

FROM DEATH'S DOOR.

How a Prince Edward Islander was Rescued from Death.

Five Doctors Pronounced his Case incurable—All Remedies except Dodd's Kidney Pills Failed to Help Him—Dodd's Kidney Pills Cured Him.

LIVERPOOL, N. S. July 8.—The all-absorbing topic of conversation for the past few days here, was furnished by an incident that occurred on the market on Saturday.

A well-known farmer, resident a few miles from town, had purchased a box of Dodd's Kidney Pills from Mr. Arthur Hutchins' drug store.

To a friend he remarked that his son was taking them for Bright's Disease.

"Are they doing him any good?" asked his friend.

"They are," was the answer. "He has used only one box yet, but he has improved wonderfully. No other medicine that we tried did him the slightest good."

"Dodd's Kidney Pills are the greatest and grandest medicine that ever was made," put in a bystander, who had overheard the conversation.

The little group turned to the speaker questioningly. He continued:

"I know personally of a case in which Dodd's Kidney Pills saved a precious life—snatched a man from the very brink of the grave.

"I was travelling in Prince Edward Island, and was staying at a place called North Carleton.

"Everybody was talking of a Mr. M. B. Connick, who had suffered with Bright's Disease for fifteen years.

"Five doctors attended him. They all pronounced his case incurable. The best doctor in the district said the same.

"He was induced to try Dodd's Kidney Pills. Ten boxes cured him. They will cure your son, sir, you may be sure."

Dodd's Kidney Pills are sold by all druggists at fifty cents a box, six boxes \$2.50, or sent on receipt of price, to The Dodd's Medicine Co., Limited Toronto.

A BLACKSMITH'S STORY

He Became so Run Down That Work was Almost Impossible—His Whole Body Racked with Pain.

From the Bridgewater Enterprise.

Mr. Austin Fancy is a well known blacksmith living at Baker Settlement, a hamlet about 10 miles from Bridgewater, N. S. Mr. Fancy is well known in the locality in which he lives. He is another of the legion whose restoration to health adds to the popularity of Dr. Williams' Pink Pills.

During the last winter, owing I suppose to overwork and impure blood, I became very much reduced in flesh, and severe pains in the muscles all over my body. I felt tired all the time, had no appetite, and often felt so low spirited that I wish myself in another world. Some of the time, necessity compelled me to undertake a little work in my blacksmith shop, but I was not fit for it, and after doing the job, would have to lie down; indeed I often felt like fainting. I was advised to try Dr. Williams' Pink Pills, and after using a couple of boxes, I felt a decided relief. The pains began to abate, and I felt again as though life was not all drudgery. By the time I had used six boxes I was as well as ever, and able to do a hard day's work at the forge without fatigue, and those who know anything about a blacksmith's work, will know what this means. Those who are not well, will make no mistake in looking for health through the medium of Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

Making for Peace.

WASHINGTON, July 8.—Washington and Madrid are negotiating terms of peace. The white flag still flies over the Santiago lines.

NO TIME TO TRIFLE.

Diarrhoea and Dysentery are too dangerous to experiment with untried remedies.

Dr. Fowler's Extract of Wild Strawberry has over 40 years of cures to its credit and never fails in the severest cases.

Diseases, such as Diarrhoea, Dysentery, Inflammation of the Bowels, Cramps, Colic and Summer Complaint, are recognized by everyone as exceedingly dangerous.

When you or any member of your family is attacked, you want a remedy you are positive will cure. These diseases are so serious, too rapidly fatal, if neglected, for experimenting with cheap and dangerous imitations of the genuine Dr. Fowler's Extract of Wild Strawberry. You want something that will, without fail, touch the spot and check the advance of the disease promptly.

Mrs. Meddleton Wray writes from Schomberg, Ont., as follows: "Dr. Fowler's Extract of Wild Strawberry is the best remedy I know of for Summer Complaint and Bowel Diseases of children. I have used it in our family for the past seventeen years and never had occasion to call in a doctor for these troubles, as the Fowler's Extract always worked like a charm."

No Flagg of Truce.

SANTIAGO, July 8.—There has been no messages nor flags of truce between the commanders since Wednesday afternoon, when Admiral Naval Constructor Hobson and his men were exchanged.

Piles Cured without the Knife.

by Dr. A. W. Chase's Ointment.

Mr. Geo. Browne, painter of Woodville, Ont., Victoria Co., says:—"For thirteen years I was a sufferer from bleeding piles and the intense agony which I passed through during those years and relief I obtained by Chase's Ointment prompts me to give this testimonial. My physician wished me to have an operation but I felt I could be cured without the knife. Three boxes of Dr. Chase's Ointment stopped the bleeding and effected a permanent cure."

Saturday, Bargain Day.—MCGOGGAN & WRIGHT.

MR FRED DEACON, son of Mr Marcus Deacon of Freetown, aged about 16 years had a close call about one week ago. He and his mother were chasing the horse on pasture, both riding when Fred's horse shyed, throwing him off. He was picked up and carried home unconscious and Dr McKay of Kensington was sent for. On examination he found that a piece of the skull nearly three inches square was crushed and parts of it pressed into the brain. Dr Johnson, of Emerald, was also called in and after an operation lasting over two hours the pieces of bones were removed and replaced and the wound fixed up. Although at first it was thought impossible for him to live, he is steadily improving and is now in a fair way to complete recovery.

A DISCUSSION that ended somewhat abruptly took place on a P. E. I. train a few days ago between a burly doctor of unmistakable Scotch pedigree, and a popular travelling agent whose pride in his German extraction is kept somewhat in check by a swarthy complexion bordering on the aboriginal, and on which he is very sensitive. The relative merits of Scotch and German blood were discussed almost to the boiling point, when the genial German wishing to be generous remarked: "I would not deny the Scotch, for after all there is a good deal of the Mac in my own veins." "Yes," retorted his merciless antagonist,—"a good deal of the Mac-Mac." And a coolness fell on the air that made the passengers imagine they had got into the new refrigerator car.

The Deadly Parallel

OLD STYLE BEARINGS VS. RED BIRD CAGED BEARINGS

This Shows the Balls as they Are Placed in the Bearings of Other Wheels. In OTHER WHEELS, the balls are placed in a cup on the shaft and are allowed to find their own position during the period of momentum.

The consequence is that they fall one upon the other, each acting as a retarder for the other with the result that there is a sliding friction manifestly opposing.

This condition is clearly shown in the above illustration, in which B is a revolving cup. C the balls in motion, and A, a stationary retaining cone, the arrow fully indicating the retarding motion of the balls.

After an unrestrained ball crosses the top centre of a bearing, the weight of the ball itself is conveyed to enough of its fellows in front to throw their combined weight against the ball that is locked between the cup and the cone.

This Shows the Balls as they Are Placed in the Bearings of the Red Bird Special. WITH RED BIRD SPECIAL bearing, every ball runs in a separate cage, never touching each other.

This is done by way of a ball retaining cage that offers no resistance to the balls other than that due to its weight which is too light to be taken into account.

With this retaining cage the balls in a bearing are loaded equally, while in bearing where it is not used it is well known that at the top of the bearings the balls are loose and there is no contact between the balls and the bearing at that point.

With the ball retaining cage the revolution of each ball is regular and without any more friction at one point than another. Fewer balls are required, another reason for less friction.

Actual experiment and calculations made by experts have shown that in the working of a bearing equipped with this cage the avoidance or saving of friction reaches a maximum of 40 per cent.

The improved bearings is but one of the important features of the swell Red Bird Special, Canada's most carefully constructed wheel.
