DESTROY MUSTARD IN GRAIN FIELDS BY SPRAYING WITH 2, 4-D

The Prince Edward Island Department of Agriculture will pay one-half of the cost of 2,4-D, used in spraying grain fields infested with wild mustard.

Agencies handling 2,4-D preparations for the control of weeds are asked to co-operate. These remedies should be sold to bona fide farmers at one-half their retail value. The other half of the cost will be paid the vendor by the Department of Agriculture on presentation of a statement, giving the name of the farmer making the purchase, the quantity purchased and the cost of same.

When mustard is in full blossom get out your potato sprayer, close all but the surface nozzle, mix 2,4-D according to directions on container, apply at low pressure, and you will destroy this year's crop of mustard, without injury to grain, at a cost to you of less than fifty cents per acre for material used. Clean sprayer thoroughly before using for potatoes.

W. F. ALAN STEWART Minister of Agriculture

OUT OUR WAY

THE EASTERN GUARDIAN

AGENTS: MONTAGUE: Harold F. Landry, Albert Aitken, Mrs. Byron Stewart, Miss Harriet Clair. AGENT GEORGETOWN: Waldon Lavers. AGENTS SOURIS: Miss Enid Richards and Gordon Farrell

The Guardian may be bought at any of the following places in Montague: Miss S. A. Llewellyn; Mrs. Clay. In Georgetown: The Post Office; in Souris: Condon's and Florence Roper. In St. Peter's: The Post Office.

Mr. C. W. Keslick, Quebec, was a recent visitor to Montague.

Mr. Claude Nicholson, Montague, was a business visitor to the city on Friday.

Mr. John F. MacDonald, Peakes Station was a recent business visitor to Montague.

Mr. James Currie, Pictou, spent the weekend visiting his family at their home in Montague.

Mr. Richard MacLean has joined the office staff of Peole & Thompson, Ltd., Montague during his vacation.

Mrs. Leo Collings, Montague, spent a few days in St. John, N.B., visiting her brother, and sister-in-law, Mr. and Mrs. William Nicholson.

Mr. Arnold Lane, Dental Student at McGill University, arrived in Montague to spend the summer vacation at the home of his parents, Mr. and Mrs. Harry Lane.

Misses Laura Higginbotham, Barbara Mabon, Gloria MacLeod, Violet Hutcheson and Lorraine MacLure returned home Friday after spending ten days camping at Augustine Cove.

Miss Pearl MacDonald, Boston, Mass., arrived in Montague Friday evening, where she will spend three weeks visiting her mother, Mrs. John A. MacDonald, and brother, Allan MacDonald.

Miss Mary Martin, Montreal, spent a few days in Montague, guest of Mr. and Mrs. M. C. Reynolds. Miss Martin is at present in Souris visiting her brother, Mr. Hurmon Martin and Mrs. Martin.

The S. S. Andri docked at Georgetown Thursday evening. The 9-months-old ship will take on a large cargo of pit-props which are stored in the Georgetown grounds. After the completion of her cargo the ship will set sail for England. Loading began on Friday morning, and is expected to be finished within a few days.

Word has been received that Miss Rena Reynolds, R. N., Miss Charlotte Fraser, R. N., and Miss Rose Llewellyn, R.N., have transferred from Miller Bay Hospital in Prince Rupert to Essendale Hospital in Vancouver Island. The nurses were former members of the Kings County Memorial Hospital nursing staff, and left for Prince Rupert about three months ago.

On Thursday evening, the Montague Tennis Club held a special meeting in the Curling Rink, with the president, Mr. Bryer Llewellyn in the chair. The minutes of the last meeting were read by the Secretary, Miss Anna MacLaren and were approved. It was moved that the courts be completed immediately and that the court lines be laid so that tennis would begin on Monday. Mr. John Hiltz, Red Cross Swimming Instructor, has offered to teach classes in tennis, with the first class taking place on Monday evening. The president, Mr. Llewellyn, presented prices on the new volleyball and volleyball court which will also be in connection with the tennis club. This new court will be built to the north of the present tennis club, and will be a welcome addition to the season's sport. Further discussion centered around ways and means of raising necessary immediate finances. It was reported that, owing to the presence of an instructor, many young boys and girls wished to join the club, and it was moved that they should be taken in as much as an excellent opportunity has been afforded for them to learn the game while young, thereby ensuring sufficient membership in the club in the future.

Mr. Leo Faye, Newport, was a business visitor to Montague on Friday.

Miss Ruth Clements, staff of Maritime Electric Company, spent the weekend in Montague at the home of her parents.

Misses Faye Stewart, Barbara MacLure, and Barbara Beck, Montague are at present attending camp at Brudenell Point.

Miss Helen Hamilton, Montague, is visiting in Canceo Cove for a few weeks guest of her aunt, Mrs. Alexander MacKenzie.

Kaye, Martin, young daughter of Mr. and Mrs. Hurmon Martin, Souris, is visiting her grandmother Mrs. Ada Burden, Montague.

Mr. and Mrs. MacMartin, Pictou, have left for Boston, Mass., to visit their daughter, Elizabeth, who has undergone a serious operation.

Mr. Rudolph Hamilton has joined the staff of the Bank of Nova Scotia, Montague. His friends wish him every success in his new position.

Miss Jean MacMillan, Vernon River, was a recent visitor to Montague, guest of Miss Ruth Stewart.

Mr. and Mrs. James Cudmore, Charlottetown were weekend visitors to Montague where they visited their many friends.

Mrs. R. Mitchell and Mr. Robert Mitchell, New York, were visitors to Montague, guests of Mrs. G. Inman. They have left for Baddeck, Cape Breton, where Mr. Mitchell has enrolled for classes in Gaelic.

The second section of the Southern Kings Baseball League is now under way with a team entered from Georgetown. The loop now comprises four teams including Montague, Cardigan, Peakes, and Georgetown. Montague, having won the first section, have thereby ensured themselves a playoff berth in the finals which are to be played in August. The following is the League schedule:—

Monday, July 12 — Georgetown vs. Montague at Montague.

Monday, July 12—Peakes vs. Cardigan at Cardigan.

Thurs., July 15— Montague vs. Peakes at Peakes.

Sunday, July 18 — Cardigan vs. Georgetown at Georgetown.

Monday, July 19 — Peakes vs. Montague at Montague.

Monday, July 19 — Georgetown vs. Cardigan at Cardigan.

Thurs., July 22 —Montague vs. Georgetown at Georgetown.

Sunday, July 25 — Cardigan vs. Peakes at Peakes.

Monday, July 26 — Cardigan vs. Montague at Montague.

Monday, July 26 — Georgetown vs. Peakes at Peakes.

Thursday, July 29 —Montague vs. Cardigan at Cardigan.

Sun. Aug. 1—Peakes vs. Georgetown at Georgetown.—Lan.

Mr. and Mrs. Melburn Ross and two children of Charlottetown returned to their home on Sunday, following a visit at Mr. Ross' former home here.

Miss Connie Mair of the staff of the Canadian Bank of Commerce in Charlottetown, spent the weekend at her home in Burnt Point.

Miss Alberta Cleary of Boston, Mass., Miss Lillian Haskell of Rhode Island are visiting in

CANCER CURABLE

in many cases

Cancer will cause one out of eight deaths in America this year. . . many of these needless deaths, because early diagnosis and treatment can usually stop cancer. Members of the I.O.F. are given financial help to combat this dread disease in its early stages. The I.O.F. is an international benefit society providing its members with adequate life insurance, savings, health and old-age benefits. It is financially sound and absolutely safe.

Georgetown where they are the guests of Miss Kathleen Fairchild at her summer home.

The Georgetown-Newport ferry arrived back during the week from Pictou, N. S., where she has been receiving her annual overhaul. Delay in the arrival of new parts from New York lengthened the absence of the boat.

Mr. and Mrs. Harold Watts and two children, Michael and Patricia of Saint John, N. B. and Dr. and Mrs. Graham Knole and three children, Linda, Barbara and Jacqueline also of Saint John, N. B., are holidaying at Dr. Watts' summer home on the corner of Main and Water Streets.

On Monday loading of the S. S. Andevit with pit props continued. Over eight hundred fathoms will be put aboard and are for use in the mines in the Old Country. The ship sailed here from Norway. She is coal burning and of ten hundred and fifty-six net registered tons.

With the closing of the lobster fishing season, packers and private owners of fishing boats are hauling up many of them and taking out and storing the engines until next season. In the majority of cases the season here was a successful one, with good average catches and a good price.

DDT IS NOT SAFE TO USE ON MOST VARIETIES OF CUCUMBERS

(Science Service News) Though the striped cucumber beetle is chiefly a pest of cucumbers in the Ottawa district, it also attacks melons, squash and pumpkins. It is about one quarter of an inch in length, and yellow in colour with a black head and three longitudinal black stripes down the back. While DDT will give excellent control of the striped cucumber beetle, growers are warned that it is unsafe to use on most varieties of cucumbers, and for that matter, on melons, squash and

pumpkins, either as a spray or dust, says W.G. Matthewman, Division of Entomology, Dominion Department of Agriculture, Ottawa. In an experiment at Ottawa in 1947, repeated applications of DDT dusts on cucumbers stunted the plants, reduced the yield and caused a yellowing and deformation of the foliage. Certain varieties were much more susceptible to DDT injury than others. Of the 11 varieties under observation, Straight Eight, Cubit, and Midget Bush were very susceptible to DDT injury. Early Fortune and A. and C. were susceptible and National Pickling, Delcor, Marketer, Boston Pickling, Burpee Hybrid and Perfection Pickling were tolerant. With the five susceptible varieties, as

few as four applications of DDT cause a 50 per cent reduction in vine lengths by the end of July. With the six tolerant varieties there was no significant reaction in vine length on the same date. It would seem from what the tests disclosed that two or three applications of a 3 per cent DDT dust might be made on the tolerant varieties with reasonable safety, but that it should not be used on the five susceptible varieties under all circumstances. Even with the tolerant varieties, DDT should not be used when the plants are very young. A 3/4 of 1 per cent rotenone dust, obtainable at most seed stores, is effective against the beetles and unlikely to injure the

young plants. A home-mixed dust composed of calcium arsenate and talc or gypsum, 1 part of the former to 15 parts by weight of the latter, will also give good results. Hydrated lime can be substituted for the talc or gypsum, but like DDT it sometimes stunts the plants. In recent years, so-called cucumber or melon dusts have become popular for striped cucumber beetle control in parts of Ontario, as they also contain copper for disease protection.

THERE OUGHTA BE A LAW!
