

Island Clubs Dominate Confederation 'Spiel

DOWN THE BACK STRETCH

The annual meeting of the United States Trotting Association for District 11 will be held at the Scotia Hotel, Truro, next Tuesday at 2 p.m. All members who can make it convenient to attend will be welcomed.

One of the prominent visiting curlers here the past week for the Second Confederation Bonsel was J. H. DeWitt of Woodstock, N.B., who is greatly interested in harness racing, owns several prospects, including a son of Volomite 2033, and is an enthusiastic member of the Woodstock Driving Club.

This afternoon our Island horses and horsemen will be in competition with the Halifax speedsters. A first class program of two afternoons has been arranged and it is expected that the largest gatherings in years will view the races.

Tomorrow is closing date for the \$1,000 stakes programmed for Pictou's big race meet and celebration. If you have not secured an entry blank telegraph or phone your horse's name to C. E. English, secretary, Pictou, N.S., stating class to which eligible and indicating your intention of entering.

The three fastest pacers ever bred in Canada were: Winnipeg, 1:57 1/4; Kinney Direct, 1:59; and Frank Bogash Jr., 1:58 1/4. Winnipeg, that set the world's gelding record for pacers, 1:57 1/4, was bred in Calgary, being sired by Merry Direct and his dam was Calgary Lady. He raced from 1926 to 1932 and won over \$33,000. In 1927, after he had won races in from 2:01 to 2:08 he was sold to E. J. Baker for \$25,000, which at the time was the largest price ever paid for a gelding and placed in the hands of Sep Pallin, who gave him his world's record of 1:57 1/4. Kinney Direct was also bred in Calgary and sired by Merry Direct. He had one or two good seasons racing but never won anything like the amount of money that his illustrious half-brother did.

Frank Bogash Jr. was bred by E. C. Warner, Sand Hill, Quebec, being sired by the former Indiana pacer Frank Bogash, 2:03 1/4, and his dam was Phyllis Stanford, by Stanford. As a six and seven-year-old he was raced through the Province of Quebec and at nearby meetings in New York State, and in 1912 started in 13 races, winning every one of them. Naturally a campaign of that kind attracted the attention of the Grand Circuit's leading driver, Thomas W. Murphy, and when meetings opened in 1913 on the G. C. Frank Bogash Jr. was staked in all the top pacing events. He met formidable opposition right at the start, losing his first three races to Del Ray and his next two to Leata J. But Murphy was never a man to hurry his horses, and invariably his stable made a none-too-brilliant early season. Frankie's first victory on the Grand Circuit was in the \$10,000 Chamber of Commerce purse at Detroit. He won it, taking a record of 2:03 1/4. That race opened the eyes of leading horsemen and served notice that Murphy had a new star in his string. From then on he was almost unbeatable, winning nine out of ten starts, his only loss being to Leata J. He ended up with a record of 2:01 1/4, in winning the free-for-all pace at Lexington, Ky.

In his first trip through the Grand Circuit his winnings had passed the \$23,000 mark. That strenuous season didn't seem to affect him and when he started out in 1914, although he was up against the fastest free-for-allers in the world, he won eight out of

ten starts and lowered his record to 1:59 1/4 in the second heat of his race at Detroit, making him the then world's champion pacer gelding. His only defeats were from Directum I, that afterwards took a world's pacing record, and Flower Direct, 2:00, then in her prime.

He made only one start in 1915 and won it. The next year he appeared among the free-for-all pacers on the half-mile tracks in the four seasons he raced before being sent back to the minor ovals, out of 40 starts he won 32, was second in seven and third in the other. Very few horses that raced had more admirers than this Canadian pacer. Tommy Murphy said he was one of the nicest horses he ever campaigned and his caretakers were in love with him. He wore most of the rigging that goes with a hopped pacer, including knee boots, shadow roll, quarter boots and tendon boots.

The E. M. Smith starting gate which made its appearance at Santa Anita, California, last spring has been re-designed for 1948 and the car will make use of three engines, which gives it an extremely fast get-away, so fast that no horse can catch it. The supporting arm for the rubber barrier opens forward and away from the horses and is said to clear the track in less than a half-second. It's good performance have interested owners of thoroughbred tracks and there is talk of them using it in place of the "stall" system of starting now in vogue.

One of the best trotting prospects for this season is the bay gelding Jim Brewer, 2:08 2-5, by Lord Jim, 2:00 1/4, dam Josephine Brewer by Peter Astra, 2:01 1/4. He won four events at Saratoga Raceway last fall and is reported to have been timed a quarter away from the wire in 29 2-5 seconds.

Pagliacci, 2:09 1/4, now in the stud at Frank McKay's farm, East Royalty, is one of the best bred sons of Lord Jim, 2:00 1/4, his dam being also the dam of one of the greatest money winning trotters of all time, Peter Astra, 2:01 1/4. We have always been interested in Pagliacci as a potential sire of trotters, and crossed on mares by Calumet Budlong, a son of Peter the Brewer, 2:02 1/4, there should be every reason to expect results.

According to the United States Trotting Association office there are a potential 21 new part-mutuel tracks getting ready to operate under State licenses in the U.S.A. for 1948. They extend from Massachusetts to New Orleans and even in the State of Maryland, a home of the runners, there are applications for three tracks, at Laurel, Ocean City and nearby Washington, D. C.

The Prix d'Amérique, richest trotting stake in Europe, was held at the Vincennes track, near Paris, France, Sunday afternoon, Jan. 18. The distance was 2,800 meters, or about 1 1/2 miles. The track, not a fast one even when it is in its best condition, lay up and down hill, which naturally prevents fast time being made. Mighty Ned won the event from a very large field, stepping at the rate of 2:15 1-5 to the mile. The second horse was the French-bred Qui Qui and third place was won by the French horse, Lord Maire. The fourth place went to a Belgian trotter.

Mighty Ned was sired by Volomite, 2:03 1/4, and his dam was Nedda Guy (3) 2:08 1/4 by Guy Axworthy. He was bred at Walnut Hill Farm. He was 3-3 in the Hambletonian stake for two-year-

IN THE CORNER

The roar of rock and skip and the swish of broom will give way tonight to the roars of the hockey public when the W.K.S.-Q.S.S. interscholastic series for the Archer Trophy re-opens at the Forum. A City League playoff game between the Navy and Prince of Wales College team, originally scheduled has been postponed due to the illness of Navy personnel.

Tonight's game will be the second game of the best two out of three series. The Queen Square team took the opener by a 5-2 score. A skate will follow the close of the contest. It is expected that a large number of supporters of both teams will be on hand for this all important game.

While the Second Confederation Bonsel has gone down into sports history the event should not be allowed to pass without tribute being paid to those who made the Bonsel the success that it was. Too often responsible workers in connection with such an undertaking go unrecognized when the focus of publicity is concentrated on competitors. The officers and committee chairmen of the 1948 Confederation Bonsel follow:

Surprise team of the winter Olympics, the Royal Canadian Air Force hockey team is also the surprise team of Canada, says Ivan (Speaker) Miller. Having battled through all and sundry in the Olympics to compile the enviable record of seven wins and one tie, the Airmen have accomplished a minor miracle, insofar as expectations were concerned.

Few, if any, in Canada anticipated the Flyers would finish anywhere high in the final Olympic standing. Possibly no one expected they might eventually win! And yet the Airmen not only won, but they won because they had the best goals for and against average, giving up only five counters in eight games played!

An pick-up team winning the Olympics rates top credit! Any team of similar caliber gaining five "hat-tricks" in eight games rates something more than credit!

Moncton Wins Final Game Of Schedule 11-10 From Halifax

HALIFAX, Feb. 13 (CP)—Moncton Hawks graduated with top honors from the regular schedule of the Maritime Big Four Senior League tonight as they shaded Halifax Crescents 11-10 in a free-scoring rough and tumble classic at the Forum here.

A healthy lead paid off as a Crescent drive scored four goals in the last eight minutes while Moncton didn't get near the nets. Allan (Rock) Sullivan, star of Crescents tonight, drove in the last counter at 19:59.

HUNTERS' CORNER

Our wildlife, particularly upland game birds, due to natural conditions beyond our control, are passing through a period of deep distress. It fills one with a feeling of helplessness to watch valuable game birds die for want of sustenance. Hungarian partridge are dying in ever increasing numbers. This last cold snap when the temperature in Charlottetown dropped to 16 below zero and in the twenties in outlying country districts was more than many of the birds could stand. Only those coveys that have been fed regularly and conscientiously since the 1st of January were able to come through intact.

On Monday afternoon of this week I saw 3 Huns that wandered listlessly over the snowy wastes, wings drooping and with only enough strength left to make short flights and without the energy to light their way in to any feed station. A quarter mile farther on I flushed a covey of 19 that were full of pep. They got up with a drumming of wings and scolded off across several farms before alighting. It was plain that this covey had been well looked after. Once birds begin to lose weight to food shortage and their body heat wastes they are liable to freeze to death once the thermometer drops to 12 or 15 below zero or less than that in extreme cases. They are just like miniature furnaces. Keep stoking the fuel (food) to them and they'll generate a lot of heat. Stop stoking a furnace and see how quick the temperature in the house drops.

I was talking to a farmer from Nine Mile Creek this week. He told me that his kiddie had adopted a lone Hungarian partridge and was feeding it every day. It always spent the nights in a grain barn. The temperature dropped to a new low, 14 deg. below zero, at his premises on Friday night of last week. Saturday morning the partridge failed to appear for its morning feed. The kiddie found it later in the day. It had crawled in between two sheaves in the barn and had frozen to death during the night. The farmer said it was frozen solid and wondered why as it was in good flesh.

If that bird had been in a covey containing over 5 or 6 it would have been alright. Once the number of partridge in a covey drop below 5 in number they are liable to run into trouble with the cold if the temperature drops to 12 or 15 below zero unless they are fairly fat. It is feared that more partridge died this past week due to freezing than at any other time this winter. It will be some little time before the full extent of the casualties will be known.

The Kid and I adopted two coveys this winter. One of 10 and the other of 8. We have been feeding them beside a small hewn that sits beside a thorn hedge a short distance this side of the Peoples Cemetery. They are fed at least every 2nd day with a variety of food such as grains of different kinds, sweepings from a hay mow, chick starter and rolled oats mixed with shore sand. I made the rounds of the Wholesale houses and collected damaged packages of rolled oats. Packages that rats or mice had knawed holes in.

I walked out Monday evening and set out a fresh supply as the Probe indicated that a very cold night was in prospect. On Tuesday

Hayes Rink Captures Grand Championship; Trophies Presented

The J.G. Hayes rink of Summerside made a clean sweep of the major competitions of the Second Confederation Bonsel when they defeated the Frank Acorn rink of Charlottetown, yesterday, in the finals for the Confederation Championship and the Maritime Central Airways Trophy. The score was 10-8. It was the sixth straight victory for the strong Summerside aggregation.

Wednesday the Hayes rink won the Provincial championship, the Consols Trophy and the right to represent Prince Edward Island in the Dominion Curling Championships to be held at Calgary next month.

The Reserve Championship and the Imperial Oil Trophy was won by the Cruikshank rink of Charlottetown who defeated their club-mates of the Acorn rink in the final match by a score of 17-10.

SYDNEY RINK WINS

Of the eight trophies up for competition in the Confederation 'spiel, only one will leave the Charlottetown rink, one by Summerside and another by Montague Club representatives.

In the finals of the Elimination Championship and the R.T. Holman Trophy, the C.C. Richardson rink from Sydney, N.S. defeated the C.C. Casey rink, New Brunswick, 11-6. The Richardson rink went through the schedule without a loss.

In the competition for the British-American Oil Tankard, the George Hawkins rink from Charlottetown defeated the Joe Sears rink of Fredericton, N.B. 13-8 with the tankard with five straight wins. The Charlottetown rink, the R.S.P. Jardine foursome, won the Morrison and McRae Trophy by overwhelming the Dr. Cochrane rink from River Hebert, N.S. 17-4. It marked five wins for the Jardine rink against only one loss.

MONTAGUE VICTORY

A Montague rink broke into the win column when the G. G. Gordon quartet scored a convincing 19-5 victory over the Kelly rink from River Hebert, N.S., to capture the Prowse Trophy.

The Wholesale Grocers' Trophy fell to the F. B. Conrad rink of Charlottetown when they won from the Sydney Club representatives, L. G. Israel, 11-8.

Dr. W. MacDonald and his Charlottetown rink scored a 13-10 victory over the H. N. Ganong rink of St. Stephen, N.B. to win the Roadmakers' Shield.

Following the final matches of the Bonsel the various trophies and prizes were presented at the Charlottetown Hotel to the winning rinks and runners-up. Chief Justice Thane A. Campbell presided. The presentations were made by Lt.-Col. F.B. Conrad and Mr. J. Hibbert Howatt.

Prizes donated by Jos. Reat & Co., Summerside, to the rink scoring the highest number of points for the day were won on Thursday by the H.N. Ganong rink of St. Stephen, N.B., and yesterday by the Dr. W. MacDonald rink of Charlottetown.

Results of matches yesterday follow:

Confederation Championship (Mar. Central Airways Trophy)

G. J. Hayes (S) 10, F. Acorn (C) 8.

Reserve Championship (Imperial Oil Trophy)

W. R. Cruikshank (C) 9, J. C. McLaughan (C) 4.

W. R. Cruikshank (C) 13, R. S. P. Jardine (C) 3.

W. R. Cruikshank (C) 17, F. Acorn (C) 10.

Lamotta Suspended And Fined \$1,000

NEW YORK, Feb. 13.—The New York State Athletic Commission today suspended boxer Jake Lamotta until June 21 and fined him \$1,000 for having concealed facts of his physical condition before he was stopped by Billy Fox of Philadelphia Nov. 14 at Madison Square Garden.

Lamotta has been under "temporary suspension" since Nov. 21, when he admitted to the Commission that he went into the fight with an injured side and against the advice of his physician.

The bout was halted in the fourth round after Lamotta had taken a fierce beating from the Philadelphia Negro.

Col. Eddie Egan, chairman of the Commission, said today that final disposition of Lamotta's case had been held up pending the outcome of an investigation of the fight by the New York grand jury. The grand jury had uncovered no additional facts, so it now was possible to close the case.

Lamotta's purse, as well as that of Fox, originally was held up, but both fighters recently received their cheques from the 20th Century Sporting Club.

Rangers Left Winger In Hospital With Cold

NEW YORK, Feb. 13.—(CP)—New York Rangers counted another casualty today when left wing Cal Gardner went to hospital with a severe cold, joining the Trudell among the National Hockey League's hospital cases. He will be out at least 10 days.
