

OVERWHELMING VOTE FOR HOOVER ON FIRST BALLOT AT REPUBLICAN CONVENTION

A Single Roll Call In The National Convention Told With Impressive Finality The Story Of The Nomination. -- Nearest Competitor In Delegate Strength Amassed Before The Convention Assembled, Withdrew Entirely At The Last Minute.

(Special to the Guardian) CONVENTION HALL, Kansas City, Mo., June 15.—Herbert Hoover was chosen last night Republican candidate for President. A single roll call in the national convention told with impressive finality the story of his overwhelming victory against a united field of rivals. The official vote was:—Hughes, 1; Dawes, 4; Coolidge, 17; Goff, 18; Norris, 34; Watson, 45; Curtis, 64; Lowden, 74; Hoover, 837. A foregone conclusion ever since the convention met last Tuesday, his nomination became a reality long before the roll of the states was called. The final count disclosed the allied candidates against him in complete rout. Lowden of Illinois, his nearest competitor in delegate strength amassed before the convention assembled, withdrew entirely at the last minute, saying he would not care to be a candidate on the same ticket as Hoover. He stands on a platform built around the Coolidge policies promising farm relief without mention of equalization fee, and pledging strict enforcement of the prohibition amendment. A fighting farm bloc pledged for endorsement of the McNary-Haug-

British Doctors To Co-Operate With Canadian Medicos

(Special to the Guardian) OTTAWA, Ont., June 15.—Following the receipt of the investigating immigration committee, the department of immigration announced today that 45 British doctors are being appointed to co-operate with the Canadian doctors in the British Isles in an effort to place no obstacles in the way of British emigration to Canada.

MARITIMERS HELD PICNIC

Old Boys and Girls Meet—Residents of Toronto Who Were Born In Nova Scotia New Brunswick and P. E. I. Enjoy Outing.

From The Evening Telegram, Toronto, June 11, 1928

About a thousand residents of Toronto and vicinity who were born in Nova Scotia, New Brunswick and Prince Edward Island attended the second annual basket picnic of the Maritime Provinces' Association of Toronto, held at Highland Lake Farm, Stop 34 Yonge st., Saturday afternoon. Nearly 300 went out by special T. C. radial cars from Toronto to the resort by automobile. The weather did not look very promising in the morning but that did not interfere materially with the success of the outing. The folks from down by the sounding sea had been looking forward for many weeks to their annual outing to renew old friendships and spend a few happy hours together. No mere inland cloud, or even a storm, could have dampened the enthusiasm of these sons and daughters, most of them of the fifth and sixth generation of the English, Scottish and Irish pioneers who heaved out homes for themselves along the Atlantic seaboard in the early days.

CURTIS FOR VICE-PRESIDENT CONVENTION HALL, Kansas City, Mo., June 15.—Senator Charles Curtis of Kansas was nominated by the Republican National Convention today for vice president of the United States.

Papal Delegate Given Great Welcome At Halifax

HALIFAX, N. S., June 15.—Catholics of Halifax united tonight to extend a colorful and impressive greeting to His Excellency the Papal delegate to Canada, Archbishop Casullo, who arrived on a visit to this diocese. Thousands of people crowded the streets until the congestion was so great that the parade of cars from the railway station to the Palace of the Archbishop was diverted to less frequented streets and many who had waited hours for a glimpse of the church dignitary were disappointed. The apostolic delegate was greeted on the steps of the Archbishop's palace by His Grace Archbishop McCarthey. From that point Archbishop Casullo bestowed the apostolic blessing while hundreds knelt in the street before the palace. Later the official address of welcome was read in St. Mary's Cathedral, that from the clergy being delivered by Rev. Father C. E. McManus, parish priest, while Sr. Nicholas Meagher read the address from the laity. The apostolic delegate will spend five days in the Diocese and will celebrate Pontifical High Mass at the convent of the Sacred Heart tomorrow morning.

Announcements, Coming Events, Meetings, Etc

- *Dr. Clift, M.D.—Start now home prevention cure, Purdy Station, Westchester Co., N. Y., U. S. A. 6-13-3 mos.
*Reserve Tuesday, July the 10th for the Congregational picnic of the Hampton Circuit of the United Church. 6000-6-15-21.
**ROBIN HOOD RAPID CHINA OATS. Better oats, better China, all Grocers. 6-15-2wks.
*Hear Paul Kollins in Victoria Hall, Friday, June 22nd. 6006-6-15-51.
*Mr. R. W. Lindsay will speak of his trip to Scotland in Kingston Hall Tuesday, 19th June at 8 p. m. 25c admission. If rainy then Wednesday. 6024
**Piano Recital by the pupils of Mr. Arthur Vessey in Hertz Memorial Hall, Thursday evening, June 28th. 6021
**Emerald Shipping Club taking hogs, lambs and wool Wednesday forenoon, June 20th. (Signed) D. N. McKay. 6028-6-16-21
**Presbyterian auxiliaries of the W. M. S. please forward their money to Presbyterial Treasurer, Miss Mary E. McNutt, 23 Upper Prince Street, Charlottetown, by July 1st.
**Members of Belfast Egg Circle wanting to have their hens culled this season send their names to the manager or Secretary before June 28th as list must be complete on that date. W. N. Ross, Manager; W. H. MacInnis, Secretary. 6029
**Antique Store, 181 St. George St. open from Monday, June 18th. 6037-6-16-31

New Wireless Service Opened

(Special to the Guardian) MONTREAL, Que., June 15.—Official announcement is made today of the opening of a new trans-Pacific wireless telegraph service, a direct beam wireless from Canada to Australia. The new service is being operated by the Canadian Marconi Company in Canada, and the amalgamated wireless (Australia, Limited) in Australia. The service today was for press matter only, the general commercial service starting tomorrow.

Bennett Plans Canadian Tour

OTTAWA, June 15.—Hon. R. B. Bennett has mapped out an intensive speaking tour that will carry him to both eastern and western Canada during the summer months. After visiting Renfrew, Ont., on June 21, he will leave for La Prairie, Que., where he is to speak on June 23, from Monday, June 25, to the following Saturday, he will visit a number of points in Quebec's eastern townships. The Conservative leader goes west in July to be in Calgary in time for the stampede and is scheduled to return to Ottawa, Ont., for a speaking engagement there on July 23. A tour of the Maritimes is planned for later in the summer.

Buying Canadian Wheat And Flour

(Special to the Guardian) OTTAWA, June 15.—The United Kingdom is freely buying Canadian wheat and flour, the shipments from Canada in the month of May being 22,344,844 bushels of wheat valued at \$31,707,753 and 241,186 barrels of flour worth \$1,618,553. Curiously more Canadian wheat is shipped by U. S. A. ports than by Canada, but most of the flour goes via Canadian ports. The wheat shipments via the United States totaled 14,294,827 as compared with 8,850,017 bushels by Canadian ports. The flour shipments were 45,031 barrels, via the United States and 196,155 barrels via Canadian ports. One of the principal reasons that takes Canadian wheat to United States ports is its utility as ballast for ocean liners which will take it as a nominal rate if the current cargoes are lacking and needs no special storage facilities. Improved facilities for handling at Montreal, however, are to some extent offsetting the advantage the American ports possess in having more liners calling. Montreal's exports last year peaked to be higher this year. Vancouver is also shipping western wheat via the Panama Canal.

I. O. O. F. FUNERAL NOTICE
The Officers and Members of St. Lawrence and Wilsey Lodges will meet in their Lodge Room on Sunday, June 17th at 2.30 P. M. for the purpose of attending the funeral of their late friend and Brother
WILLIAM C. WHITLOCK
B. C. VANDERSTINE, Secy. St. Lawrence Lodge.
FRANK NICHOLSON, Secy. Wilsey Lodge.

IDEAL LOCATION

Last year the first outing ever held by the Maritimers was held at High Park. This year they were invited to the spacious estate of Mr. and Mrs. R. W. E. Burnaby, Stop 34 Yonge st. and no more suitable place could have been selected—a 470-acre farm, with a 35-acre lake in the centre of it. Following the picnic last year the Maritime Provinces' Association was formally organized. Since then similar associations have been formed in Winnipeg, Calgary and Montreal. The amalgamated Maritime statesmen had been invited to speak at the picnic this year. Hon. R. B. Bennett and Hon. J. L. Ralston. They were unable to come on account of the House being in session at Ottawa, but both of them sent greetings. Messages were also received from the Acting Premier and the Publicity Association of Prince Edward Island and other prominent citizens.

SPEECHES DELIVERED

There were a few brief speeches delivered by Archbishop Neil McNeill, a Nova Scotian and honorary vice-president; Bishop Willard Brewing, native of New Brunswick; Geo. H. Sedgewick, K.C., president of the association; R. W. E. Burnaby, chairman of the executive, who presided. Greetings and regrets at their inability to attend were received from Hon. W. D. Ross, Lieut. Governor of Ontario, who is honorary president; Sir Robert Falconer and Chancellor Whidden, honorary vice-presidents. Besides community singing on the lawn, A. F. Morash, leading in which The Telegram song sheets were used, musical selections were given by the following: Mr. Gessbold Wilson, Mrs. Gordon F. Page, Miss Grace Perry, Miss B. G. Robbins, who has been secretary of the association since the beginning, was presented with a bouquet on behalf of the committee by W. W. MacPhee, and Mrs. R. W. E. Burnaby was the recipient of a similar presentation with an expression of appreciation on behalf of the assembled Maritimers by Prof. E. D. MacPhee.

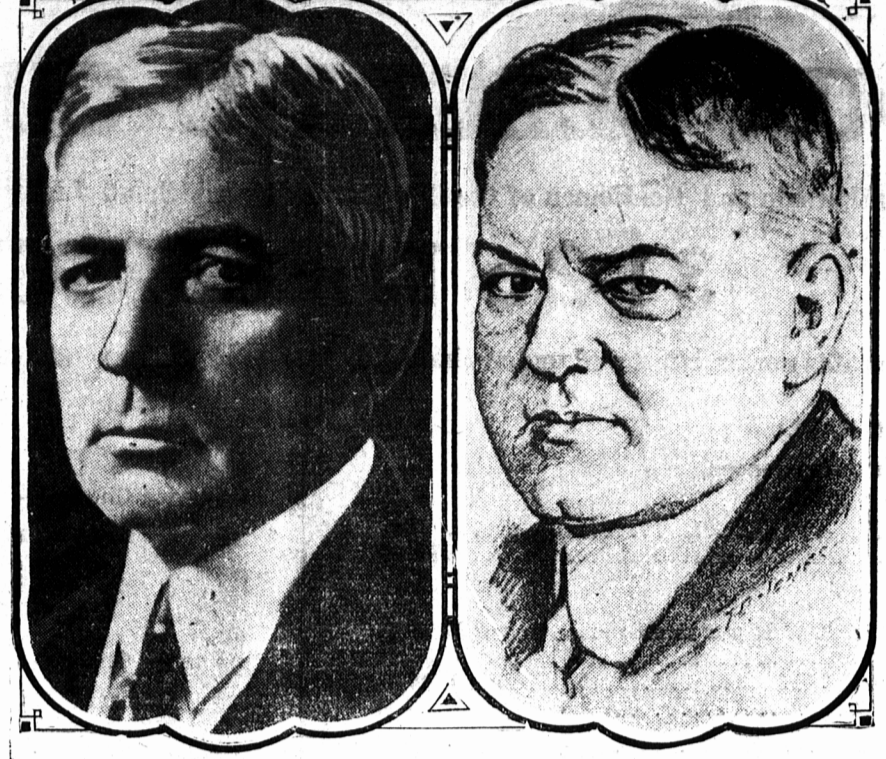

PICNIC COMMITTEE

The picnic committee was composed of the following: W. W. MacPhee, chairman; Mrs. Alex. Quigley; W. R. Rutherford, Mrs. H. C. Christie, Alan MacDonald, A. J. MacNevin, Prof. E. D. MacPhee, Miss B. G. Robbins, R. W. E. Burnaby, G. Frank Beer, M. S. Brennan, W. A. Tremblay, Mrs. Andrew Gormally and A. W. Rogers. The sports, games, races were all keenly contested, young and old enjoying themselves immensely. In spite of the coolness of the day a number had a dip in the lake, while others used the rowboat. All walks of life were well represented at the gathering of the class, especially ecclesiastical, educational and financial interests. There were scores of bank managers in attendance. It was a big family gathering and was most successful and enjoyable in every way.

Takes Seat In House Of Lords

(Special to the Guardian) LONDON, June 15.—Lord Byng of Vimy duly took his seat in the House of Lords yesterday afternoon, being sponsored by Lord Lee of Fareham and Lord Hampden.

REPUBLICANS NO MINUTE HOOVER FOR PRESIDENT

Above are photographs of former Governor Lowden of Illinois and Herbert Hoover, Secretary of Commerce in the Coolidge Administration. The latter was chosen Republican nominee for president Thursday night at the convention in Kansas City. He received 837 votes, while Lowden the next highest man, got only 74. It is the expectation of his friends that Mr. Hoover will shortly resign from the Cabinet, and after consulting with leading Republicans in Washington, will go to his California home, to receive official notification of his choice as party standard bearer.

RED CROSS CLINICS HELD FOR CRIPPLED CHILDREN

Dr. T. B. Acker of Halifax Under The Auspices Of Red Cross Society Held Clinic Yesterday For Children Suffering From Orthopedic Disabilities.

Despite the rainy weather a large number of crippled children from throughout the province were yesterday examined by Dr. T. B. Acker, orthopedic specialist from Halifax, who has been brought here under the auspices of the Red Cross Society. Thirty-eight children were examined yesterday twenty of which were new cases and the remaining eighteen being cases which had been treated by Dr. Acker on a previous visit to Charlottetown. Progress was reported to be excellent on these latter cases. There was one instance of two children, a pair of twins, who had very bad bow legs which had been operated upon by Dr. Acker. Today their legs are quite straight and they are growing tall and strong. Another child when first examined was unable to walk, but now is able to get about with the aid of braces and crutches. The improvement of all children wearing the properly fitted apparatus was reported to be splendid. Many types of deformities were brought to Dr. Acker's attention: very neck, spinal curvatures, hip trouble, club feet and other foot conditions, arthritic deformities, bad postural conditions and other deformities due to improper feeding and poison from deceased tonsils and teeth. On Thursday, two babies with double club feet at the City Hospital were operated upon by Dr. Acker. Yesterday they went home with straight feet and will not grow up crippled and unhappy. This is only one instance of the splendid work being done by the Red Cross in bringing health conditions in Prince Edward Island. As a result of the clinic yesterday many disabled children, because they were treated while young, will grow up to be healthy and sound and an asset to the community. Others, whose lives might have been spent in suffering and misery, will be able to enjoy the benefits of life to a far greater degree than otherwise.

MEDICAL SOCIETY WILL HOLD PUBLIC MEETING ON THURSDAY

Citizens Of Charlottetown Invited To Attend Meeting In P. W. C. Hall To Be Addressed By Two Prominent Upper Canadian Doctors And By Hon. Dr. J. H. King, Minister Of Public Health.

The meeting of the Medical Association in which the public will be most interested will be that to be held in Prince of Wales College Hall on Thursday evening, opening at 8 o'clock and to which the public are cordially invited. At this meeting three addresses will be given, each of which will be of special interest to all classes of citizens. Dr. Alan Brown of the University of Toronto will speak on "Sunlight—its effect on growth and resistance of the child." The discovery of the ultra-violet ray and the influence that it exerts on health will give this lecture added interest and importance as means have been discovered to separate and to utilize the different rays of sunlight. Dr. A. Grant Fleming of Montreal will next speak on the benefit of the value of periodic health examinations. This subject will appeal to all who realize that prevention is better than cure. The necessity of periodic examinations as to health and physical condition should appeal strongly to everyone who desires to maintain good health. "Immigration" will then be discussed by Hon. Dr. J. H. King. This subject has engaged widespread attention during the past few years and will be discussed free from political bias. Many points of interest will be brought out under this heading. It is hoped that there will be a large attendance at this, the only public meeting of the series. The subjects to be discussed are of vital importance to all and should be heard by all.

Pre-Viking Ships Found In Sweden

STOCKHOLM, Sweden, June 16.—Two pre-Viking ships 1,500 years old and one over 5,000 years old have just been found in Sweden by delighted antiquarians, and these finds are shedding new light on ancient Swedish seafaring and seamanship. The oar, made for paddling, was found deep in a moor in Dalecarlia, (the heart of Sweden) and was sent to the Historical Museum, where an expert fixed its age at 5,000 years by means of examining a piece of soil where the object was found and the appraisals of engineers who found here just completed a four-months survey of the properties. The sunken vessel was undertaken in February, when the companies signed contract denoting their willingness to merge "if and when an agreement can be reached on property appraisals." The oar, made for paddling, was found deep in a moor in Dalecarlia, (the heart of Sweden) and was sent to the Historical Museum, where an expert fixed its age at 5,000 years by means of examining a piece of soil where the object was found and the appraisals of engineers who found here just completed a four-months survey of the properties. The sunken vessel was undertaken in February, when the companies signed contract denoting their willingness to merge "if and when an agreement can be reached on property appraisals."

Commons Adopt Bill Providing For A Fixed Easter

(Special to the Guardian) LONDON, June 15.—The House of Commons today adopted the so-called Easter bill which provides for the stabilization of Easter, fixing the date as the Sunday after the second Saturday of April. Easter Sunday, under the present system, is the first Sunday after the Ecclesiastical full moon on or next after March 21, and therefore cannot be earlier than March 22, or later than April 25. This year it fell on April 8.

LIGHT COM. COMMENDED

Work of Councillors Kennedy, Foster and Reardon Deserves Great Praise Says Mr. MacKee—New Rates Explained.

Mr. MacKee, Manager of the Maritime Electric Co., in Charlottetown, speaking of the new light rates, spoke as follows to The Guardian representative: "The citizens in general have no idea of the amount of work which was accomplished by their light committee. The members of that committee, Councillor Samuel Kennedy, Chairman, and Councillors E. A. Foster and M. W. Reardon are deserving of exceptional thanks for the difficult and arduous task of gathering data from the surrounding cities of the Maritime Provinces and elsewhere and for the careful collection of this data for the purpose of comparing the old rates with the new rates now existing. The work accomplished by these gentlemen could not be excelled by a board of experts, that is to say, an electrical expert working in collaboration with an expert in mechanical engineering could not have done better work on the question than did the Light Committee. Mr. Donaldson, the Vice President of the Company was simply amazed at the ability the courtesy and the tact with which the Councillors on the Light Committee handled their side of the case. As to the new rates, Mr. MacKee states that they go into effect from June 1st of this year. In a nutshell, the rates for residential purposes under the new schedule are as follows: (1) For residences with a floor area of over 1200 square ft.: Service charge, \$1.00. For the first 30 Kilowatt hours used, 7c per Kw. hour. For each Kw. hour over 30, Kw. hours 3 1-2c per Kw. hour. (2) For residences of less than 1200 square feet floor area: Service charge, 75c. For each Kw. hour used up to 17 Kw. Hour, 7c. For each Kw. Hour used over 17 Kw. Hour, 3 1-2c. Here is an example of a bill for a householder living in a residence of less than 1200 square feet floor area, who uses 10 Kw. hour per month: Under the Old Rate Meter rent 25 10 Kw. hours @ 7c. 70 \$1.45 Under the New Rate Service Charge 75 10 Kw. hours @ 7c. \$1.45 This, it will be noted gives a saving under the new rate of 10c. on the bill. If more electricity is used the saving will be greater. Thus if the householder used 30 Kw. hrs. his bill in each case would be: Under the Old Rate Meter Rent 25 30 Kw. Hour @ 13c. \$3.90 \$4.15 Under the New Rate Service Charge 75 17 Kw. hour @ 7c. \$1.19 13 Kw. hour @ 3 1-2c. 46 \$2.40 Giving a saving of \$1.75 under the new rate. The public should understand that a Kilowatt is simply a measure of electrical power. Roughly, it is equivalent to about 1 1-3 horsepower. To be precise a Kilowatt equals 1,000 watts, and a horsepower equals 746 watts. Now, a Kilowatt hour is just the use of one Kilowatt for one hour, as one horsepower hour is the use of one horsepower for one hour. And when you are paying for that 7c. for one third more work than a horse would do in the same time. The efficiency of electric lighting has gone up remarkably in the last few years, especially since the introduction of the Nitro Lungsten lamp. One of these lamps as designed for domestic service will use 48 of a watt per candle power of illumination supplied. At this rate, a 60 watt lamp would give about 96 candle power. In the days of the old carbon filament lamps, it required 3 1-2 watts to produce one candle power. So that a carbon lamp consuming 60 watts would produce only 17 candle power! Mr. MacKee, in replying to a question as to what extensions of the system were planned outside

BANDITS STAGE BOLD HOLDUPS IN KANSAS CITY

Robbed Home Trust Company of Between \$20,000 and \$30,000 and Escaped—5 People Wounded—One Man Fell Dead from Excitement.

KANSAS CITY, Mo., June 15.—Appearing suddenly in the midst of Republican convention traffic jam, seven daring bank robbers today held up the Home Trust Company at 1119 Walnut Street, in the downtown district, and escaped with a loot estimated at between \$20,000 and \$30,000. Tear gas let loose in the bank by an employee interrupted the hold-up and the robbers fled, firing wildly with shotguns and revolvers. Five persons, including two patrolmen, were wounded and one man fell dead from excitement. Two of the wounded were in a serious condition. The crowded condition of the downtown streets aided the robbers in escaping. James H. Smith, traffic officer, was hit in the neck and right shoulder with a shot gun discharge, after he had fired at the robbers' car careening wildly up the crowded Walnut street. Miss Lillian M. Rolen, 16, was shot in the face. She fell almost in the car's path, as did the wounded officer. Darrell Capshaw, a patrolman, was shot in the leg, as Charles Monaco and Kenneth Knickerbocker, pedestrians, suffered flesh wounds from stray bullets. Alvin Faeth, 80, a shoe salesman, who saw the hold-up, fell dead from heart disease.

Supreme Court At Summerside

The attention of the Supreme Court at Summerside yesterday was taken up with the case of the King vs. Alfred Essery charged with prison breach and escape. The prisoner was charged with breaking out of the lock-up at Kensington on Dec. 2nd last, while under arrest on a criminal charge. Evidence for the Crown was given by H. R. Moase, Mrs. Bertha Essery, Mrs. Charlotte Bridges, James McArthur, and Frank Glover. At the conclusion of the case for the crown, Mr. Heath Strong, K. C., Counsel for the prisoner moved that the accused be discharged on the ground that the Crown had failed to prove the legality of the arrest, insofar that the police officer who made the arrest was not armed with a warrant, had not seen the prisoner commit any offence against the criminal code, but made the arrest solely on the strength of what someone else had told him, and by finding the prisoner intoxicated which was not a criminal offense under Supreme Court ruling. Judge Arsenault upheld the contention of the counsel and instructed the jury to bring in a verdict of not guilty which was accordingly done and the prisoner discharged. Mr. T. A. Campbell conducted the case for the crown. This closed the criminal docket. The appeal case of Fred MacInnis, Borden, against F. J. Platts, Customs and Excise Enforcement Officer, is now before the court. This is an appeal from a decision of Alexander Campbell and John Mollison, Justice of the Peace, for Prince County, who found the appellant guilty of having liquor unlawfully manufactured in his possession, following a seizure of five cans of rum contained in a suitcase which was found in his residence. Mr. E. H. Strong is appearing for the appellant and Mr. T. A. Campbell for the respondent.

Arm chairs have been invented in England with pneumatic cushions that can be folded for compact storage. Intended for soldering about radio sets, a new iron resembles a pistol and is heated by a six volt battery.

stated into the near by country city that it was not expected that much would be done, in that way this season, but the matter had not yet been definitely settled.
