## Rapid Circulation in the "Bison" Heater

The expansion of hot water in the heater causes circulation. If the water heats at the bottom first, it cannot circulate till the water in the upper sections is also heated. Most heaters heat the bottom water first.

The "Bison" heats the water at the top first.

That is why it gets almost instantaneous circulation of hot water into the radiators—it is one of ten reasons why the "Bison" is the best heater.

## A BIG EXHIBIT IS NOW BEING SHOWN

In all Lines of Stylish and Serviceable Vehicles—A. Horne & Co. Have an Unexcelled Assortment.

SMART REDINGOTE WRAP.

With the coming of summer, thoughts of a new carriage, a stylish horse and natty harness are uppermost in the minds of all who have the privilege of enjoying the delightful weather and beautiful scenery of Prince Edward Island. The enjoyment of driving lies to a great extent with the carriage, for with a poor carriage the fastest horse will give but a small part of the pleasure that can be obtained in this way.

At the big establishment of A. Horne & Co is to be found an immense display of vehicles of all kinds and at all costs. The Guardian representative, who, last evening, dropped into the store, counted on the ground floor alone fifty carriages set up for exhibition purposes while in the upper stories were crates, reaching to over a hundred in number, filled with all the popular styles, which are being daily opened to replace those being sold in city and country.

A. Horne & Co handle two lines, viz., the manufacture of the Tushope Carriage Company, Orillia, Ont., and that of E. N. Heney Co., Ltd. of Montreal. In their big exhibit from these well known makers are included phaetons, surreys, physician's Stanhope buggies, Mikados, jump seats, regular and 2 buggies, 2 concords, road wagons and road carts, each to appeal to the taste or the business of the buyer. The special lines include the solid rubber tire buggies, the cushion tire buggies and the cushion and pneumatic tire runabouts.

The large assortment of harness in the harness room is such as will appeal to every horseman who sees it. Twenty-five samples are set up in the makes of Heney, Rodd and of Ayr, whose names are synonyms of excellence and good value. The styles carried are the nickel plate, solid nickel, oriole and genuine rubber in light, heavy and medium weights of make.

The firm is daily sending out large quantities of stock which is being replaced by shipments constantly arriving from the manufacturers. The lines carried have an unexcelled reputation throughout the provinces and the large sales are a tribute to the sound business methods and reliability of A Horne & Co.

### NEW INNOVATION ON GRAND TRUNK.

The Grand Trunk Railway System, ever on the alert to inaugurate new innovations that are conducive to the comfort of patrons travelling on their lines, have added to their principal trains a staff of train porters, who will be located in the first-class coaches to look after the welfare of passengers. This new system has been installed on the "International Limited," leaving Montreal 9.00 a. m. for the West, and the fast train between Toronto and Montreal arriving Montreal 6.00 p. m. The system has also been established upon the fast trains between Toronto and Detroit, Niagara Falls and Port Huron, and Montreal, Toronto and Chicago. The Grand Trunk is the first line in Canada to install this new idea, and the public will appreciate the great convenience it will be to first-class coach passengers, who will have a porter to look after their needs, give information, and do all he can for their comfort en route. This new feature will be especially recognized as a boon to the travelling public by ladies travelling alone and with children.

### JAPS BUYING CATTLE.

MONTREAL, June 2—Japan is going to experiment with Canadian cattle and, if it is found that they can be raised satisfactorily in that country, a new field for Canadian live stock will be found. K. Kayu, a representative of the Japanese Government, stated this morning that he had bought in Canada a head of fifty Ayrshire cattle, which he was shipping to Japan. If the cattle thrive in the Japanese climate more will be brought to Canada.

### Food the best tonic medicine she ever used.

Mrs. Sarah Gill, 254 Euston Street, Charlottetown, P. E. I., states,—“As a natural consequence of increasing age I was beginning to feel run down and felt that I needed something to tone up my system. I procured a box of Dr. Chase's Nerve Food and can say that I found it a most excellent medicine. I have used several of Dr. Chase's preparations and always found them very beneficial. I consider Dr. Chase's Nerve Food the best nerve and general tonic I have ever used.”

Because Dr. Chase's Nerve Food is a creator of blood and nerve force, you can be positive that each box of it is at least doing you some good. Prove this by noting your increase in weight as new, firm, flesh and tissue is being added to the body.

### NEXT YEAR IN ST. JOHN.

H. H. McLean and Allan Royce. On invitation of Col. McLean the association unanimously decided to hold the next year's meeting in St. John.

### THE WORST OF A COLD.

Is how suddenly it comes. No time to hurry to the drugstore, croup develops, the lungs are effected with pneumonia or tuberculosis and it's too late. Keep Catarrh gone on hand—It kills colds instantly. Something magical about the way it cures Catarrh and Bronchitis. Catarrh is the best remedy because it cures in nature's way it heals, soothes and restores permanently. Carry a Catarrh Inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.
