CHARLOTTETOWN MAN'S TRIBUTE

MR. MORRISON TELLS OF THE FARADOR'S GOOD WORK

The good work of the Farador goes merrily on. The following letter is from an old and reliable resident, the head of the firm of George Morrison & Co.

Dear Sir,—Experience is the best teacher and my wife and I have learned from experience that the Farador is a mighty fine article and we want everyone to know the fact.

My wife had heart trouble, indigestion and rheumatism for at least ten years. She had taken treatment from several doctors both at home and in Boston, but they could not help her. We saw by the Charlottetown papers that the Farador was giving satisfaction to a good many sufferers, so we bought one and we considered it to have been an excellent investment, for not only did it make a complete cure of my wife, but it also cured me of rheumatism that I had in one leg for twenty years. We began its use last February.

It is true that we have had some serious illness since the Farador cured the ailments referred to, but the illness we had since then was caused by an accident—a collision with an Auto mobile when we were out driving—but apart from the injuries received through this accident we have had no other ailments. What the Farador is sufficient for most ailments it is hardly calculated to re-set broken bones.

My advice to people needing health is this: Stop taking drugs and for your own sake give the Farador a chance. I say this because some people are too prejudiced to even give the Farador a hearing, but no one can afford to nurse their prejudices when their health is at stake. I am seventy years of age, and since it has helped me so much, I am sure it will help others, especially younger people. The Farador has certainly proved its worth in this town as all sensible people ought to know. Yours sincerely, GEORGE MORRISON.

Tobacco Factory, 600 Great George St., Ch'town, Dec. 27, 1915.

The above letter is addressed to W. E. Egan, Farador Agent, 226 Richmond St. Charlottetown. 6404-1-4-M11.

—INCENDIARY ATTEMPT.—A bout 11 o'clock Friday night fire was discovered under a stairway in the Godkin building just in time to prevent what might have been a very serious affair. That it was an incendiary attempt was clearly indicated by the fact that papers were found stuffed between laths from which the plaster had fallen, paper and laths being burning quite briskly when discovered. A few more minutes would have meant a fire that would have been difficult to cope with. The incipient blaze was put out without the help of the firemen.—C.

—NEW YEAR'S SKATING was greatly enjoyed on excellent ice by a very large gathering at the New Crystal Rink which was attractively decorated for the occasion with patriotic banners, streamers and bunting. The band burst into their new programme with the National Anthem while the attendance of a number of our soldier boys in khaki among the skaters brought home to all the struggle of our Empire and will make this New Year's opening one that will long be remembered. The keen cold weather enabled the management to give in the afternoon a special hour to the children which was thoroughly appreciated. The ladies were strong in their praise of their new room which they state is all that could be desired, warm, bright, roomy and convenient to the ice. The enlargement of the men's room, the installation of sanitary drinking fountains, the new office and other improvements give every convenience to the skaters and will tend to make the rink still more popular. Leap Year Skates, Military Hockey Matches, Carnivals and Special Skates are being arranged and the skaters can count on having a very enjoyable winter of good sport.
