Many People Wonder

Why it is that glasses are worn more commonly in the present generation than in the past. Some say that the race is deteriorating, some that it is for style, but the real reason is that our modern civilization requires the eye to do more work than was even the case before.

Consequently, the eyes, if in the least defective, may give you a lot of trouble through the fact that they are not working as well as your grandfather who did not wear glasses till he was an old man.

If you feel the least symptom of eyestrain, remember that it is nature's warning to you and consult us at once.

AROUND THE WORLD IN AN HOUR? That would be an excellent title for the latest booklet put out by the Canadian Pacific Railway, and it would be a very pleasant hour that was spent in poring over its beautiful pages. The wonderful picture and story of "Canada" will next winter visit during her circumnavigation of the globe as the travelling home of several hundred Canadian and American tourists. It is a beautiful book. It is a symphony of color and people and more than usually good, and the letter press takes one from one high point of interest to another until the world is circled. One is tempted to call it most unusual cover a picture of the world. It is a symphony of color on a black background, effective and unique. One of the most notable things about the work is the fact that it is printed in Canada, a matter of great credit to the printers of this country.

AROUND THE WORLD IN AN HOUR? That would be an excellent title for the latest booklet put out by the Canadian Pacific Railway, and it would be a very pleasant hour that was spent in poring over its beautiful pages. The wonderful picture and story of "Canada" will next winter visit during her circumnavigation of the globe as the travelling home of several hundred Canadian and American tourists. It is a beautiful book. It is a symphony of color and people and more than usually good, and the letter press takes one from one high point of interest to another until the world is circled. One is tempted to call it most unusual cover a picture of the world. It is a symphony of color on a black background, effective and unique. One of the most notable things about the work is the fact that it is printed in Canada, a matter of great credit to the printers of this country.

SHOP ENTERED BY BOYS.—Three boys, ages nine, twelve and sixteen respectively, were arrested Sunday evening and yesterday afternoon before the Magistrate charged with breaking and entering the door from the inside. Officers Doyle and Higgins arrested the boys on the spot, suspicion being aroused at their presence there, and a number of articles, cans of paint, books, etc., value about \$18, were found in their possession. The Magistrate gave over the youngest culprit to the care of his father. The two older lads, who are brothers, were remanded until next Monday. All the stolen articles have been recovered.
