"The new ice-breaker Earl Grey, just built to the order of the Canadian government by Vickers, Sons and Maxim, has made an ominous start on her voyage from Barrow to the St Lawrence. She put into Lough Swilly with her bilge pumps choked, and the stokers and trimmers so little liked the first taste of their voyage that they refused to proceed. Fresh hands were engaged and the pumps cleared so that it is to be hoped there will be no further mishap. These remarkable vessels are extremely valuable, and the Earl Grey is insured at Lloyd's and with the companies for £103,000."
