FIVE LOSE LIVES IN P. E. I. OVER WEEK-END

Former Organist Here Dies In Toronto

TORONTO, May 4—(CP)—Professor Hiram Ball, 84, for 70 years organist in churches across Canada, died here Saturday. A memorial service was held tonight at the Morley S. Bedford Chapel. Born in England, Prof. Ball came to Canada in 1909. He became organist of First Baptist Church, Moncton and conducted a music studio there. Later he was organist at the First Baptist Church, Charlottetown, the United Church, Moncton and the German Street Baptist Church, Saint John, N. B. Surviving are his widow, a son Norman of Toronto and a daughter Mrs. R. B. Clark, Moncton.

Coming Events

- "Now in stock, choice Peace River oats. McGuigan and Boyle.
- "Dance in K. of C. Hall, Souris, Tuesday, May 6th.

These Six Boarded T. C. A. Airliner Now Missing In B. C.

Anastasia Lealuk, T.C.A. hostess on holiday, was aboard missing plane. Margaret Terrie is another stewardess, was going to her home in B. C. Newlyweds Mr. and Mrs. C. P. Nugent were married Saturday in Winnipeg. Helen Salsbury was stewardess on plane. Her home is New Westminster. Margaret Hamblin of Vancouver was passenger. Search for airliner continues.

City Council Rescinds Previous Resolution Re Daylight Saving Time

Pair Sentenced To Penitentiary Terms

Ernest Swallow and Fred Reid, both of Charlottetown, were sentenced last Saturday to five and two years respectively in Dorchester Penitentiary by County Court Judge C. Gavan Duffy. The men, charged with breaking and entering with intent to steal, had elected to be tried under the Speedy Trials Act.

N. B. Pilot Is Seriously Injured

MONCTON, N.B., May 4—(CP)—Gilbert Keirstead was in hospital here tonight with serious injuries received when the light plane he was piloting crashed on his parents' farm at Pearsonville, N.B., 18 miles west of Sussex, earlier today. Keirstead, holder of a private pilot's licence, was flying a Tiger Moth owned by the Moncton Flying Club and was on a solo cross country flight from Moncton Airport, where he is employed with the Department of Transport. Occupants of the farmhouse saw the crash and removed Keirstead from the wrecked aircraft. He was brought to Moncton Hospital where it was found he had received serious head injuries. X-ray examinations were being made to determine whether he had suffered internal injuries.

GOOD SUGAR SEASON

FREDERICTON, May 4—(CP)—Backward spring weather has lengthened the maple sugar season in New Brunswick and resulted in a record large yield of sap. Under the influence of cold nights and rising day temperatures, sap is still running in this district. Record crops have been reported from the Big and Moncton areas.

U.S. Army To Resume Arctic Training Plan

By Elton C. Fay

WASHINGTON, May 4—(CP)—The United States, its prime military attention focused on potential invasion routes over the polar cap, is planning a second winter of Arctic training and special Arctic-operating naval ships. The army announced Saturday night that elements of an infantry division and troop carrier aircraft will engage in joint Arctic exercises in Alaska beginning Nov. 1. Gen. Jacob L. Devers, Army ground forces commander, said that last winter's manoeuvres convinced him that new emphasis must be placed on the use of "air transportable" foot soldiers in those areas. The army's announcement follows a Navy request to Congress Friday for a construction program to include both submarines and surface ships especially equipped for duty in ice-packed Arctic waters. To start off that part of the program, the navy proposes one sub-

No Trace Of Missing Plane

VANCOUVER, May 4—(CP)—For the sixth successive night, weary hollow-eyed search pilots taxied their planes up the strip and reported "all leads negative" in the search for the Trans-Canada Airlines transport, missing since early Tuesday with 15 persons. Another fruitless alarm sent crews scattering from the ready-room and caused crash boats to be put to sea Saturday when word came that a light, civilian plane had gone down on Gabriola Island while "beach crawling." However, planes put back and crash boats returned at half speed when it was learned that the plane had landed on a beach to investigate a possible clue. Thirteen United States Army, Navy and Coast Guard aircraft flew north at the request of Western Air Command during the weekend, bringing the number of search planes scouring coastal skies to 50.

British Coal Miners On Five-day Week

LONDON, May 4—(AP)—Britain's coal miners were told by Government leaders and trade union chiefs Saturday to protect their newly-won five-day work week by increasing production and refraining from "unauthorized" strikes. The five-day week, goal of the miners for nearly a century, goes into effect tomorrow, with many in this coal-shorth country frankly fearful that shorter working hours may bring a repetition of last winter's fuel crisis in which thousands of factories were forced to close.

Ramadier Expels Five Communists From Cabinet

By ROBERT C. WILSON
PARIS, May 4—(AP)—Premier Paul Ramadier's three-month-old coalition cabinet expelled five Communist ministers tonight after the French National Assembly gave the Socialist premier a two-to-one vote of confidence in which Communist members dissented. Dropped from the Cabinet were Communists Maurice Thorez, vice-premier; Francois Billoux, minister of national defence; Charles Tillon, reconstruction; Ambroise Croizat, labor; and Georges Marrane, public health. Four of the posts then were filled temporarily. Pierre Henry Teitgen, a co-vice premier with Thorez, was assigned to take over the Communist leader's governmental functions; Yvon Delbos of the Leftist Rally was named to succeed Billoux; Robert la Coste, Mouvement Republicain Populaire, replaced Croizat; and Jules Moch, a Socialist, took Tillon's post.

U. S. AIR ACE KILLED

CHICAGO, May 4—(AP)—Capt. Donald Aldrich, marine air ace who shot down 21 Japanese planes in Pacific warfare, was killed Saturday when his navy Corsair fighter plane overturned at a south side airport.

251 Prisoners Freed By Jewish Underground

Blast Hole In Wall Of Centuries-old Prison; One Of Greatest Mass Escapes Of Modern Times.

By CARTER L. DAVIDSON

JERUSALEM, May 4—(AP)—Jewish underground fighters freed 251 Jewish and Arab prisoners of grim Acre Prison today by blasting a hole in one of its centuries-old walls, as 15 persons died in the bloodiest outbreak of violence in the Holy Land in many weeks. Ten men, including four Jewish prisoners, an Arab prisoner and three Jewish raiders, were killed in the wholesale prison delivery which the underground fighters accomplished by planting four bombs in Turkish baths adjoining the prison wall after screening the attack with gunfire and grenade blasts. Two other Jews who apparently were wounded fatally in the raid were found dead in a jeep near Acre. The injured included 11 Jews and an unspecified number of criminal lunatics who were wounded slightly by a grenade blast which preceded the wall bombing. British authorities announced also that five Jews were killed when British troops, returning from a beach party near Haifa, clashed with a group of Jews.

Crusader Castle

The British spokesmen said that 555 prisoners were interned in the former Crusader castle and that 131 Arab prisoners and 120 Jewish prisoners made their escape. Sixteen prisoners were recaptured and seven of the attackers were taken prisoner.

The raid, believed to have been one of the world's great mass escapes of modern times, opened when two jeep loads of Jewish underground fighters in military uniforms entered Acre, which lies across a bay from Haifa.

Arab sources said the Jews warned the Arab population not to interfere and then began a diversionary attack at the prison walls by engaging police in gunfire and hurling hand grenades.

Irgun Zvai Leumi, one of Palestine's three Jewish underground resistance organizations, promptly issued a communique to Hebrew newspapers claiming responsibility for the attack on the prison where Dov Bela Gruner and three other Irgun members were executed two weeks ago for terrorist activities. Another clash between British forces and the Jewish underground occurred at Nahariya, north of Haifa, where terrorists in an army truck threw six bombs into an encampment of the 2nd Parachute Battalion of the 6th British Airborne Division.

Labor Returned In Australian States

By WILLIAM STEWART
SYDNEY, Australia, May 4—(CP)—Labor governments in two Australian states, New South Wales and Queensland, were returned to power in Saturday's general elections.

The counting of votes cast under a compulsory system in New South Wales and voluntary balloting in Queensland are not yet complete but they indicate reduced but comfortable majorities for both re-elected governments which were opposed by coalitions.

May Detect Atomic Explosion Anywhere

WASHINGTON, May 4—(AP)—Scientists have discovered that a bomb dropped beside a target does more damage than one dropped directly on it. In addition they are testing a device which may be developed into an "ear" capable of recording an atomic blast anywhere on earth. This was disclosed by scientists at a meeting of the American Physical Society Saturday attended by top atomic scientists.

Dr. Jean Van Neumann of Princeton University found that if a bomb is dropped straight down on a target, the pressure against the target surface is double that originally created by the explosion. But if the angle is altered and the bomb explodes at one side, the shock may be three times as great. The device for recording explosions was described by Dr. Everett F. Cox of the Naval Ordnance Laboratory.

Dr. Cox made no mention of the possible use of the instrument in detecting atomic disturbances. But other scientists said if the sensitivity of the apparatus could be increased "it is within the realm of possibility it could be developed into an atomic bomb blast detector."

Attlee Suggests Patience, Hard Work

LONDON, May 4—(AP)—Prime Minister Attlee today counselled patience and hard work for his labor followers as British workers celebrated their "May Day" with rallies throughout Britain.

Another member of Attlee's Government, Attorney General Sir Hartley Shawcross, declared that if the Government should fail it would be succeeded eventually by either Communism or Fascism. British workers celebrate their labor holiday on the Sunday following May 1.

ORILLIA, Ont., May 4—(CP)—Martin Insull, 77, brother of the late Sam Insull and long associated with him in a utilities empire which crashed in the United States some years ago, died in hospital here today.

Martin Insull had been in a rest home here in recent years. Martin Insull was an associate of Samuel Insull in the Middle West Utilities Company and headed the \$2,000,000,000 corporation until its collapse in receivership in 1932. Martin then retired. He was born in Reading, England, and retained his British citizenship throughout his half-century of residence in the United States. Insull had been ill for only a week before his death in the Soldiers' Memorial Hospital here. His wife died two years ago. He left Chicago before shareholders of the vast utilities organization learned their shares were worthless and a long ex-

Four Drowned, One Killed On Highway

Three Maritime Provinces Count 12 Accidental Deaths Since Friday.

At least 12 deaths from accidental causes were counted in the Maritimes over the week-end, five of them in Prince Edward Island. Those losing their lives in this Province included: Ralph MacLeod, French River. Preston Harding, French River. Antoine Blanchard, Duver. Marlin Hill, Kensington. Freeman Logan, Fort Augustus. The first four were lobster fishermen, drowned off New Brunswick late Friday. Logan was killed when he fell beneath the wheels of a truck at Mount Stewart Saturday. Four persons were drowned in accidents in Nova Scotia and New Brunswick, while three died from traffic accidents and one was burned. Following are additional details:

Killed By Truck
Freeman Logan, 26, Fort Augustus, was instantly killed Saturday afternoon when a rear wheel of a large truck passed over his head. Logan had been riding with the driver, Ivan Thomas Smith, also of Fort Augustus, when, nearing Mount Stewart, he is said to have leaped from the cab. An autopsy was performed upon the body yesterday morning by Dr. Harold Shaw, provincial pathologist.

An inquest, presided over by Coroner Dr. J. J. Yeo, will be held in the Mount Stewart school at 3.30 p.m. Tuesday. The jury comprises Daniel L. Mullins, foreman; Earl Jay, Nathan McCormack, Leigh Coffin, Edwin Clark, John B. MacEachern, and Arthur McLaughlin.

Four Fishermen Drowned

The storm-tossed waters of the Gulf of St. Lawrence claimed the lives of four lobster fishermen who had braved its dangers Friday afternoon when they set out from New London Harbour to set their lobster traps. The victims are: Ralph MacLeod, 38, French River; Preston Harding, 40, French River; Marlin Hill, 22, Kensington; Antoine Blanchard, 19, Duver. They put to sea at 2.25 p.m. Friday and early Saturday morning their boat, half filled with water and with the top of the cabin swept away, came ashore on the East Shoals of French River. Harding's body was in the boat, his watch stopped at 4.25. None of the other bodies have been recovered and it is considered useless to drag for them.

An inquest will be held. It was a terrible day on the North shore on Friday so bad that no other boats put out of New London harbour that day, but the lobster season had opened on Thursday and the fishermen were anxious to set out their traps. The four men left (it was only the second time out for Hill) with their forty-five foot boat piled high with lobster traps. No one will ever know for sure what happened but when the boat was found it was noted that the two engines had been switched off.

On Way Home

It is assumed that they had left their traps and were on their way in when perhaps their steering

Island Members Will Participate In Budget Debate

OTTAWA, May 4—(Special)—Three and perhaps all four of Prince Edward Island's members of the Commons will take part in the Budget debate which resumes this week, according to a poll taken over the week-end by The Guardian's Ottawa correspondent. Dr. T. V. Grant, Liberal member for King's and whip for the Province said he had a few remarks and comments to make on national financing with particular reference to the Maritimes. "I don't propose to speak at great length," he said, "since by the time I have the floor much of the ground may be covered and I see no sense in duplication. I had an address prepared in the Three Speech debate, but after consultation with our chief whip decided to forego the privilege of speaking. "After all," the King's member said, "we want to get out of Ottawa some time and get back to

(Continued on Page 5 Col. 3)

TORONTO, May 4—(CP)—Minimum and maximum temperatures: Vancouver 44, 61; Edmonton 45, 60; Winnipeg 35, 45; Toronto 44, 55; Quebec 40, 56; Montreal 40, 51; Ottawa 34, 39; Saint John 41, 63; Moncton —, 70; Halifax 43, 50; Charlottetown 40, 67; Sydney 40, 66; Yarmouth 51, 62.

HALIFAX, May 5—(Monday)—(CP)—Weather synopsis and official inland forecasts issued by the Dominion Public Weather Office at Halifax at 12.15 a.m. Monday.

Synopsis: After three days of rain and cloudy weather the sun finally began to shine in many parts of the Maritimes on Sunday. This caused further warming of the air from the south which had spread over Nova Scotia, Prince Edward Island and the southern part of New Brunswick and temperatures in the Annapolis Valley rose to 72 degrees. However, cold air from Labrador was still flowing into Northern New Brunswick and at Campbellton the high for the day was only 36. A disturbance centered near Montreal is causing rain in western New Brunswick and Gaspé. Forecasts valid until Monday midnight: Prince Edward Island: Variable cloudiness with widely scattered showers. Fog during the night. Very warm inland and warm along the coast. South winds 15, increasing by morning to 30, 25. High Monday at Charlottetown 68.

High tide this morning at 10.49 and tonight at 11.45. Sun sets this evening at 7.10 and rises tomorrow morning at 4.44. Last quarter moon May 13th, 3.08 A. M. Summerside tide eighteen minutes later than Charlottetown.
