Montreal Power Continues To Hold Spotlight

MONTREAL, Feb. 20— (CP)— The strength and activity of Montreal Power continued to hold the spotlight today in otherwise narrow and quiet trading on the stock exchange and curb market. Most of the list displayed irregularity through the day, but selected issues showed firming tendencies in late dealings.

Montreal Power closed at 23 1-8, the highest closing level since last May. The stock rose to 23 1-2 in early transactions for an advance of one point, but eased to 23 and finished at 23 1-8 for a gain of 5-8. Keen interest in the issue appeared to be the reaction to unconfirmed rumors that the provincial government would make a new offer for shares of the company whose physical assets were expropriated in 1944.

Southmount, a Montreal Power subsidy, was another active utility and jumped eight cents at 32. Winnipeg and Gatineau were better and Brazilian easier in light trade.

Papers were mixed. Among more active issues, Abitibi upped 3-8 and Donnacona 1-4 while Consolidated closed unchanged. M. and O., and B. C. Forest were modest gainers while International and Great Lakes converted early slips into rises. Off slightly were Abitibi Preferred, St. Lawrence Paper Preferred and St. Lawrence Corporation. Bathurst erased a loss.

In the industrial section, Tobacco was heavily traded and finished unchanged. Dominion Bridge, Asbestos, Dominion Glass, Electrolux and United Steel were fractionally improved while Montreal Locomotive and Cement were shaded. Dosco "B" and Massey retrieved dips and Algoma lost a lift. Seagrams advanced the minimum fraction and Canadian Breweries shook off a slight loss in liquors. Celanese was up 1-4 and Bruck down a point in textiles. Famous Players rose 1-4 and Lewis dropped an increase in miscellaneous issues.

Base metals and oils were fairly steady. Nickel recovered a loss and Hudson Bay was softer. Imperial and Petroleum were easier.

Mines were featureless and only moderately active.

Trading box score: Total sales, 200,500 shares; industrials, 80,100; mines, 120,400; stocks higher, 63; lower, 52; unchanged 75; new highs, 22; new lows, 12.

LONDON —(CP)—John Hunter Harley, writer on European affairs and associate of Ramsay MacDonald and Philip Snowden in founding the Labor party, died aged 81.

BURTON - ON-TRENT, England —(CP)—Ancient charters and seals relating to Burton's early history, including some dating back to the 11th century, will be presented to the town by the Marquess of Anglesey.

Work Of Agriculture Federation Reviewed By Mr. R. A. Profitt

Following is the text of the address by Mr. R.A. Profitt, Freetown, president of the P.E.I. Federation of Agriculture at the annual meeting yesterday:

"It is a great honor for me at this time to preside over the annual meeting of the Prince Edward Island Federation of Agriculture. Another year has passed since we met in annual session, and we would be amiss if we failed to express our thanks to the great Giver of all good things for a liberal measure of health and prosperity in the past year.

"1946 has not been what we would term a banner year for the farmers. The continued dry season following a dry summer in 1945 cut down the yields of hay, grain, pasture, etc., and thus inflicted a real hardship on our dairy farmers. The root crop, however, was good throughout, and has aided materially in feeding our livestock through the winter months.

"It is not my purpose at the present time to comment in detail upon our whole farming operation. I would, however, like to express a word of appreciation in passing, and point to some goals to be aimed at and achieved, if possible in the near future.

"In connection with the working of this organization, I may say that I have not been able to devote very much time to it. I have, however, tried to attend meetings of the board of directors of both the Provincial and Canadian Federations. I do hope that before long, this organization will have either a president or a secretary who will be able to devote considerable time to organization work.

"Our secretary, Mr. W.R. Shaw, has been carrying the burden of work and detail, and great credit is due his efforts on our behalf.

"Our Province has been very fortunate in securing the services of Mr. L P. McIsaac, and he has been doing a very fine piece of work among our farmers and rural people. I solicit for him your continued help and support in this great work of community building."

Rural Beautification

"The committee in charge of rural beautification in this Province has been doing a grand job, and the contest they conducted during the past year has had very beneficial results. Already we see great improvement in our farm homes all over the Province. I can assure all those who are directly connected with this work, that the Federation is heartily behind them, and will give them every support.

"Beautification of our farm homes and buildings is very essential in getting the maximum satisfaction in home life, but I would like to go a little further, and recommend a contest in which, for instance, we might feature farm management, weed control in the root crop, etc.—things that have a more direct bearing on our income and financial position. I mention these things in passing in the hope that something along these lines might be attempted in the near future.

"It was my privilege to attend the annual meeting of the Federation of Agriculture held at Winnipeg. If I should attempt to bring you a full report of the proceedings it would take many pages. I am, therefore, just going to touch on the highlights. Two of the outstanding addresses of the convention were made by Sir Andrew Jones, British Food Minister in Canada who attended the meeting and Sir John Boyd Orr, whose message came by radio.

Preferred Position

"The points stressed by Sir Andrew Jones dealt principally with Canada's position on the British market. He stated that Canadian bacon, eggs and other products stand high in the British market today. He urged the Canadian farmers to take full advantage of this preferred position, and not allow their competitors to take this market away from them. Quality and continuity of supply are two of the main things necessary to hold this market.

"Sir John Boyd Orr, in his address outlined the food requirements of the people of the world and made a strong appeal to the Canadian farmers to do all within their power to produce food for export to these hungry people. For us eastern farmers to take a challenge like this seriously, the first thing that comes to our minds is the question 'Have we ample supplies of feed available for all kinds of livestock?' The answer at the present time is 'No, our feed supply is very low.'

"One of the depressing facts brought out at our convention in Winnipeg was the scarcity of all kinds of feed grain for our eastern Canadian farmers and it was pointed out that the major difficulties in getting sufficient supplies from the West at present were due to the shortage of cars and the serious snow condition.

"It does appear, therefore, that we shall see a great shortage of livestock feed in eastern Canada this spring and possibly next year.

"Right here I do not think it would be wise to advocate a general increase in our livestock population. If we can maintain our present production and livestock population, we will do well with the present feed supplies available.

"These disturbing facts bring us once again to the matter of grain supplies within our province, and I hope our resolution committee will take full advantage of our predicament, and bring in a strong resolution regarding grain supplies.

Marketing

"The matter of marketing was again a subject of much discussion at our Winnipeg meeting, and there is a Dominion-Provincial Marketing Conference being held the last of this month at Ottawa to make a final demand on the Dominion Cabinet for Dominion marketing legislation. When the time comes that we have our Provincial set-up complete, many of our problems arising can be handled more effectively.

"I feel quite certain that under a proper system of marketing we could put some order into the sale of our farm commodities, such as potatoes, dairy products, poultry, eggs, hogs etc.

"We are especially fortunate this year to have with us Clarence Fitz-Randolph of Bridgetown, N S. who has a general first-hand knowledge of cooperative marketing schemes, and no doubt his address will be of great interest and benefit to us all at this time.

"Now before concluding my remarks, I would like to make special reference to the work of the Canadian Federation of Agriculture. The C F A has had another very successful year, and is now become one of the major influences in this Dominion in moulding of agricultural policies. I am certain, the farmers of Canada do not fully realize what this Federation has done and can do for them.

"If I could, by words bring to you the conception I have personally of the Canadian Federation of Agriculture and its president, Mr. H.H. Hannam, there is not a man here who would not want to make a special contribution to help finance the organization. In dollars and cents alone, this organization is worth millions to our Canadian farmers.

"What does four cents per pound on butter manufactured by Canada amount to in a year? I know of one farmer in this Province getting over $300. from this increase of four cents per pound on butter recommended a year ago by the C.F.A. Dunk River Dairying Company contributes five dollars per year to the Provincial Federation and they received $12,439.76 more for their butter on account of this four cent increase. I would like, therefore, to appeal to all our farmers and farm organizations, to get behind our Federation, and I believe every farmer in this Province should consider making a direct contribution.

"In closing I wish to express my appreciation to the staff of the Department of Agriculture, and all the Government departments rendering a service to our agricultural people, and may these agencies be improved and enlarged in the interest of all our citizens.

"I hope you will all enter freely into the discussion of the problems brought before this convention, that together we may work out plans for our mutual benefit, and for the welfare of all our people, both rural and urban."

Central Farmers Institute Holds Annual Meeting

Mr. R.A. Profit of Freetown was re-elected President of the Central Farmers Institute at a Board of Directors meeting held following the 55th annual meeting of the Association in the Canadian Legion auditorium yesterday.

Other officers elected were: Messrs Samuel Hume of Uigg and J Lincoln Dewar of New Perth as vice president and secretary respectively. Directors appointed for coming term were: Prince County: H. Llefletter, A. Profit and E. Drummond. Queens County, A. Stewart, S. Hume and H. Martin; Kings County; J.L. Dewar, A. Richards and P.A. MacDonald. The meeting was presided over by the president Mr. R.A. Profit.

In a brief address, Mr. Profit told the meeting that the farm organizations throughout Canada were just waking up, this fact, he said, was evidenced by the large attendance at Wednesday's meetings. A serious situation exists in the recent price increase in feed wheat (30 cents per bushel) Mr. Profit stated, adding that the matter should be given immediate consideration.

An informative address was delived by Mr. J.E. MacIntyre of Moncton, secretary of the Maritime Fertilizer Council who was called on by the president for a few remarks. Mr. MacIntyre suggested to the farmers that since the price of wheat had increased it might be a good plan to grow more this coming year. Referring to fertilizer Mr. MacIntyre told the meeting that there would be enough for every one by spring. The shortage of time he said, was due to the fact that priority had been given potatoes during the past few months stopping limestone shipments.

Problems Discussed

Considerable discussion took place over the matter of keeping Island youths on the farms. Mr. Profit said that farmers should first get their sons interested in farm work before sending them away to an Agricultural College. Mr. Keith Morrow disapproved the pressing of a purely academic education on rural youths and strongly recommended sending them to the Agricultural College at Truro for practical training instead.

Mr. J Lincoln Dewar urged the farmers to impress upon their sons that there was no easy way of making a living. Instead of complaining about farm life, he said, bring out the advantages it has. "We have a definite responsibility in putting that idea across," he said.

Resolutions

Four resolutions were passed, one recommending that part of the government grant available to students in certain professions be made available to farmers' sons desirous of undertaking the two year agricultural short courses. The second urged the Provincial Government to give more attention to the activities in the field of agricultural youth traning and to promote interest and maintenance of the Boys and Girls Clubs throughout the province and that more time of qualified personnel be allotted to these activities. The third strongly protested the Government's action in raising the price of feed wheat 30 cents a bushel due to the fact that it would prove detrimental to the Poultry Industry and livestock in the Province. The last one urged the Premier to regard the vote taken through the press last summer showing that a large majority of people opposed the institution of Daylight Saving Time.

President.

Airline Stocks Lead Comeback On N. Y. Market

(By Victor Eubank)

NEW YORK, Feb. 20 —(AP)— Airline stocks led a selective comeback in today's market although many leaders remained indifferent.

Aircraft issues attracted bids on the idea this group was behind the market, having done little in the January revival.

The Associated Press 60-stock composite was up .1 of a point at 67.76 after the drop of .5 the day before.

McIntyre, with a loss of 1 point, and Dome Mines, with a gain of 1-4, were the standouts among otherwise quiet Canadian issues. Canadian Pacific and Distillers Seagrams both were unchanged. On the curb, Lake Shore was unchanged.

Johns-Manville still buoyed by the proposed stock splitup, added 3 1-2 at 136 on top of yesterday's 3-point gain. United Paperboard was active with a gain of 1 7-8 at 18 7-8. Douglas Aircraft was up 2 at 13 on small sales. Ahead 1 or so were United Air Lines at 23 1-4 Eastern Airlines at 21 3-8, Sperry at 23 1-4, Great Northern Railway at 48 1-2, U. S. Gypsum at 104 1-4 and Dow Chemical at 171.

Lesser gainers included U. S. Steel, Chrysler, Goodyear, U. S. Rubber, Montgomery Ward, Sears Roebuck, Woolworth, American Telephone, Boeing, United Aircraft, Pan American Airways, American Airlines, Anaconda, American Telephone, Consolidated Edison, Santa Fe, N. Y. Central, Southern Railway, Northern Pacific, Standard Oil (NJ), International Paper and Union Carbide.

Allied Chemical yielded 3 at 172, Owens, Illinois 2 at 75 1-4, Eastman Kodak 1 3-4 at 222 and Caterpillar Tractor 1 3-8 at 62. Other casualties were International Harvester, Kennecott, Chesapeake and Ohio, Schenley, Air Reduction, General Electric and Westinghouse Electric.

Potato Market Report

The following Dominion Department of Agriculture Marketing Service report is for Tuesday, February, 18.
