of a paper on Burns' prepared by Mrs. Fred McLaren, York Point. This finely constructed paper, outlining the poet's life, and richly supplied with quotations from his best works, was deeply appreciated by the members and visitors present. Other items on the program included a solo by Miss Muriel McDonald, and a duet by Mrs. Andrew McEachern and Mrs. Wesley Bell.

The next meeting will be held at the home of Mrs. W. R. Shaw, Cornwall, when a paper will be given on "Home Economics" by Mrs. Ewen McMillan, while the roll call will be answered by suggestions on the subject.

GILLAN-LAURIE

A quiet but pretty wedding took place at the church of the Most Holy Redeemer Tuesday, Feb. 17, 1930, when Rev. Joseph McGreel, C. S. S. R., united in marriage, Anne Florence eldest daughter of Mr and Mrs James Gillan of this city to Ivan Arthur Laurie son of the late Capt. Thomas and Mrs. Laurie, of this city. The bride looked very charming in a dress of Navy blue felt crepe with coral trimming and hat to match and wore a corsage bouquet. She was attended by her sister Miss Mary Gillan who wore a dress of rose tulle with hat to match and also wore a corsage bouquet. Mr. Reginald Cronin of this city ably supported the groom. After the ceremony a sumptuous wedding breakfast was served at the home of the brides parents to about forty relatives and friends of both parties including Rev. Joseph McGreel, C. S. S. R.

The grooms gifts to the bride was a cheque and to the bridesmaid a white gold necklace and to the grooms man gold cuff links.

The many beautiful and costly gifts including cheques, cut glass, silver and linen go to show the popularity of both the bride and groom who both are members of Charlottetown's smart set.

Mr and Mrs Laurie left amid showers of rice and confetti and a short honeymoon trip to the mainland. On their return they will reside at 51 Pownall St.

A MISS-A KISS

The country station-master did not wear a uniform, and one day when a train came in he stood at the platform gate to take the passengers' tickets. A pretty girl came up to him, and when he held out his hand for her ticket she seized it, gave it a tight squeeze, and followed by giving him a hearty kiss.

The station-master was surprised, but managed to say: "That's all very well, miss, but I want your ticket."

"Oh," replied the girl, with a blush, "aren't you Uncle John?"

THE DRAWBACK

The proud wife was taking her friend on a tour of inspection round the house. Gasps of surprise and sighs of satisfaction marked the exhibition of each new treasure. In the bedroom the quilt was drawn down to display the blankets.

"Oh!" she exclaimed, "not lovely blankets!"

"Nothing but the best is good enough for Ikey," said her hostess.

"You sleep nice and comfortable in such soft, beautiful blankets, eh, Rachel?"

"Believe me, Rebecca," came the reply, "never so much as forty yinks do we get, the moth-balls are so hard."

RAINY DAYS

The attic or the cellar can be made into a dainty day playground for the children, with little effort. Take colored pieces of chalk and mark the floor for hop-scotch, deck tennis or some other mindily active game, have a set of rubber quoits and if possible a ping-pong table.

BRINGING UP FATHER

Save The Birds

BIRD SANCTUARIES EFF-ECTIVE

(Natural Resources, Canada)

Canada now has more than forty bird sanctuaries specially reserved for bird protection purposes. These are scattered across the country from Nova Scotia to British Columbia. Some of the Provinces also maintain similar reserved areas for the benefit of native bird life.

The effect that one group of these sanctuaries is producing is shown by a census taken during the past summer on ten such reserves consisting of islands along the north shore of the Gulf of St. Lawrence inhabited chiefly by seabirds. On comparing the figures obtained in 1930 with the results of a similar census made in 1925, when these sanctuaries were established, it is found that the bird population of the reserved areas has increased by 19 per cent. in the five-year interval. Some of the more important species nesting here, with the respective gains in numbers that they have made, are: elder duck, 27 per cent; puffin, 13 per cent; razor-billed auk, 37 per cent; common murre, 11 per cent; black gull, 134 per cent; herring gull, 159 per cent; and common tern, 57 per cent.

The total seabird population of the ten sanctuaries in 1930, not including young birds hatched in that year, was 100,836, of sixteen different species.

LUNCHROOM CHEF TIMES EGGS BY TRAFFIC LIGHTS

BOSTON, Feb. 26. (U. P.)—Traffic lights and boiled eggs seem entirely incongruous, but—

City Engineer John T. Hurley was inspecting the traffic lights in City Square when he noticed that the chef in a nearby arm lunch room watched the blinkers at frequent intervals.

Curious, Hurley entered the restaurant and asked the chef if he saw anything wrong with the lights.

"No," the chef replied, "I'm merely timing my eggs by them. Two complete changes from red to red and your egg's soft boiled, three and it's medium, four and it's hard boiled."

TWO MEN HAVE HELD HIGH STATE OFFICE TWICE

HARTFORD, Conn., Feb. 26. (U. P.)—Two men have held the office of Chief Justice of the Connecticut Supreme Court of Errors, twice.

Until 1784, the General Assembly was recognized as the highest court in the state, and its chief judge was the governor or lieutenant-governor.

Nathan Gold, twice lieutenant-governor from 1712-1713, and 1714-1715 and William Pitkin, lieutenant-governor from 1713-1714 and governor from 1754-66, were the only ones to preside over the judiciary system on two occasions.

In 1807, the law was changed to provide that membership of the supreme court was to be composed of judges of the superior court, the presiding judge to be known as the chief judge.

Eleven years later the present title of chief justice was first employed and continued thereafter.

BANKS TO INVESTIGATE REFUSAL OF CREDITS

TORONTO, Feb. 26.—Isolated cases of western farmers being refused credit by the bank which were mentioned recently by Hon. Robert Weir, federal minister of agriculture, will be investigated. The Star was informed today at the Royal York hotel today by Beaudry Leman, general manager of the Banque Canadienne Nationale and president of the Canadian Bankers' association.

Mr. Leman is in Toronto to attend an informal meeting of the association and to address the Canadian club.

"We have always been friendly to the west," Mr. Leman said, "but we are banks, using other people's money and we have to be careful and prudent."

OPERATED BY THE T. EATON CO. MARITIMES LIMITED (SHOP EARLY)

"All who are entitled to credit in Canada have received it and they will continue to receive it."

"The Canadian banks will lend their co-operation to the Dominion agricultural credit scheme which is being considered by Premier Bennett," he added.

Mr. Leman disposed peremptorily of the theory of secession in the west, with a reference to the speech of Hon. Robert Weir to the Canadian club in Montreal in which it was stated "that there are no better Canadians than the western farmers."

LEAVES \$1,000,000 TO SAVE BIRDS AND ANIMALS PAIN

CAMBRIDGE, Mass., Feb. 26.—An accounting by the executors of the estate of Miss Annie Brown of Stone-

ham, filed in Middlesex Probate Court yesterday, showed that more than \$1,000,000 of her \$2,000,000 estate were left to avert suffering from birds and animals. Of the remainder the greater part is left to children's institutions.

Miss Brown died 16 months ago at age of 59 in the Stoneham residence which for many years had been a sanctuary for birds and squirrels.

MENINGITIS HIVS BRITISH SERVICES

PORTSMOUTH, England, Feb. 26.—All military and naval formations among the British forces here have been cancelled as a precaution in view of the outbreak of spotted fever in the service last week.

Already eight soldiers have died from the disease, which otherwise is known as cerebro-spinal meningitis, at Aldershot, a suspected case has been discovered aboard H. M. S. Repulse at Gibraltar, and 272 cases have been recorded among English civilians in the past 11 weeks.

TEA ACCESSORIES

Try serving with your five o'clock tea, thin ginger wafers, spread with cream cheese. They may be made in sandwich form and are quicker and easier to make than bread and butter sandwiches.

Keep the lingerie collars on your dresses fresh by using a washable shoulder cover over the hangers in your closet. These are simple to make and have a hole in them to slip through the hanger hook.

By George McManus
