MRS. WALDORF ASTOR CAN'T LIVE ABROAD.

NEW YORK, Nov. 8.—Mrs. Waldorf Astor, who has been spending six weeks with her father in Virginia, has sailed for Europe on the Kronprinzessin Cecilie. Mrs. Astor declared she could never go to England to work for woman's suffrage, she said. I couldn't live permanently anywhere but in America, and I'm coming back as soon as the women have won their votes.

DECLARE BRYAN WILL NOT HAVE ANY PLACE IN CABINET.

NEW YORK, Nov. 8.—It is said by men close to Governor Wilson that unless there is a change in the President-elect's plans William J. Bryan will not be Secretary of the State or have any other Cabinet portfolio.

William F. McCombs, after a day and night visit to President-elect Wilson, inquired queries as to whether he is to become a member of the Cabinet. He said he hadn't been considered.

Live geese for the Boston market are being sent from P. E. Island, by car loads. The raising of geese throughout Colechester seems to be falling off each year. There were more raised when the price did not exceed fifty cents than now when it goes above a dollar.—Truro Exec.

Rev. G. M. Campbell, D. D., President of the Mount Allison Ladies College, who was on the programme as one of the speakers last evening at the closing session of the Sunday School Convention, in the First Baptist Church of this city, on his arrival in Moncton received a telephone message that his aunt, Mrs. M. Moran, widow of the late Robert Moran, Wallace, N. S., was dangerously ill. Dr. Campbell left for Wallace on the early morning express. Owing to the lateness of the hour and the receipt of the message, Dr. Campbell did not discuss the theme assigned to him at last night's session of the convention.—St. John Exec.—Dr. Campbell is well known in Charlottetown.

back of a large number of servants to attend at their wants. The I. C. R. has also during the past year decided to run a Sunday train. This is an occasion for visiting with alarm as P. E. I. is intimately connected with the mainland and it may be the entering wedge for the running of the boats and the P. E. I. R. The Alliance has during the past year through all its branches sent in a vigorous protest to the government and to the Management of the I. C. R. who have in the past in deference to the wishes of the public refrained from running their Sunday trains.

There have been tendencies towards Sunday desecration, a number of stores at Summerside who had intended opening were seen by the Secretary and desisted from their intention, certain fishing on Sunday was dealt with and the unloading of a vessel at a time when it would have taken the children from the Sunday Schools, was deferred.

There is, however, a growing tendency on all sides to turn the day into a holiday rather than a holy day, the day of rest to a day of restlessness. Pleasure parties are planned by land and water, picnics in our groves, special dinners in homes, hotels and restaurants and many other plans for Sunday pleasure are being introduced entailing an extra amount of labor on cooks, men waiters, etc., and depriving them of the privilege of attending divine worship and which will inevitably result in the lowering of the character of our citizenship and the destroying of the Lord's Day and its privileges. Under these tendencies of the times it is needful that we be ever watchful and alert and by precept and example instill into our people the proper use of this great boon, that our citizens may retain the heritage of a quiet, restful and ennobling Lord's Day.

We would recommend that definite, clear instructions be given as to the value and use of the Lord's Day by pastors, teachers and parents, and that we seek to awaken a revival of interest in this question throughout the Island.

A. W. Sterns submitted the Treasurer's report showing total receipts, to be \$214.22 which on motion was adopted.

Don't Diet Yourself TO DEATH TO CURE DYSPEPSIA OR INDIGESTION. IT ISN'T NECESSARY.

While it is necessary for the dyspeptic to abstain from rich, greasy, highly seasoned food, it is useless and injurious to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body.

Weakening the body will never remove dyspepsia, on the contrary, all efforts should be to maintain and increase the strength. Burdock Blood Bitters will increase the strength, and at the same time enable one to partake of all the wholesome food required, without fear of any unpleasant after results.

Miss Martha A. Brooks, Gagetown, N.B., writes: "I have been troubled with indigestion for more than seven years, have tried several doctors and different medicines, claiming the power to cure, but all without success. Having heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. I have taken only one bottle, and that one has done me more good than all the other medicines I have used. My appetite, which was very poor, is now good, and I can eat most everything without any disagreeable feelings."

Burdock Blood Bitters is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

The funeral of the late Dr. Geo. E. Moore, Craupud, took place from the residence of his parents upper Prince St., Charlottetown, Saturday afternoon to Sherwood cemetery, a very large concourse of people followed the remains to their last resting place, and nothing but words of praise and appreciation could be heard on all sides for the late Mr. Moore.

The S. S. Minto was reported off Belle Isle, north of Newfoundland, Friday afternoon, and is due to arrive at Halifax on Sunday. All on board are reported well, and the weather is fine. This will be good news to Island people, who have been somewhat uneasy concerning the steamer. It was feared at one time that she might not arrive here in time to begin the winter service.

Last Saturday quite a little excitement was caused by an animal imprisoned in a crate awaiting shipment via the P. E. I. R. One of the Black Fox experts of Charlottetown explained that it could not be one of the animals belonging to the genus fox, as it was multicolored and also rather unduly sized. Several interesting comments were made in regard to the quadruped, by the humorous members of the crowd. At last one of the spectators discovered in the heap, the distinguished features of a common cat. After a slight discussion a placard, with the following verse written on it, was found affixed to the cage—This is the cat, that ate the rat, that lived in the house that Jack built.
