Gleanings From Tryon And Vicinity

The conference on Christian Fundamentals met in the Baptist Church at Tryon from the 3rd to the 5th of the month. The meetings were not as largely attended as expected. A large number of letters were received and read from those who are in sympathy but were unable to attend because of being so busy in gathering in their root crops.

The opening address was given by Rev. N. A. Whitman from New Brunswick. He spoke from Colossians 2:18. That in all things Christ might have pre-eminence. It was a splendid presentation of Christ as the head of the church, and a strong plea that He might be Lord and master in all lives.

Wednesday morning opened with an hour devoted to prayer. It is sometimes said that praying is a lost art in these days. These people have evidently rediscovered it. The meeting was led by Lyman Caspary from Cascumpeuc, P. E. I.

The prayer meeting was followed by a Round Table Conference on the subject of what would happen if modernism should prevail? The seriousness of the situation which is developing was carefully and prayerfully considered and earnestly in a determination to earnestly act the part.

In the evening Rev. A. J. Vincent spoke upon "What are the Fundamentals of the Christian Faith." He laid down as such faith in the inspiration of the scriptures as the word of God, not as containing the Word alone, but as the real living word, Faith in the Deity of Christ, His death as an atonement, and the power of the blood to cleanse from sin. Faith in the Resurrection of Jesus, His ascension, His intercession on high and His bodily return.

Thursday morning was given to an experience and prayer meeting. In the afternoon Rev. Edward Morris from Halifax delivered a fine spiritual address upon the subject of organization. He declared the principle that the Holy Spirit did not Anoint organizations, and earnestly called upon those present to allow the Holy Ghost to dominate their lives.

The evening was a consecrative service led by Dr. Sibley. It was a grand meeting followed by the ordinance of the Lords supper at which a large number took part.

The next session of the Conference will be held at Cascumpeuc, P. E. I. early in the new year.

Those who attended the service were agreed that it was a session of much spiritual power, and blessing.

Ringwood Institute

The women of Ringwood Institute met for their monthly meeting on Oct. 28 at the home of Mrs. Garnet Campbell. There was an attendance of nine members and several visitors.

The president presided and the meeting opened by repeating the Institute Creed. The minutes of the last meeting were read and adopted. It was moved and seconded that a committee be appointed to see to the examination of some children of the district.

A suggestion was made by the president that the members answer the roll call at the next meeting by mentioning some particular way by which to make the meeting more interesting.

Mrs. William Mutch, the convenor of Immigration then read a letter which she received from a sister Convenor of Immigration telling some of the useful work being done in doing towards helping out and getting acquainted with immigrants in their district. A tea to be held in the near future, in order to raise funds was talked over. Mrs. James Smith kindly offered to lend her house for the purpose. Mrs. William Mutch gave a reading which was greatly appreciated by all and again suggestions were made that two or three members do something at each meeting to add to the enjoyment. Luncheon was served by the hostess and after a very pleasant evening the meeting closed by singing the National Anthem.

Battle Against Bobbed Hair, Wee Hat Fails

PARIS, Nov. 6.—The recent offensive led by the trade against the small hat for women, and the cloche shape, apparently has failed. At recent public gatherings the larger and more complicated types of hats which dealers have been attempting to sell were missing. None but the small hat, and few except cloche shapes, were to be seen. With equal determination the Parisian woman seemingly also are resisting the movement against bobbed hair.

ROCHESTER, N. Y., Nov. 8.

Seventeen persons, fourteen of them women, were injured, two seriously, today when an explosion in the Japanning department of the Yawman and Erie Company factory caused heavy damage to the plant and shook homes for blocks around. Several hundred workers were thrown into a panic by the blast. The explosion is believed to have originated in the electric enamelling ovens. Nearly all the windows of the plant and in surrounding buildings were blown out by the force of the blast.

FIG NEWTONS

1-3 cup shortening
1-2 cup sugar
1 egg
1 cup All-Bran
2 cups flour
1-2 teaspoon salt
2 teaspoons baking powder
1-3 cup milk.

Cream the shortening and sugar together and add the egg. Beat well. Add All-Bran and sift the flour, salt and baking powder, alternating this with the milk, until all the ingredients are used. Put in the ice box an "hour" or chill. When cold, roll in a thin strip, 4 inches wide. Fill one half lengthwise with fig filling. Fold other side over and pinch sides together. Cut this strip in pieces 2 inches long. Brush with milk and bake on buttered baking sheet. (350 to 375 degrees.)

MENTAL TOIL

A chief of a tribe of Canadian Indians was looking idly on while some Englishmen were hard at work improving property newly acquired from the tribe. "Why do you work?" said the supervisor to the chief. "Why do you not work yourself?" "I work head work," replied the white man, touching his forehead. "But come here and kill this calf for me, and I'll pay you." The Indian stood still for a moment, apparently deep in thought, and then he went off to kill the calf. "Why don't you finish your job?" presently asked the supervisor, seeing the man stand with folded arms over the unskinned, undressed carcass. "You said you pay me to kill the calf," was the reply. "Calf dead, me want money." The white man smiled, and handed the Indian an extra coin to go on with the work. "How is it," asked the white man one day, after a series of such one-sided dealings, "that you so often get the better of me?" "I work head work!" solemnly replied the man of the woods.
