**CONFESSES TO HAVING MURDERED TWO WIVES, AND MAYBE MORE**

James R. Huirt, held at Los Angeles while officers investigated reports of his marriage to several women, confessed late Saturday that he had slain two of the women, according to county officials.

Two of the numerous women Huirt is alleged to have married in various parts of the continent, and who are at present listed as missing, are: Beatrice M. Andrews of Canada and England, and Agnes Wilson of Alberta, Canada. More than twenty-five marriages have been attributed by the officers to Huirt. According to the alleged confession made public by J. M. Marmaduke his attorney, and county official Huirt murdered at least two of his wives, two others met "accidental" deaths while with him, and he "might have murdered more." Seven are listed as missing, including the two Canadian women and other five being: Nina Lee Delaney, killed by a hammer at Long Beach, Calif.; Elizabeth Pryor, whose head was crushed with a sledge hammer, near Plum, Wash.; Bertha Goodnick, who was tipped out of a boat in Lake Washington, near Seattle; Miss Alice Ludvigson, drowned in a river in Idaho; and Mrs. Gertrude Wilson, of Seattle.

Huirt said he could not remember what happened to some of the women, because of his still weakened condition resulting from two attempts to commit suicide, the reputed confession said. He lay on a cot at the county hospital as he talked.

Huirt has been held here several days while officers investigated reports of numerous marriages. He married twelve or fifteen women, probably more, he said. A desire to kill obsessed him four years ago Huirt was alleged, to have said, and women were his special victims, there being no direct motive for their deaths and no desire to kill men, children or animals.

The first to die, according to the alleged confession, was Miss Ludvigson. Huirt was quoted as saying he was in a boat with her, fishing in a river in Idaho. His memory was weak as to the exact time and locality. The boat he states jammed against logs which were fastened to the banks of the river and he and Mrs. Ludvigson tried with their arms to free the raft. When he broke away, he narrated, the woman lost her balance and fell into the river and was drowned.

The first to die, according to the alleged confession, was Miss Ludvigson. Huirt was quoted as saying he was in a boat with her, fishing in a river in Idaho. His memory was weak as to the exact time and locality. The boat he states jammed against logs which were fastened to the banks of the river and he and Mrs. Ludvigson tried with their arms to free the raft. When he broke away, he narrated, the woman lost her balance and fell into the river and was drowned.

He said Miss Goodnick died when she fell from a launch into Lake Washington while trying to go from the stern to the centre. Later on the officers said, Huirt himself referred to this death as "a murder."

In the Pryor case, the officers said, he asserted the woman attacked him with a hatpin and he shoved her so violently that she fell and struck her head against a box. He believed she was dead, he was said to have declared, but

**Canadian Pacific**

Many favourable comments are being expressed in press and public upon the inauguration of the improved Canadian Pacific summer train service between Montreal and the Maritime Provinces, particularly in reference to the double daily service each way every day in the week, and Sundays too.

Never before in the history of railroading have such exceptional facilities been provided for taking proper care of the passenger traffic over Canadian Pacific tracks between St. John and Montreal, and vice versa. The trains themselves, in the matter of equipment and constructive art, are the last word in the master builders' ingenuity. Palatial sleepers with electric lighted berths, scientific ventilation—in fact, every modern conceivable contrivance for comfort and luxury. High grade coaches, and luxurious diners; everything of the best, plus Canadian Pacific courtesy and efficiency. The schedules of the expresses are fast and regular, and patrons of the direct short route are assured that "time" is a permanent feature with every adequate regard for safety. Passenger traffic originating in St. John has the choice of trains leaving at 4 p. m. or 7.45 p. m. Atlantic time, the former being due in Montreal at 7.20 a. m. making direct close connections with the "Canadian" for Toronto, Chicago, etc., also Ottawa Traffic directed via St. John which originates in Nova Scotia, Prince Edward Island and points in New Brunswick east of St. John, is taken care of on the 7.45 p. m. train, as also passengers from Nova Scotia, etc., via Bay of Fundy service. This train is due at Montreal at 11.35 a. m. At Montreal both trains from the East connect with Canada's most famous train, The TransCanada Limited, leaving at 5 p. m. and completing the run to Vancouver in ninety-two hours, and the only change is from track to track in the depot in Montreal.

Toronto to Vancouver eighty-eight hours; Montreal to Winnipeg forty-one hours, fifteen minutes.

Coming East, the first train arrives in St. John at 6.30 p. m., making direct connections with Nova Scotia, via Digby, and points East of St. John via Canadian National system. The second express arrives in St. John at 10.00 p. m., making close connections with C. N. R. train for the East.

The establishment of this new Canadian Pacific double service each way seven days in the week provides a wonderful connecting link in travel between the Lower Provinces, Quebec and the West, in

stick and lighted as a candle!

The fruit of the candle-tree is usually about 42 inches long, and about an inch in diameter. Of a yellowish tint, the fruit, as it hangs on the tree, looks exactly like a collection of wax candles. Not only have these wonderful trees been discovered in the Pacific Islands, but it is recorded that some have been known to thrive in the Isle of Wight.

Then there is the Japanese wax-tree, the fruit of which is mostly pure wax. This is used for making wax candles. The "wax fruit" which this remarkable tree bears, grows in bunches, just like grapes. In China, too, a wonderful wax is obtained from a shrub called the "Stillingia Sebifera." This tree produces bunches of berries, and in the Autumn, when these are quite white and the leaves have put on their "Autumn-color," a beautiful, striking, Nature picture is presented.

And, finally, there have been known to grow certain luminous mushrooms! This may seem incredible, but the fact remains that Dr. W. H. Harvey has recorded that when in Port Jackson, in some woods one night, he was able to see the time from his watch by the aid of the light from some luminous "agarics" (mushrooms)—Answers.

**NIGH TO JERICHO. BETHLEHEM.**

"Landscape is a state of mind."—Amiel.

A golden fortnight we had come about  
Across the Green Hills. We had looked upon  
Lake Willoughby, as lovely as Lucerne;  
And Moniphreimagor, whose discordant name  
Belies its beauty, linked with Whittier's muse.  
Up breezy tracks we climbed and in dark glens  
We rested, or beside a vocal brook  
In warm odors of the evergreens.  
We stood on Mansfield's summit  
and beheld  
A crumpled world—gigantic parapets  
And headlong scarps—stretched  
like a giant's dream;  
While seen afar through that untroubled air,  
Lay shimmering the long glory of  
Champlain.  
And then, as we drew on toward Jericho,  
A grayer hailed us from a moss-hung barn,  
Wishing to know what matters called forth—  
Old Home Week, so he ventured, or perhaps  
A ball play, or a drill at Burlington?  
"No, uncle," some one said, "we're simple chaps."  
Just taking in the scenery." With mistrust  
He eyed us and our budgets. "Why," said he,  
"I've driven across these hills for forty years—  
An' this with mournful stress—  
I never see  
No scenery!" And he watched us out of sight.  
—G. S. B. in the New York Tribune.

**WELL INFORMED**

Tedd—I bet you don't know what Esq. after a man's name means  
Tottie—I do, too. It means Esquimaux.

**FOUND CURE FOR LEPROSY**

Unusual interest was displayed recently in a statement by Sam Higginbotham, an alumnus of Amherst College and in charge of the colony of lepers at Allahabad, India, that what appears to be a real cure for leprosy has been discovered.

"I was present at a conference of the mission of lepers held in Calcutta last February," said Mr. Higginbotham, "when Lieut. Col. Sir Leonard Rogers, F.R.S., I.M.S., told of his researches for a cure for leprosy. A new preparation made from codliver oil resulted in 73 of the patients recovering.

"This is a great step forward. We can now hope for progress in research, because formerly only one oil, codliver, gave any results. Discovery of this new oil, effective as a cure, means that there may be others still better."

**BETHLEHEM.**

O little town of Bethlehem,  
How still we see thee lie;  
Above thy deep and dreamless sleep  
The silent stars go by.

Yes, in thy dark street shineth  
The ever-lasting Light,  
The hopes and fears of all the years  
Are met in thee tonight.

For Christ is born of Mary;  
And gathered all above,  
While mortals sleep, the Angels keep  
Their watch of wondering love.

O morning stars, together,  
Proclaim the Holy Birth,  
And praise sing to God the King  
And Peace to men on earth.

How silently, how silently,  
The wondrous gift is given;  
So God imparts to human hearts  
The blessing of His heaven.

No ear may hear His coming,  
But in this world of sin  
Where meek souls will receive Him still  
The dear Christ enters in.

O Holy Child of Bethlehem,  
Descend to us, we pray,  
Pass out our sin, and enter in,  
Be born in us today.

Chestnut brown straw, with pink quills is a recent Paris idea for a hat.

**LIFT OFF CORNS!**

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn pops hurting, then you lift it right out. Yes, magic!

A tiny bottle of freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.
