(Special to The Guardian.)
PARIS, Oct. 29.—Germany must deliver 275,000 tons of shipping to the Allies as compensation for the sinking of the German fleet in Scapa Flow, the Reparations Commission decided today. Germany, according to despatches, submitted to her council of ambassadors, will strictly observe the Allies interpretation of clause in the peace treaty providing that the Kiel canal shall be free to international traffic. This is a reversal of the German government's previous attitude under which vessels carrying arms to Poland were stopped.

THE MINERS STRIKE ENDS BY THE END OF THIS WEEK

Miners Receive Two Shilling Advance to End of Year Unconditionally, Wages in Future to be Settled by National Wage Board.

(Special to The Guardian.)
LONDON, Oct. 29.—The prospect is that the coal strike will terminate by the end of the week through the miners' acceptance of the agreement arranged with government under which the miners will get a two shillings advance, unconditionally until end of year, and in future their wages will be settled by the creation of a National Wage Board. In the event of any delay in starting the Wage Board, wages will, in the interval, be settled on a basis of increase or decrease, according to the surplus profits or otherwise, from coal exports. This depends upon such complex calculations as to render it hardly possible for any miner to understand, therefore in ballot to be taken next Tuesday the miners must necessarily be guided by the recommendation of their leaders. Their leaders favor settlement on these terms. The agreement is skilfully arranged so that all concerned, including the coal miners, will be interested in increasing the output, as in case of a decreased output the owners will be penalized by the reduction in their ten percent share of surplus profits.

40th. Anniversary Of A Great Business

Reddin, senior partner and founder of the business has given the following summary, which, brief and business like as it is, will be found not without its own romantic interest, covering as it does nearly half a century of progressive changes, beginning with the infant business, struggling for existence, up to the handsome establishment of the present day.

DUBLIN, Oct. 28.—For a time night there were fears that the detailed arrangements of the funeral ceremonies here tomorrow in honor of Lord Mayor MacSwiney of Cork, would be entirely upset by an official notification to the effect that a special steamer would be available at the Holyhead port to convey the body of MacSwiney direct to Queenstown. The Sinn Fein chiefs, however, held a meeting to consider the situation and decided to proceed with the arrangements in part. These will include mass at the Pro-Cathedral and the running of a special train to Cork.

His Lordship Bishop LeBlanc imparted the final absolution. The Bishop said that if MacSwiney might not be called a martyr he must at least be considered a hero who had died for an ideal and one who had not died once but every day of the 73 of his fast. He asked the large congregation to pray for the early settlement of Ireland's difficulties.

Life Belt and Sailor's Box

YARMOUTH, Oct. 28.—A life belt marked S. S. Lake Yemassee and a sailor's hard wood box, together with a sailor's jumper, has just been found on the shore at Pembroke, about seven miles from this town. The life-belt, showed signs of having been in the water for some time as it was badly broken and the cork was lost from several of the sections. Just what it may indicate is a mystery, as no report of the Lake Yemassee can be learned here. She is a United States Shipping Board ship, built in 1919 on the Great Lakes.

CHIEF SECRETARY FOR IRELAND IN SPIRITED REPLY

LONDON, Oct. 28.—The incident of last night's debate in the House of Commons was the spirited re-
tor of Sir Hamar Greenwood, chief secretary for Ireland, to Joseph Devlin, Nationalist M. P., who had spoken of the Irish administration as that of a Canadian chief secretary. Sir Hamar declared that the story was one to be proud of and no part of the empire was more favor-
able to Home Rule. He regretted, and hoped every newspaper in Can-
ada would repeat his statement, that the first Canadian in the po-
sition of chief secretary for Ireland had been attacked because he was a Canadian.

Theatre

A play which kept everyone in good humor from start to finish was the sparkling rural comedy, "Broken Shells" presented at the Prince Edward Theatre last evening by the Mac Edwards Players. Mr. Johnny Young as Calvin Wiggins, a bright young "feller" of the "trooly rooly" type was the main fun producer of the evening and his original phrases and witty retorts caused roars of laughter. He was ably supported in the comedy line by Miss Riggs as the maid, and Harry Stuart as Hiram. Miss Edwards and Miss Lee in the leading female roles were excellent while Mr. Corbin as the Rev Jim Renfrew took this part in his usual capable style.

EXHIBITION OF RANCH BRED SILVER FOXES.

An unique exhibition under the immediate management of the Com-
mission of Conservation, will be held in Montreal on November 24th, 25th and 26th. It will be the first international exhibition of ranch bred live silver foxes. Fur farming is rapidly becoming a scientific branch of animal husbandry and, although little more than a decade old, is one of Canada's most flourishing industries.

ISLAND REPRESENTATIVES AT CANADIAN RED CROSS METINGS

Mr. Theodore Ross returned to the province Monday evening, after attending a dinner given by the Canadian Red Cross to Herbert Hoover of the American Food Board at Toronto and meetings of the Child Welfare Convention of the Advisory and Consultative Committee of the Canadian Red Cross and of the Central Council of the Red Cross.

He and Mr. Justice Hazard were the delegates from Prince Edward Island. They both spent a very busy week and will have much to tell of the interest being taken in Public Health work in the various provinces of Canada.

The banquet in Toronto was attended by upwards of 300 representatives of the Red Cross. At it Mr. Hoover made a very short appeal to the Canadian Red Cross to undertake a campaign all over Canada in aid of the 4,000,000 starving children of most of whom fell fighting on side of allies. He was supported in his plea by Professor Todd of McGill University, who recently returned from a two years stay in Poland.

Dr. James W. Robertson stated that the British Empire War Relief Committee had undertaken to raise \$10,000,000 for this purpose and he hoped Canada might contribute in the vicinity of \$500,000. The Child Welfare Convention was held at Ottawa on Tuesday and Wednesday last and was presided over by Dr. Amyot, Deputy Minister of Public Health. There were in attendance 181 delegates representing the Public Health Department of the various provinces,

mink, beaver, fisher, marten and other fur-bearers. Present advices indicate that fully 150 animals will be brought from Prince Edward Island alone. It is confidently expected that other provinces will send an equally large number in proportion to the number of their fur-farms and many enquiries have been received from the United States. The Secretary of the exhibition is Mr. F. C. Nunnick, Commission of Conservation, Ottawa.

A healthy growth of the industry should do much to check the rapid depletion of wild fur-bearing animals and to steady unstable conditions in the large fur markets. It is confidently expected that the formation of a Fur Breeders' Association of Canada, which can do much to establish and keep accurate breeding records of pedigreed fox stock and, in general, advance the interests of the industry.
