

Where Capital and Labor Agree

There's no difference of opinion about Kellogg's Corn Flakes. Capital and Labor both agree that it's the finest cereal food in the land.

Nothing more delicious than these toasted flakes of sweet corn hearts, has yet been created. Until it is, Kellogg's will stand supreme—the breakfast cereal of the masses as well as the classes.

SOME FACTS. In 1891 The Morning Daily Guardian was established, and is still issued each morning with the latest local and foreign news, including the Canadian Press and a special telegraphic service.

In 1887 The Weekly Guardian was established, but its issue proved too infrequent for readers as the Province advanced, and from time to time was changed, first to a Semi-Weekly, then to a Tri-Weekly, and later to a Rural Daily, so that for years The Guardian has issued two dailies, as at present—one in the morning as a Morning Daily, and the other in the afternoon as a Rural Daily.

For some time past the management has felt that Prince Edward Island is justly entitled to a twenty-four hour telegraphic news service, as enjoyed by the other Provinces of Canada, rather than the night wire service only, as up to June 30th last supplied by The Morning Guardian and afterwards printed in The Evening Guardian.

The friends of both The Morning Guardian and The Evening Guardian are quite expressive of their appreciation that their favorite paper contains the latest day and night, as well as night and day Canadian Press and Special Telegraphic and local news, and thus a complete twenty-four hour service.

The Guardian is now but issuing two dailies, one in the morning and the other in the afternoon, as it has been doing for years, but since July first its afternoon paper contains its own day's news in addition to that of The Morning Guardian, or, in other words, the news of the twenty-four hours immediately before it goes to press.

During the hot weather the Evening Guardian is printed each Monday at one p. m., instead of at four, to enable the printers to enjoy a holiday.

Use the Ideal Engine and Cut Down Expenses. The Ideal Hopper-Cooled engine is the best investment any modern farmer can make. It enables you to do just twice the amount of work without additional exertion, does the work of an army of farm hands with the consequent saving in food, board and wages.

The Ideal is the first farm engine to be so simply constructed and operated—any person can run it. It does a big day's work on small fuel, runs in any kind of weather, can easily be transferred from place to place, runs any hand or foot power machine on the farm, pumps water, grinds feed, threshes grain, saws wood and affords you the luxury of all modern conveniences on your farm.
