Blood Disorders are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is.
