Frederick won the deciding game in the York Co., championship series recently when they defeated the Marysville Crescents at the Arctic Rink. The final score was 16 to 9 and it well tells the story of the game. The game was a huge joke, the players taking little interest in the play whatever and to make matters worse Referee McIlman, who apparently tried to make a joke out of the contest, succeeded in making the game the worst that has been seen here this winter. As usual the big noise was Mike Murphy, as the scoring summary shows. Mike, who belongs to Charlottetown, scored seven goals and his penalties amounted to one two minute offense.

Of late years much has been heard of fox farming in P. E. Island and according to all reports it has been a great success. Recently the idea has been introduced into this province and there are farms at Sackville, Port Elgin and Petitoctiac. Some months ago F. L. Thompson, A. C. Chapman, Dr. C. A. Murray of this city, and Frank Steeves, of Albert County, bought two beautiful black foxes from a well known dealer in P. E. Island for the handsome sum of \$6,000 or \$3,000 each. Before leaving the island for this city a dealer offered to purchase them for \$8,000, which meant a profit of \$2,000 in a very few hours, but the purchasers decided to keep their black beauties and brought them to this city. They were taken to Ezekiel Steves farm in Coverdale, where a house was made for them. Other business men of this city are also considering the idea of starting a farm and it is understood that a company will soon be organized and they will have their farm at the Gorge.—Moncton Times.

A meeting of the residents of Donagh and adjoining districts was held in the Donagh School on March 7th for the purpose of discussing the automobile question. Edwin Brazil was appointed chairman and after a lengthy discussion on the above question the following resolutions were unanimously adopted:—Resolved, that this meeting is strongly opposed to the repeal of the Automobile Act and would ask our present Government not to repeal the same as it is against the interests of our farmers and the travelling public. It was moved by J. T. Beagan and seconded by P. J. Trainor that the resolution be read be adopted and carried unanimously. It was moved by Francis Trainor and seconded by Wm. Trainor that the resolution as read be adopted and carried unanimously. Further resolved, that a grave danger exists at the railway crossing at the foot of Grafton Street as numerous accidents have already occurred at said place and do hereby ask the Government to place gates or some protection at above mentioned place to protect the travelling public. It was moved by John McCarthy and seconded by Ronald Currie that a copy of these resolutions be sent to our representatives and also to the press for publication.
