Every woman who admires the simple one-piece dress that is so convenient and becoming will be interested in this model, No. 8023. It is cut in drop-shoulder style, closes at the side front, has a small square collar and a full length sleeve. The skirt is a six gored design. Eponge, ratine or serge would any of them make up to advantage and be suitable for street wear. A dark blue or gray ratine with collar and cuffs of brightly colored silk eponge would be most pleasing. In finishing the hem of a heavy material of this sort, instead of turning the upper edge under it may be pinked before stitching. This gives a smooth, neat finish.

To make this dress in size 36 it requires 4 1/2 yards of 36 inch material. The pattern comes in 8 sizes; 34 to 48.

**This is a Perfect Pattern.**

Be sure to state right size, measuring over the fullest part of the bust for dimensions.

It may be obtained by filling out the coupon and enclosing 15 cents in stamps or coin to the Pattern Department of this paper.

**MALPEQUE.**—The fishermen of this community are busily engaged in getting their gear in shape for the season's work. Mr. Fred Bearisto of the Kensington Standard Meat Co., has returned from a shooting trip at Ram Island after having captured a goodly share of geese and brant. Ralph L. Ramsey, R. H. Abbott, James Hickes, and Capt. James Roach returned Saturday evening from a week's shooting trip at Ram Island having captured a large number of birds. Mr. George Burns has been appointed secretary of fishermen's Association of this place.

**EMERALD.**—M. A. White, of Graham's Road, has returned from a visit to the city. Mr. Justin Hughes, S. D. College student, spent the Easter holidays at his home in Norborne—Great regret is felt for the continued illness of Mrs. James Gillis, as she is not improving of late as her many friends would wish.—It is rumored that a new fox company will shortly be organized by Emerald and Newton parties. If Class A stock can be secured, the death took place on Wednesday morning last, at her home in Newton, of Mrs. Patrick McKenna, after a short illness in the 75th year of her age. She leaves a family of three sons to mourn the loss of a kind mother, and good christian woman, viz., Thomas and Edward in Newton, and Michael in the United States.—E.

**BOYS' BANQUET.**—The boys of Malpeque and surrounding places held a banquet in the hall at that place on Tuesday evening when their appetites did justice to a sumptuous spread which had been prepared by the ladies of that place. The occasion was to arouse an interest in the movement which is spreading over the Island and enticing hundreds of boys in wholesome Christian activities and in social and athletic affairs. Samuel J. Proffit, of Kensington, gave

a report of the Boys' Work Conference which was well received. Wesley Steele, rural Boys' Work Secretary, spoke of the different kinds of activities which will be carried out among the country boys this summer. The boys present decided to have a base ball team and to take part in the Standard Efficiency Test athletic meets which will be held in the district. A considerable interest was aroused in the Sunday school and a place for young men. The meeting was arranged by Rev. E. J. Battee to whom much credit for its success is due. Harold Burns and Vernon McQuigan were elected to represent Malpeque in the Kensington district Boys' Association.

**CHESS PRIZES.** The prizes presented at the annual social of the Charlottetown Chess Club on Friday night which had been on at the club's tournament this year were as follows: Mr. L. P. Panton, the President's Trophy; Mr. L. C. Worthy, a silver cup presented by Mr. J. J. Louson, of Montreal; Dr. Ross, a set of chessmen; Dr. Lundie, a set of pocket chess; Mr. W. S. Louson, a set of chess presented by Rev. W. W. Porter; Mr. B. E. Mutch, a pocket chess set; Mr. C. Toombs, a set of chessmen; Mr. E. G. Love, consolation prize—a gold fountain pen, presented by Dr. Ross. The prize for the best player on chess was awarded to Mr. W. T. Doull and consisted of a large bromide photo by Mr. W. S. Louson. At this function Mr. T. B. Woodman took occasion to issue a challenge on behalf of four members of the club to any other four chess-players to play a match in the near future for a prize to be given by Mr. Woodman.

**INTERESTING ADDRESS.**—Mrs. Putnam, one of the deaconesses in connection with the Moral and Social Reform work of the Presbyterian Church in Canada addressed a large congregation in St. James Church yesterday evening. Mrs. Putnam is a pleasing speaker and gave a thrillingly interesting account of the efforts being put forth and the work being done by this branch of the Church, in rescuing the fallen and in saving the young and inexperienced from the traps set for their ruin by the white slave traffickers. She related a number of incidents which come under her own observation pointing to the great need of increased effort on the part of the Church in safeguarding young girls who are leaving their homes to live in the cities, the need of more helpers in rescue and redemptive work and the need of funds to carry on the work. At the close of her address Rev. Dr. Fullerton invited contributions in support of this great work which had but recently been undertaken by the Presbyterian Church in Canada and the need of which was growing with the increase of immigration. Contributions handed in to Dr. Fullerton will be forwarded at once to the proper sources. A pleasing feature of the service was a solo—Jesus Lover of My Soul—sung very effectively by Mr. Arthur Bruce.

**SLIGHTLY INJURED.**—Dr. Bagnall sustained a somewhat severe injury on Saturday night. While walking along the sidewalk on Great George Street he tripped over one of those waterworks attachments with the result that he fell and cut his face. On account of the mischief he will not be able to attend to his office for a few days. These injuries and dangerous obstructions should either be removed, fenced off or provided with a lantern, as they are a positive menace, especially at night.

This little frock, which is slightly draped, has a novel sleeve and raglan drop-shoulder. There is also a draped collar, to follow our another new idea which is becoming strongly favored this season. The Gladstone collar, which stands away from the throat all around, is one of the season's most popular novelties; it may be made separately of organza, thin muslin or batiste and is very effective when worn with a dark dress of this description.

Any of the soft silks, tafeta, silk poplin, crepe de china or tulle may be used with this design (8263) as well as cotton crepe or one of the other new cottons. The suggestion of drapery in the front of this skirt renders it dressy enough for almost any afternoon affair.

For size 36 this design requires 4 1/2 yards in 36 inch material. Pattern is cut in six sizes, 34 to 44.

she had a 57 per cent interest, appraised at \$135,000, and 75 Fifth Avenue, worth \$127,000. She had mortgages worth \$44,213 and securities valued at \$86,742. Three pews in Grace church were appraised at \$450. She inherited the bulk of the real estate from her father, Edward Jones.

The will of Mrs. Potter contained no expression of her feeling toward her oldest daughter, Mrs. Elizabeth Bagnell, who now lives at Dulton Lodge, Norfolk England, except that she gave her only \$15,000 outright and left her an income of \$5,000 a year for life. The only bequest to Mrs. Bagnell's three daughters, Vivian Margot, Hope Dorothy and Irene Helene Bagnell was an annuity of \$1,500 each.

Mrs. Potter gave her residuary estate to her three unmarried daughters who lived with her at Pau. Mrs. Bagnell's daughters is about \$24,000. It was learned that Mrs. Potter's reason for depriving Mrs. Bagnell of an equal share with the other daughters was her daughter's persistence in marrying, in the face of her mother's opposition, a curate's son whom she met while traveling in England. Mrs. Potter did not break off relations with her daughter but continued to visit her in England. On one of her visits she met Mrs. Alice Graves, who had become a member of Mrs. Bagnell's household and to whom Mrs. Potter took a strong dislike. She noticed on one of her visits that a son of Mrs. Graves was attentive to Mrs. Bagnell's eldest daughter.

Mrs. Potter came to this country soon afterward and on September 21, 1912 added a codicil to her will in which she said that whereas she had set aside a net income of \$1,500 for each of her granddaughters, she directed "that if any of my granddaughters should marry a son of Mrs. Alice Graves the one so doing shall forfeit any share in my estate and the principal sum held in trust by the executors and trustees for my granddaughters."

**PREDICTS ST. JOHN WILL BE THE NEW YORK OF CANADA.**

**MONTREAL,** May 2.—W. U. Homfray, an English capitalist, who recently returned from England, is responsible for the statement that representatives of three large British manufacturing concerns are en route to St. John, N. B., to look the city over for a site for the location of branch factories to handle the Canadian business. The prediction of Mr. Homfray is that St. John will be the New York of the Dominion as a port for ocean trade, and also predicts a big industrial expansion for this city.

**Protection Assured Assured Protection**

The greatest industry known in Canada. The Mason Pure-bred Silver Black Fox Co., Ltd., without doubt is one of the best protected companies to-day on P. E. Island. Why? Because our black beauties go into a ranch costing about \$4,000.00. Secondly, because the man that has full oversight of our stock is an experienced ranchman; also a man that enjoys the full confidence of the public. Thirdly, because the promoters and directors are men of the highest standard along all business lines. Fourthly, because our company will have one from five to ten pups, just the size that pays the largest dividends. Now take the summary of the above company. Not one dime you invest goes towards paying for an expensive ranch. Not one dime you invest goes towards paying for running expenses of ranch. Not one dime goes towards paying officials' salaries. Every dime you invest goes directly to pay for the losses at the lowest capitalization offered on the market, quality being considered. Now for the benefit of those who wish to get in on the ground floor as termed by some, we beg to advise you that we have made provisions for a limited number to do so, providing opportunity is taken advantage of without much delay. Now what do the shareholders stand to share in? We are going to make this so clear that the ten-year-old school boy can figure out his rightful dividend. Buy the first year we only have ten pups in our ranch, that would give shareholders ninety per cent. of the ten pups; or still plainer: the shareholders own nine of the pups while the tenth one is owned by the ranchers for all running expenses. Can one conceive of a more generous or better protected proposition submitted? Impossible! Now for the benefit of the interested one: Just drop the undersigned a line to the effect that you would be pleased to have further insight into our company, which, without doubt, is the best of all 1914 fox propositions. On doing so a prospectus will be furnished you. The undersigned can be seen in Craqueau, May 6th, and in Bedouque, May the 8th. Further station of call made later.

Yours respectfully,  
W. S. NEWSON,  
Charlottetown, P. E. I.

P. S.—Two foreign letters made application for thirty-eight shares. I hesitate long means to regret still longer.

**A GREAT SCANDAL**

**Big Efforts to Hush the Matter Up— The Truth Out At Last**

From exhaustive enquiries made during the last few months we find there have been a number of patients kept under conditions which to say the least of it, is a great scandal.

We trust our readers will bear with us for a moment. The facts of the matter are these, there have been some thousands of cases where horses have been suffering from distemper, coughs, colds, kidney troubles, contracted hoof, swellings, splints and enlargements of all kinds, and in some cases no attempt has been made to relieve their suffering, their owners either being indifferent, or where they have thought at all about their animals have had recourse to cheap so-called remedies, of which there are unfortunately a few on the market, but which, while some may give a little relief temporarily, cannot from the nature of their ingredients give permanent relief or effect a cure.

It is high time in our opinion that something should be done to bring this state of things to an end, and with this in view we are about to take drastic action, to bring before every owner of horses that "wonderful remedy known to all as "Dr. J. Woodbury's Horse Liniment."

This remedy has been used for years throughout the Dominion during which time it has been used in hundreds of cases, comprising distemper, coughs, colds, kidney troubles, contracted hoof, swellings, splints and enlargements of all kinds, and in no case to our knowledge, has "Dr. J. Woodbury's Liniment" failed to first relieve and then to cure the above mentioned complaints.

Every owner of horses should, if they have not already got a bottle of this Liniment in their stable immediately procure one. It is the only guaranteed remedy we know of, and it is a cheap form of insurance, and it will be found, that if used immediately on symptoms of any of the above diseases appear, to give immediate relief, and probably save tremendous expense, probably the life of the horse as well.

Dr. J. Woodbury's Horse Liniment is sold by Stores and Chemists throughout Canada, but should your Store-keeper be out of stock he will procure it for you, and if you should find any trouble in getting a bottle, don't delay for an instant in mailing 35 cents and a bottle will be immediately forwarded you.
