You never save until you start

Not all of us have a savings account. But to make it really mean something calls for planned saving... and a strong mind. One way is to work toward what you want most: a new home, a car, an education for your children, the extra security or opportunity that a "nest egg" provides... Savings can mean so many things... The important thing is to start... and to put aside so much a week - every week. Remember, some are born lucky; smart people save.
