THE DISTRICT MEETING

Of the Methodist Church Endorses the Prohibition Bill and Condemns the Council.

The Charlottetown District met at 9 yesterday morning. In addition to the ministers of the District reported Tuesday, the following lay delegates were present: Henry Smith, Theophilus Moore, Golding Howard, Grant Mutch, David Ross, Dr. Geo. H. Marvin, Jas. Duck, Chas. Boyver, Henry McKenzie.

The record of the Ministerial session was then read. The district then proceeded to the transaction of its routine business.

In the matter of acquirement of church property Grace Church reported the purchase of a fine new pipe organ at a cost of \$1600, which is giving eminent satisfaction to the congregation.

Permission was granted to the Trustees of the Stanhope Methodist Church on York Circuit to sell the land on which the church stands and to remove the building to a larger and more convenient site.

In reference to Circuit boundaries a resolution was submitted by the Quarterly Board of the Mount Stewart Circuit, asking that hence its boundaries constitute Gienfman, Black River, Mount Stewart and Marie and that Dundas be restored to the Souris Circuit. A lengthened discussion ensued in which the interested circuits took part. The motion was negatived but another was passed appointing a Committee to visit the circuits affected by the proposed change, during the coming year for the purpose of fully investigating the matter and to report to the next Annual District Meeting.

AFTERNOON SESSION.

Business of the District was resumed at 2.30 p.m.

The first work of the District was the reception of the reports from the circuit which aggregate as follows:

RESOLUTION RE-PROHIBITION ACT.

The matter of the recent Prohibition Legislation came before the meeting, and the following resolution was passed:

Resolved that the Charlottetown District of the Methodist Church, now in session in this City, heartily approves of the action of the Provincial Government in giving expression to the voice of the people, by bringing into force the Prohibition Act of 1900, and regard with unmixed pleasure, the addresses of the Premier, Attorney General, and other members of the Government expressing their determination and purpose to do all in their power to enforce this very satisfactory measure.

The District pledges its hearty support in every effort to make the law as effective as possible, and very strongly expresses its dissatisfaction with City Council in its refusal to allow its officers to enforce the Act.

The Rev. G. M. Young moved the resolution, and it was seconded by the Rev. S. H. Rice, and supported by Revs. J. W. McConnell, H. B. Thomas and Thos. Hicks, and carried without a dissenting voice. One feeling prevailed during the discussion, namely the more drastic the measure of prohibition the better.

The next annual district meeting will be held in the First church Charlottetown.

On Tuesday evening a missionary meeting was held at which Revs. A. D. McCully and Jacob Heaney delivered interesting and effective addresses. After a prolonged conversation on the promotion of the work of God, the District concluded its business and adjourned.

THE EDITOR'S MAIL.

Go Slow, Your Worship.

SIR.—It scarcely requires one to be a prophet or the son of a prophet to foretell what the action of the City Council indicated in re City lighting. It indicates as clearly as the noon-day sun that if the celebrated quartette who rule in the Council Chamber can, by any means whatever, carry their point, this City will for the coming five years be lighted by that wonderful conglomeration of old machinery that keeps the residents of the Esplanade in nightly trepidation. That the quartette, which judging from their grammatically rounded sentences we might truthfully term the "illiterate quartette" would descend to the depth they do, to give a longer lease of life to the "Irregular Intermittent" was what one and all expected, but that His Worship would do other action last evening than vote for the lowest tender securing the contract, was a complete surprise to every honest citizen as might be witnessed by watching the faces of the citizen spectators in the Council Chamber last evening.

Last year His Worship had an excuse for the non-acceptance of the lowest tender, as his wish was for this City to own and operate its own plant. This year I think the citizens have a right to know what his reasons are for blocking this matter. Go slow, your Worship, go slow. If the citizens of Charlottetown have no faith in one half of your Council they would be loth to lose faith in you and it behooves you to pick carefully your footsteps and on no consideration to throw in your lot against honesty and fair dealing.

The specification issued by your Council called for a price per lamp for lighting this City for three or five years and made no mention whatever of such a course as the City acquiring control of either of the plants to operate themselves for the coming years. Under those specifications you received the tenders, one from the Full Co., for \$69.50; one from the Royal for \$95.00 per lamp and your clear duty was to accept one of those tenders or for cause throw them both out; and it is not unreasonable to insinuate that this is what an honest and fair minded Council would have done. What right had you and the Council to take into consideration at all any tender such as the Royal put in to rent your plant? Did you not go to citizens a short time ago, ask their mandate in re City ownership or management and did not they answer decidedly "No?"

Do you and the Council represent the expressed wishes of the citizen electors or do you not? Pshaw well, Your Worship. And now citizen tax-payers, here is a little problem for you; you are the men affected; you are the men who pay the piper. Last year the Council called for tenders for lighting the streets for one, three, or five years, and two tenders were in, one from the Full for \$39, and one from the Royal for \$30; of course this upset the calculation of the then quintette and to favor the Royal they decided on not accepting the tenders, but instead to make a temporary arrangement with the Royal and take a plebiscite on City ownership. This aftermath of City ownership was something that would have remained closely bottled up in the capacious brain of Mr. Councilor Manipulator, had the Full Co. not tendered, and was clearly on his part, a part of a well thought out scheme; and now, Mr. Tax-payer, I propose to show you by a few figures just what that scheme cost you; it cost you at any rate the difference between the lowest tender last year \$39 and the lowest tender this year \$69.50, which is \$10.50 per lamp for say 80 lamps—\$840.00 for one year or \$4,200.00 in five years. Let us carry the illustration a little further and see what would have happened had the Full Co. not tendered this year; it would then have cost you per lamp the difference between \$39.00 and \$95.00 for if the Full tender had not been in, is it not a fair supposition that the Council would at once have decided that they could not enter

tain the proposition to rent the Royal plant, the city having at the plebiscite decided against it! Therefore the contract would have been let to the Royal for 5 years at \$95.00 per lamp and if you take 80 lamps @ \$35.00 per lamp it gives \$28,00 a year in 5 years \$14,000. And please bear this in mind that you are at least indebted to the Full Co. for not being in that dilemma. As one of the Councilors said last night, he would much prefer giving the contract to a foreign Company and therein lies the secret of the whole affair.

Talk about boodling! It seems to me we can well rival New York or Montreal on a small scale. And yet the citizens don't seem to care very much and are quite apathetic in the matter, but all the same, sometimes the worm will turn, so go slow. Your Worship, go slow.

ALMOST CONSUMPTION.

Mr. J. J. Dadds, of Pleasant Ave, Deer Park, Ont; writes:—"I have suffered in my head and throat and all over my body since last summer from a very heavy cold, which I could not get rid of. I have tried several of what are considered good remedies, but none seemed of any avail. I began to think that my cold was developing into consumption, as very many have to my knowledge. I am thankful now to say that Dr. Chase's Syrup of Linseed and Turpentine has worked a complete cure as I am now entirely free of the cold."
