MOTHER'S DAY.

On the second Sunday in May (Mother's Day) will be celebrated by thousands of sons and daughters who will remember mother by wearing a white flower. Some mothers have gone home to Heaven, others are absent. Love mother if she is with you today.

"If you have a tender message, Or a loving word to say, Don't wait till you forget it, But whisper it today, Who knows what bitter memories May haunt you if you wait, So make your loved ones happy Before it is too late.

"The tender words unspoken, The letters never sent, The long-forgotten messages, The wealth of love unspent— For these some hearts are breaking, For these some loved ones wait, Show them that you care for them Before it is too late. —George Bancroft Griffith.

THE BLACK FOX INDUSTRY

Attracting World-Wide Attention. Its Advertising Value.

If this tight little island were not famous, from a historical standpoint, there is one industry that would make Prince Edward Island world-known, viz. The Black Fox Industry. As a matter of fact, it has the enviable reputation of producing Black Foxes whose pelts command the highest prices of any sold in the best fur markets of Europe and America. Moreover, the remarkable fact can be easily substantiated that P. E. I. is rearing more black foxes right now than all other fox territories of the world combined.

If one were to make a tour of the continent he would find this city or that town or province famous because of a single industry as a general rule. Of course each lay claim to more than one industry but ask the stranger to mention the reason for this or that state or province's place in the sun and he will invariably mention one single outstanding industry. New Brunswick is a typical illustration of this. The traveler, throughout Canada and the New England States, will instantly tell you that "that's where Red Rose Tea, familiarly known as "The Good Tea," comes from." In fine, Red Rose Tea places New Brunswick very definitely on the commercial map of the world.

Other instances might be given but these two are enough to show that a single, progressive and worthy industry has often a Community-Advertising power that's its owners never dream of.
