been a useful citizen and he wished to place on record his sorrow that the province was losing such a prominent citizen. To do right has always been Mr. Prowse's aim.

ADDRESS.

To Lemuel E. Prowse, Esquire, Member Legislative Assembly: DEAR SIR,—The Liberal Party of this city, having learned that you intend to take up your residence outside of this Province and thus sever your connection with us politically and otherwise,

CHRONIC INDIGESTION

By far the most important part of digestion takes place in the intestines and it is folly to expect stomach medicines to cure a severe case of indigestion or dyspepsia. The kidneys, liver and bowels must first be made regular and active and the only remedy which acts directly on these organs is Dr. Chase's Kidney-Liver Pills. They are purely vegetable, act pleasantly and naturally and positively cure dyspepsia, biliousness and stomach troubles. One pill a dose, 25 cents a box, take no substitute.

THE GAY CITY OF FASHION.

The Paris Exhibition a Gigantic Failure.—The Prince Edward Island Exhibit.

MR. AND MRS. B. C. PROWSE RETURN HOME.

After Travelling through England, Scotland and France Spending Days at the Fair.—Delightful Scenery.—The Hotels and the Parisian People in General Fleecing the Visitors—An Army of Sharpers in Paris.

Yesterday morning THE GUARDIAN announced that Mr. B. C. Prowse and Mrs. Prowse had returned from an extended tour of seven weeks to the Old World, visiting the Paris Exposition, and other points of historic interest. Owing to the late arrival of the express, and Mr. Prowse's long journey it was deemed advisable not to wait upon him until yesterday evening.

When seen Mr. Prowse did not wish to say much about his visit, but finally consented to give the following facts of the trip. "We left Charlottetown in time to secure passage by the S. S. Vancouver from Montreal, which left the latter place on July 7th, arriving in Liverpool on July 18th. The passage was a very pleasant one with the exception of the fog which detained us a day. We had 267 saloon passengers. The Vancouver is a beautiful ship and would have been much more comfortable had we not been overcrowded.

"We made a stop over in Liverpool of one night and took the train for London the following day. We were very much struck with the fast time made. To give you an idea we covered the distance of 204 miles in four hours. The scenery along the way was simply a dream, gorgeous in the extreme. It appeared as if one huge park with its beautiful dales and hills was being unfolded to us.

"We remained in London one week and while there visited St. Paul's Cathedral, which was begun 1675 according to the designs of Sir Christopher Wren, in place of the old Cathedral of the 11th-13th centuries which was destroyed in the great fire of 1666. To give you some idea of St. Paul's, the edifice is 590 feet long, with a 14th century wooden central spire 460 feet high. The cathedral was first opened for Divine Service in 1697. The cost was about \$3,500,000. The interior is impressive from its enormous size. The vaulted crypt, like the church itself, contains many tombs of famous men. Crystal Palace, Westminster Abbey, Tower of London, and a number of old Cathedrals were visited, including St. Bartholemews, which is 880 years old.

"After spending some time in London we took the train for Dover to connect with steamer. The boat was very fast and we reached Calais in one hour after embarking. The distance is 22 miles, so you can see the boat was decidedly fast. Taking the train again Paris was reached in the evening. We went to the Continental Hotel, one of the finest in Paris. At

the Continental they don't forget to charge for, and know how to make the guest wait for a meal. Next day the art gallery was visited. Three days spent in visiting the exhibition. It would take three months to see it all and be able to pass an opinion.

"Most of the time was spent in the sections devoted to the Canadian and American exhibits. The Canadian exhibit is a splendid one and has carried off lots of prizes. We saw the P. E. Island cheese, in fact we hunted until we found it. The American exhibit is one of the best there both in regard to the display of machinery and fruit. The Canadian exhibit is a good second in fruit, but of course is not as advanced in machinery. "The attendance at the Exposition is small and of course the financial part is a failure. I bought 25 tickets for 20 cents, which would admit the bearer to the whole show. The slaughter of tickets had commenced. The failure of the Exposition is due to the fact that the Parisian people have been trying in a large degree to "do" the visitors. As an instance of the way the trade is being conducted I was approached by a person who wished to sell me a souvenir rug for which he asked \$16. My guide told me to offer him \$4 and before he left he offered me the rug at my price.

"At the hotel we were charged \$4.00 for breakfast. Among the items that made up the charge was one 1/2 lb. of grapes for which they asked 7 francs. We paid £3 for five days for bed and breakfast. The French people are degenerated and lack the hardy and robust appearance of the Canadian people. We spent five days in Paris and while there were impressed with the fine buildings and clean streets. The English people are not patronizing the Fair and the British Press ignore the show.

"We left Paris on the following Friday and went to Glasgow, and spent Saturday taking in the sights. We also visited Mrs. A. McNair, of Charlottetown, who is visiting her mother at Renfrew. We enjoyed a sail up the Clyde and saw where the Stanley was built, after which we visited the different points of interest in Edinburgh, Firth of Forth, Lord Rosebery's estate and a number of castles. We afterwards returned to Liverpool and sailed on the 9th of August. The passage on the S. S. Dominion was a delightful one. The scenery by the St. Lawrence is very fine. The ship arrived in Montreal on the 19th. just in time to "catch" the train—seven weeks away from home."

desire to express our sense of the great loss we are about to sustain. We realize in you one of our most active and useful citizens, and as a representative of this fair city in our Legislature you have been most zealous in advancing its interests, and we voice the sentiments of a great majority of our people when we say that your place will not be easily filled.

We are glad to know that your success in business is such as to induce you to extend its operations to an adjoining province. This is the reward that usually follows fair and honest dealing, and we anticipate and bespeak for you a bright and successful future in your new home. Our great loss is a decided gain to the people amongst whom you are about to live. May a kind Providence smile upon you, Mrs. Prowse and family.

Please accept the accompanying gift as a small token of our esteem and respect.

Charlottetown, P. E. Island, Aug. 21, 1900.

This address was a beautiful specimen of the art preservative and was accompanied by an elegant gold watch charm set with a diamond crescent with initials on the reverse side. Mr Prowse who keenly feels his departure from his native land made the following neat and suitable reply:

MR. CHAIRMAN, LADIES AND GENTLEMEN,—Words fail me at this moment in expressing to my friends my deep appreciation of their thoughtfulness and kind-

ness as evidenced by this beautiful gift and your esteem as set forth in the very complimentary address just read. I will bear with me in memory through life this evidence of my friends esteem, and although I am leaving the Island to take up my residence in Sydney, yet I feel I shall always regard Prince Edward Island as my true and ever loved home.

Well do I remember coming to Charlottetown a few years ago a humble farmer's boy, and whatever success I have attained in business, or as a citizen,

A NIGHT ATTACK

Made on Legations Before Allies Arrived

VICEROYS FRIENDLY

Since the Foreign Army has Reached Peking—Li's Terms Rejected.

MESSAGE FROM MINISTER CONGER.

WASHINGTON, Aug. 21.—(Special).—A message from U. S. Minister Conger says the Allies entered the city of Peking with little trouble.

It is not known where the Imperial family is. All the Americans are well. A DESPERATE NIGHT ATTACK. Desperate efforts were made to exterminate the missions the night before the troops arrived and several were wounded, one German being killed.

WANT THE ROYALTIES WELL TREAT.

The Viceroy of Nanking and Hunan give renewed assurances of friendship and their readiness to keep the peace, but they ask that no personal indignities be shown the Dowager Empress or Emperor.

LI'S PROPOSAL REJECTED.

The Government will not accede to Li Hung Chang's latest proposition for a cessation of hostilities because of the non-compliance of the Chinese Government with the former demands.

CHINESE ARMY MOVEMENTS.

TIENTSIN, Aug. 22.—(Special).—Five thousand Chinese troops have moved on Bei Tsang and two thousand more toward Tung Chow.

LARGE ARMY MAY BE NEEDED.

If the Chinese Government is at Sian Fu, an army as large as that of Lord Roberts will be necessary, with a prolonged campaign, to capture them and keep the communications open.

Itching Piles

A Fearfully Bad Case—Much Pain and Acute Misery From the Terrible Itching—Cured by Dr. Chase's Ointment.

It is doubtful if any remedy ever received so much grateful, unsolicited testimony as Dr. Chase's Ointment. The reason is not far to seek, for it is the only preparation known to man which never fails to cure piles.

Mr. F. G. Harding, a retired farmer, living at Nilestown, Middlesex county, Ont., writes as follows:—"I have been troubled with bleeding and itching piles for four or five years, and suffered intense agony at times. I had tried almost everything, but could get nothing that would give relief. On hearing of Dr. Chase's Ointment I procured a box, and it only required part of it to completely cure me. I am recommending it to all afflicted as I was."

Such incontrovertible evidence from responsible persons cannot, for a moment, be doubted. A few applications of Dr. Chase's Ointment will convince the most skeptical of its wonderful healing and soothing influence. A box or two will positively cure the most severe case of piles; 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

I feel I owe much of it to the strong hand of friendship and reciprocal square dealing for fair dealing.

My friends, I find it hard, harder than I ever imagined to leave this favored Island—a land of happy hearts, happy homes and happy people—a people whom to know is to love and esteem. In the church, in business, in the world, in the Legislature, I have always enjoyed the associations of my fellow townsmen, for whom I have the kindest feeling and happiest recollections. My earnest wish is for the advancement religiously, morally and commercially of fair Prince Edward Island.

And to you, Mr. Premier, I wish to tender my sincerest thanks for your thoughtfulness and kind considerations towards me. Many times I have felt my weakness for the position I occupy as a representative of the people of Charlottetown, but your thoughtful words of encouragement have been a great source of strength to me, far more, sir, than you could ever think, and, as I leave the Island I love so well and the people I love so much, I am sure their best interests will always be advanced by you as
