

ST. PATRICK'S ROAD SCHOOL.

The half-yearly examination of St. Patrick's Road School was held in the school on Dec. 22. The school room was artistically decorated with garlands and spruce. In one corner of the room stood a Christmas tree laden with presents. The teacher Miss Annie Donnelly who conducted the examination was assisted by Miss Mary McQuaid teacher of Byrne's Road school. The pupils showed by their prompt answers and excellent conduct that they had been carefully taught. The program which was very successfully carried out consisted of drills dialogues patriotic exercises, songs and recitations. The Highland Fling followed by a step dance by Muriel Stewart was a pleasing number of the programme. At the close of the program Santa Clause appeared and delighted every one with his jolly manner and the many gifts which he distributed from the tree. Among the gifts received by the teacher was a five dollar gold piece from the pupils. After unloading the tree and wishing all a Merry Christmas Santa departed. Candy was then served to the visitors. Short speeches were made by Allen J. Grant, who stated that the people were fortunate in retaining the service of such a painstaking teacher. Charles Grant who complimented the teacher and pupils on their excellent work during the past term and Mrs. John A. Birt who expressed a desire that the good work be continued. The chairman Mr. F. P. Tranter made very complimentary remarks on the work done during the past term. The singing of the National Anthem brought the entertainment to a close.

A tradition that early settlers were able to procure nails from a ship wrecked in the pond cannot be verified. Very probably Neals is the correct name. On January 26, 1833, a petition was presented to the House of Assembly from the inhabitants of lots 1 and 2 "praying aid for putting a road from Neals' pond towards Casumpepe and Hilltown which got safely ashore here and were the first to settle at St. Peter bay. Howley gives biographical details of Cormack, quoting "The British Columbian" of May 9, 1878, which states that in 1818 he took a party of immigrant farmers in two vessels from the British Isles to Prince Edward Island; and twelve years later he interested himself in establishing an export trade in grain from the same island. He was born at St. John's, Newfoundland, in 1796, but taken by his parents to Scotland about seven years later, where he was educated at the universities of Edinburgh and Glasgow, crossed Newfoundland in 1822, to undertake the survey of the Nova Scotia coast under the Admiralty.
