GERMAN YARDS TO BUILD TWO SHIPS FOR FRENCH BERLIN, July 7.—The manager of the Deutsche Werke at Kiel recently declared that he was optimistic concerning the ability of the yard to compete with private yards now that the workmen in the semi-state had agreed to accept a rate of wages no higher than those paid to men employed in privately owned yards.

ASTHMA!

Spread Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

MINARD'S "KING OF PAIN" LINIMENT

Was This Lad Dull? No! His Mother had unknowingly neglected his eyesight. One boy or girl out of every four has below average eyesight.

COOL BUT FORGETFUL A few minutes after the alarm was given in the hotel fire one of the guests joined a group of friends that were watching the spectacle and chafed them on their apparent excitement.

"There was nothing to be excited about," he said. "When the alarm sounded I jumped out of bed. Light-

LETTER OF SYMPATHY Dear Mrs. Dixon,—We, your co-workers in the DeSable Auxiliary, W. M. S. wish to convey to you our profound and prayerful sympathy in the loss of your darling little baby, Gladys.

The parting was hard, but O, such a short while, then the reunion. To think how much hardship the darling has escaped in this cruel world, and how happy she must be in the "arm of Jesus."

May God make your sad bereavement a great blessing to you in drawing you nearer to Him with His one word which is the prayer of your fellow-workers.

Prayerfully, G. P. CAMERON, Cor. Sec.

THE WESTERN GUARDIAN

—SHOP from Holman's Catalog—FOR LATE WESTERN NEWS Page 3 is available.—FURNITURE SALE at Kensington, Saturday, July 11, 1 p.m. by W. E. Johnson, 2166

—LOST IN SUMMERSIDE on Summer Street, a Gold Wristlet Watch. Please leave at Post Office.—HUCK TOWELS, assorted sizes, worth to 75c, selling for 48c a pair at Sinclair's. 2173-7-8-2

—MEN'S SMOKED ELK Ox-fords with Crepe sole, July special \$2.95 a pair at Sinclair's. 2173.—VISIT NEW BRUNSWICK—Mr and Mrs Chelmsford McLeod of Kensington returned last week from an extended trip through New Brunswick. They visited friends at Norton and then proceeded up the St. John valley crossing the American border at St. Leonard's.

—BEDEQUE CIRCUIT, Sunday, July 12th—An opportunity to hear the only P. E. I. representative of the former Methodist Church on the General Council of the United Church of Canada. Mr Thos. Moyse one of the 323 who signed the petition that formed the United Church will speak on the recent Toronto gathering at Bedeque 11 a. m., Cape Traverse 3 p. m., Searletown 7.30 p. m.

—WEDDING BELLS—A pretty wedding took place in the Dock Church, Abertown, Wednesday, June 24th at 7 a.m. when Rev. G. A. Christie solemnized the marriage of Miss Annie Edna Miller, daughter of Capt. and Mrs. D. S. Miller, Summerside, (formerly of Abertown) and Mr. Albert Ernest Harris, Summerside. Only the immediate friends were present.

—TO VISIT SUMMERSIDE—Through the courtesy and kind offices of His Honor, Lieutenant Governor Hertz, who believes in all parts of the province and all people being treated alike, H.M.C.S. will visit Summerside, on Saturday, July 11th, and will remain at the Railway Wharf for several hours before returning to Charlottetown where she has been this week, and will be remaining next week. During her stay at Summerside the ship will be thrown open to visitors and many will no doubt take advantage of the privilege of inspecting the vessel. The affair will be quite informal. We unfortunately have no means of firing a salute here, since Capt. Fred Peterson is "busted," but as the patriot is Canada's crack torpedo boat destroyer and more especially as this is the first visit of a warship to Summerside, the event should be made a red-letter day and every flag and every ounce of sentimentality should be thrown open to visitors and many will no doubt take advantage of the privilege of inspecting the vessel.

—KENSINGTON, P. E. I.—The members of the 1st Kensington Troop of Boy Scouts spent a most enjoyable day in Charlottetown in the 9th Inst. in committee man Mr J. A. Thompson and Scoutmaster Rev. G. T. Springs took the boys in their cars, one car had the Boy Scout flag hung on the back immediately on arrival the Troop went to Bruce Stewart's Foundry and under the kindly guidance of Mr. F. Stewart made a tour of the factory and were instructed in the use of various machines. The afternoon created much interest. After dinner served at the Davies Hotel the party paid a visit to H. M. C. S. Patriot. The officer in command explained most carefully the guns, torpedoes, engine room and bridge, sparing no trouble in giving the Boy Scouts an insight into the wonders of a British torpedo boat destroyer. At 3 p. m. Miss Hutchison, superintendent of the P. E. I. Hospital showed the boys various parts of the Hospital equipment, including operating room, instruments, X-ray, laundry, kitchen, etc. At the conclusion of the day Miss Beer photographed the Troop. At 4.30 p. m. Mr. E. Hertz of the Charlottetown Fire Department explained in a most interesting manner the Fire Brigade Equipment, chemicals, ladders, smoke helmets, also gave the best rate advice about care of gasoline and lamps, and explained the many causes of fire. The Experimental Fire was supervised where Mr. Clark the superintendent explained in detail many things including poultry, garden (vegetable and flower). After supper at the Davies Hotel the Troop reached home safely at 10.30 p. m. tired but well satisfied. The 1st Kensington Troop wish to thank all who so kindly helped in explaining so many interesting items during the outing.

Deems Planes Unfit For Polar Trip

OSLO, July 7.—The lure of the Arctic has taken a firm hold on the men who accompanied Captain Amundsen on his recent attempt to reach the North Pole by airplane. All of them are anxious to join the next trip but they declared it should not be made with airplanes, which they hold, proved definitely that they were unsuitable and dangerous under polar conditions.

loads to a field on North Street. He had left the auction hose in the pool with the handle of the baller across the top, which was left open. There were several children playing on the opposite side of North Street, but none of them were seen about the Gammons yard. When McGrady came back for another load he saw in the water what he thought was a large doll and did not recognize it as a body until he had pumped considerable from the pool. When it was learned that it was a child, an emergency call was telephoned to the fire station and for doctors. The hook and ladder truck responded and chauffeur Jack Williams took a ladder and went down the coespool which at this time had about four feet of water in it and brought the child out. Dr. J. H. Barkhead and Dr. A. V. Smith, assistant medical examiner, arrived, but I twos of no use as the child had been dead some time and all efforts to revive him failed. Dr. Smith pronounced death due to accidental drowning. Patrolman Charles H. Rogers investigated and took charge of matters at the scene until the body was removed by undertaker William L. Sault. There are several young children in this neighborhood and the dead boy was playing with them the first of the morning when he left them cannot be learned but it is presumed that he wandered into the Gammons yard and seeing the hole peered into it with the result that he slipped and fell to his death. The funeral was held yesterday afternoon with burial in Nemasket Hill cemetery. Rev. C. R. Chappell conducting the services.—Mrs Hale was formerly Miss Annie L. McLeod of Mt. Hope P. E. I.
