Frequently in the past complaints have been heard in this city in connection with the practice of certain householders whose residences are not connected with the civic sewer system, of allowing their wash water, soap suds and other drainage to flow under or across the sidewalk out to the street gutter. By this method of getting rid of drainage a decidedly unbecoming appearance is presented on the street and a nauseating odor is continually arising off the drain. One near the station has been noticed frequently of late to be in the above condition and this is indeed a very poor spectacle to present to arrivals on the trains, more especially tourists or those on their first impressions invariably take deep root. The sanitary principle of the matter alone should be enough reason for a decisive step to end this nuisance.

All will have a day of delight if they go with the Baptist Sunday School picnic to Hamilton's Grove, near Georgetown. A well equipped refreshment tent will supply best ice cream, fruit, candy, etc. Thursday, 29th June. Train leaves Charlottetown 9 o'clock, return fare for adults 50c., for children 25 cents.

Rev. John McInnis of Park Street Church, Halifax, lectured before a large audience in Valleyfield Church on Thursday last, subject, "How much is he worth?" A. S. Stewart presided. With a fine flow of eloquence the lecturer pointed out the difference between real individual worth and what often passes for worth and independence of character. The closest attention was given to the lecturer throughout, after which the chairman, Mr. J. W. Martin, and others paid a fitting compliment to Mr. McInnis who received a hearty vote of thanks from the audience.

The following resolution has been sent to Rev. E. Bell, city: The Conference passed the following resolutions respecting your application for a superannuation relation: The Conference has received with regret the application to place the name of Rev. The Conference gratefully recognizes the fact that he has served the church for something like thirty-eight years with much devotion and success. The Conference expresses its sympathy with him in his present enforced retirement and prays that much of Divine blessing may rest upon him and those closely related to him. Signed on behalf of the Conference: William Harrison, J. L. Dawson, Letter Writers.

**BROKEN-DOWN NERVES**  
HOPELESS CONDITION CURED BY "FRUIT-A-TIVES"

MILFORD HAVEN, ONT., Aug. 20th, 1910  
"I was a complete invalid, three years ago, with Stomach Trouble, Constipation and Broken-down Nerves. I could not sleep at night and my Doctor did me very little good. I was almost helpless until I began to take "Fruit-a-tives" in small doses. I have taken about three dozen boxes in all and, Thank God, to-day I am well and strong—able to do my own work—and have a baby fifteen months old, and six children in all.  
I would not be without "Fruit-a-tives" in the house, and I can highly recommend them to anyone suffering as I did."  
MRS. D. G. GUNNEY.  
Nervousness is not a disease in itself, but is the result of some of the vital organs becoming diseased. In Mrs. Gunney's case, her nervous condition was caused by a very weak stomach and torpid liver. "Fruit-a-tives" strengthened her stomach—helped digestion—made the liver active—and cured Constipation. Then her nerves became well.  
If your nerves are "all unstrung," take "Fruit-a-tives" 5c. a box, 6 for \$2.50, or trial size 50c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

from taxation and gave them privileges which would gladden the heart of any manufacturer.  
They built a mill at Bedford where water power was available, here they crush their Cocoa Beans bought direct from the finest plantations in Venezuela. The sugar is West India cane juice refined but a few miles from their factory. Fruits are abundant in Nova Scotia and there they secure them getting only the choicest and best. Nuts, Brazils, Almonds and Filberts are imported direct from South America, Halifax being a direct port of call. Thus all the raw products are laid down at their door at a cost to them far below that of any other competitor, English, Canadian or American. So much for the raw products but it is in the manufacturing process that Moir's, Ltd., really shine. It has been truly said that "Moir's is best."  
The factory is a model one, fashioned on modern and scientific principles with sanitary features predominating. All the workers are also kept clean and neat in their persons and work. It has been said that one who once walls through Moir's factory is always easy on the score of cleanliness.  
Moir's claim that their chocolates contain the heaviest and best coating of any on the market, this one can easily test for oneself by observation. It is the coating that costs, so that when they claim superiority in coating it simply means better value.  
In the matter of fillings the firm exercises particular care not one particle of saccharin or artificial sweetness is used in their products and heighteners or ethereal essences are not employed. These, while giving more intense sweetness, ruin the digestion and are condemned by leading physicians.  
All the fruit fillings, essences, etc., are true and pure to label "Moir's" standing for nothing but the best. Some idea of the demand for Moir's Chocolates can be formed from the fact that their factory is running always at its fullest capacity. Orders are continually pouring in from all parts of Canada, Montreal, Toronto, Winnipeg and Vancouver being principal consumers.  
In Charlottetown the MacKinnon Drug Co. are handling Moir's Chocolates to the exclusion of all others. They have built up a very large trade by keeping a good assortment and securing a fresh shipment weekly.  
This added to the excellent care they take in displaying them and their protection in a clean, sanitary case, has made their chocolate business one to be envied.

**BIG FAILURE IN MONTREAL.**  
MONTREAL, June 25—A large business failure was noted here yesterday when Richard Hensley, one of the most prominent jewelers in the country, made an assignment in favor of his creditors. The assignment was made at the instance of the Quebec Bank.  
The statement is made that over expansion of the business was the direct cause of the trouble, the firm engaging in wholesale, retail and manufacturing lines, and carrying on business throughout Canada and the West Indies. A meeting of creditors will be held shortly. No figures are at present available.
