

## Highway Robbery

Is not worse than some of the deceptions that are practiced on the unsuspecting bargain hunter.

It is not worth your while to try to get something for nothing. Somebody is pretty sure to be left, and it isn't usually the dealer.

We solicit your clothing trade this Spring on the following basis:

Our prices and values are right. We keep Shorey's Celebrated Ready to Wear carefully Tailored and fully Guaranteed Goods.

The material used in the manufacture of these goods is guaranteed shrunken.

We give with each suit a guarantee of workmanship.

We promise, if you buy these goods, to turn you out looking a well groomed and well tailored man.

If this does not suit you we promise to give you either satisfaction or your money back.

We are waiting for you to call.

The Comedy Company, Jerry and Kerry will give the people of Summerside, the best treat in this life ever given here. And considering that the show is under the auspicious of the Summerside Improvement and Tourist Association, there should be crowded houses. The company will play two nights, Tuesday and Wednesday of this week. Secure your tickets early at Gourie's for Jerry and Kerry in Market Hall, to-morrow night. Reserved seats 50 and 35c. Unreserved 25c.

The funeral of the late Robert H. Es, Ellersie, was largely attended on Friday. The services were conducted by Rev. W. R. Pepper assisted by Rev. E. Chapman and Rev. Henry Harper. The members of Alexander Lodge, A. F. A. M. of which the deceased was a member attended in a body and took charge of the remains at the grave. The pallbearers were, Anthony McCaul, Colin McKay, John McDonald, Emmanuel Johnson, John Distant, Michael O'Brien.

The social in the Presbyrian Hall on Friday night was a most enjoyable affair. The following program was carried out. Introductory remarks by chairman, W. E. Poythie; Solo, Heny Walker; Reading, Miss Marion McLeod; Solo, Miss Zilpha Sharp; Reading, J. H. Bell; Solo, Angus McSwain; Committee meeting. The social committee of the guild; College Song; Violin and organ accompaniment. Miss Shand's solo was particularly good and Mr. Bell's reading was also pleasing indeed. While other features were very entertaining, perhaps the first number, at least the most amusing, was the committee meeting. After the program there was a sale of handkerchiefs and candy.

DENTAL SPECIALIZATION This is the age of specialists, and in no profession is specialization more important than in dentistry. Time was when one could acquire a knowledge of dentistry in a short time, but in the last few years the profession has grown by leaps and bounds, until now it is beyond the attainment of any one man. It is best practiced by the co-operation of several men, each devoting his time to a special branch. In our offices each man devotes his time to a special branch. We divide the work into parts and have specialists for each part.

SHEEP MANAGE Stomach Worms—A Simple Remedy. Veterinary.

The exceptionally wet season has produced conditions that have been very favorable to the development of animal parasites. The eggs or young embryos need moisture for development, and this year there has been plenty. The effects are now being realized in the very great loss of lambs due to twisted stomach worms.

The symptoms of stomach-worm disease are not very characteristic, and therefore do not admit of close description. They are dullness, loss of appetite, increased thirst, diarrhoea may or may not be present; a part may show an accumulation of fluid between the jaws, grinding of the teeth; there is a stiffness of the back and hind parts, and a lagging behind the flock. In acute cases there may be evidence of pain, as colic, eating unusual material, and much bleating. Some die suddenly without showing evidence of disease. The majority linger for a week or two and then die. Old sheep are not much affected.

The parasite causing the disease is found in the fourth stomach. It is small, being only about one-half inch in length, and threadlike. If a lamb be killed, these worms may be seen to be pinkish from the blood they have abstracted from the stomach wall. If a lamb dies and the stomach be not opened for a couple of hours, the worms will be white, and, being matted together, resemble the fiber of the food. The inexperienced will probably fail to recognize them, although thousands may be present.

The treatment is as follows: Take one part of coal tar creosote, and one hundred parts water, and mix well. With a two-ounce, hard-rubber syringe, having a short bit of rubber tubing on the end, administer one syringeful to each lamb. Use care not to hold the head high or to force the dose too rapidly, so as to cause strangulation. With such an arrangement a whole flock may be easily treated. One to three treatments given a few days apart may be necessary. It is also a good policy to turn the lambs off the regular pasture into the cornfield. They will do little damage to the corn, and in eating the lower blades and grass get food free from all contamination. Yarding and giving dry feed may also be resorted to. The main object is to get the sheep off the infected pasture.—A. W. Biting, Veterinarian, in Wide-Awake Farmer.

## TEETH!

FILLING AND CROWNING MADE ABSOLUTELY PAINLESS.

While improvements have been going on in science generally dentistry has not been standing still.

The "Berlin System" is based upon the knowledge that the conditions of dental sensibility are numerous requiring a wide range of remedies. The "Berlin System" of painless dentistry embraces every method known to the profession at large, and some that are not generally known. It succeeds because it takes each of the various sensitive dentitions into account.
