GERMANS RETREAT BEFORE RUSSIANS

RESULT OF UNITED STATES ELECTIONS

NEW YORK, Nov. 4.—Sweeping Republican gains throughout the country, which reached a climax in this State by the overwhelming victory of Chas. S. Whitman for Governor, and James W. Wadsworth to succeed Elihu Root, in the United States, were indicated last night in early returns of the general elections.

Heavy falling off of the Progressive vote in many States, the return to Congress of former Speaker Joseph Cannon, decisive Republican gains in New York and Illinois in the House membership, and the overwhelming defeat of Representative A. M. Palmer, by Senator Bois Penrose in Pennsylvania, were features of the early returns. Democratic leaders, however, were pleased by a triumph in Massachusetts, where former Representative Samuel W. McCall was defeated for the governorship by Governor Walsh.

Early returns indicated that the Democrats would retain control of Congress, with approximately no change in the Senate majority, but by a decidedly reduced majority in the House. At a late hour results in Illinois, Indiana, California and Colorado as to the senatorship were in doubt.

The triumph of Senator Penrose in Pennsylvania over A. M. Palmer, Democrat, who was one of the original supporters of Woodrow Wilson, and Gifford Pinchot, Progressive, was overwhelming.

Democratic Senators in the south were re-elected without difficulty, over Senators from southern States chosen being Representative Oscar W. Underwood, of Alabama, and Representative Thomas W. Hardwick of Georgia.

The triumph of former Speaker Joseph G. Cannon, Republican, over Frank O'Hair, for representative in the eighteenth Illinois district seemed certain on the early returns.

Serenio E. Payne, Republican, of New York, one of the oldest members of the House in point of service, was re-elected without difficulty.

In Ohio the race for Governor between James M. Cox, the Democratic incumbent, and Frank B. Willis, Republican, was close, with Governor Cox in the lead on early returns.

In Pennsylvania, where occurred one of the most spirited campaigns, Martin G. Brumbaugh, Republican, early took a long lead over Vance McCormack, Democratic candidate for Governor, who was endorsed by the Progressives.

Defeat of woman suffrage in Missouri and North Dakota was indicated.

In Ohio the prohibition issue was uppermost. In Cleveland and Dayton the "wets" were victorious by large majorities.

Hundreds of Prisoners Captured, Many Guns Taken and Towns Occupied

(Special to The Guardian)
PETROGRAD, Russia, Nov. 4.—The following official communication from the Russian General Staff Headquarters was given out here to-night: A sudden change is noted since Nov. 3rd on the East Prussian front, where the enemy which recently took the offensive, almost everywhere has begun to fall back at certain points. This retreat is precipitated on the left wing of the enemy which was vigorously thrown back toward Biaia and Lyck. Our troops took Bakalarjevo, capturing a large quantity of arms and ammunition and making prisoners of a German company.

On the left bank of the Vistula the Germans continue their precipitate retreat towards the frontier. Their rear guards have been dislodged from Kolo and Przedhora.

On the morning of November 3rd we drove back the Austrians beyond Kielec which place our troops occupied, making a hundred prisoners and taking machine guns. On the same day we won a decisive victory over the Austrians along the whole front from Kielec to Sandomir. Our troops fell back at all speed. Our troops took Sandomir which is an important strategic point.

(Special to The Guardian)
PETROGRAD, Nov. 4.—In the region south of Kielec during the past week we made prisoners 200 officers and 500 men and have taken a large number of cannon and machine guns. During the night of November 3rd, the Austrians made a series of attacks, fiery but futile, and retreated. Our troops took a firm footing in the region of Nisko and Radzik. Nothing to report on the rest of the front.

The Turkish fleet is concentrated in the Black Sea with its base in the Bosphorus. Apparently they are trying to avoid fighting our forces.

(Special to The Guardian)
HAVRE, France, Nov. 4.—A Belgian official statement officially announces the heroic rescue of our troops on the Yser by a successful intervention of detachments of Allies which caused considerable losses to the Third and Twenty-second Reserve Corps of the enemy, and which moved them down to the extent that their check amounts to a real disaster.

To the south of the Yser, the Twenty-third German Reserve Corps was obliged to give ground before the offensive of the Allies.

To the east of the Yser and Ypres between Bixchoote and Zonnebeke the situation has not been modified.

Between Zonnebeke, Wytsechate and Nessines, the Allies, despite furious attacks of the enemy maintain their positions. Artillery still remains, south of Lys, action is confined to intermittent cannonading.

FOREIGNER WAS TAMPERING WITH N. T. R. RAILS

EDMUNDSTON, N.B., Nov. 4.—A foreigner about twenty-five years of age was arrested Tuesday afternoon by Dominion Constables Beaulieu and Sirois on the track of the Transcontinental Railway between Slegas and Quabouctou.

The officers were on duty guarding the bridge when they saw a man on the track, some distance from them, and their suspicions were aroused. They immediately started towards him and found the foreigner at work tampering with the rails. They immediately put him under arrest, but could not get a word from him.

The prisoner does not seem to understand either French or English. It is believed that the man under arrest is one of a band of foreigners which have been seen along the line of the Transcontinental within the last few weeks.

THE GERMANS ARE LEAVING THE BATTLE FRONT IN BELGIUM

HAVRE, France, Nov. 4.—The Belgian Minister of War to-day made public an official report received by him from Furnes, on the Belgian coast, half-way between Dunkirk and Ostend. The text follows: "A detachment of Allied troops which to-day pushed ahead as far as Lombartzyde on the Yser front below Schoorbakke, failed to discover any of the enemy. Only small detachments of artillery still remain in the direction of Mestende and to north and east of Schoorbakke.

FRENCH WOMEN GIVE BLOOD TO SAVE LIVES OF WOUNDED

PARIS, Nov. 4.—Military medical authorities at Lyons issued this appeal to the population:—

"There are many wounded who are so exhausted from the loss of blood that the only chance of saving their lives is by prompt transfusion from the veins of a healthy, strong, living man or woman. Those who wish to offer their blood for such transfusion are invited to give their names to the Hospital."

LONDON, Nov. 4.—The Admiralty has issued a statement in which it says it has received from German sources details of a naval engagement off the Chilean coast, in which the British cruiser Monmouth was sunk and the Good Hope severely damaged. BRITISH AND FRENCH SQUADRON BOMBARDED DARDANELLES FORTS

LONDON, Nov. 3.—(11.40 p. m.)—The Secretary of the Admiralty announces that a combined British and French squadron bombarded the Dardanelles forts at long range this morning. The forts replied but no ships were hit, only one shot falling alongside them. The statement adds that the damage to the forts cannot be estimated, but a great explosion, accompanied by dense volumes of black smoke, occurred at the Holles fort.

GERMANS MAY MAKE SUPREME EFFORT TO REACH CALAIS BY INLAND ROUTE

LONDON, Eng., Nov. 4.—A Belgian Socialist Senator, who returned to-day from an official visit to King Albert, said the Allies are now within ten miles of Ostend, but he did not believe the Germans are preparing for a general retreat through Belgium, but rather for a final supreme assault, which would be made at a point south-east of Ypres. The Senator states the Germans have 500,000 men in the vicinity mentioned, but said it was the general impression of the Allied

Took Part in Engagement in Which the British Submarine D-5 Was Sunk by Mine.

(Special to The Guardian)
LONDON, Nov. 4.—That four German dreadnoughts and four German cruisers took part in yesterday's engagement off the east coast of England is confirmed by the crew of the steam drifter Carrigill. According to the skipper of the drifter the German ships appeared through the mist about 160 miles north-east of Lowestoft at seven o'clock in the morning. Firing at the British cruiser Halcyon lasted fifteen minutes. The skipper also says two British submarines in addition to the D-5, which was sunk by striking a mine, pursued the Germans.

SUMMARY OF THE SITUATION

(Special to The Guardian)
LONDON, Nov. 4.—Turkey has now definitely broken off diplomatic relations with Great Britain, France, Russia and Serbia. Her diplomatic representatives in the capitals of these countries, acting on orders from the Porte to-day demanded and received passports. Some of them already have left their posts, while others will depart to-morrow.

Although no statement to this effect has been given out it is understood Turkey's apology for the actions of her fleet in bombarding Russian Black Sea ports and Russian ships proved unacceptable to the Powers of Triple Entente in that Turkey was not prepared to accede to the demand that German officers in her service be dismissed and the ships purchased from Germany dismantled.

The Powers which the Ottoman Government has thus defied are already taking warlike action against Turkey. The British have destroyed Fort Akabah in Arabia, the Russians have invaded Asia Minor and an Anglo-French fleet is bombarding the forts of Dardanelles.

Now that Turkey has aligned herself among the nations at war speculation is rife as to what the other Balkan Powers will do. Greece is said to be preparing to take sides with the Allies, while Bulgaria has given assurance of her neutrality. Bulgaria, however, is mobilising, for, as a Bulgarian diplomat said, with Turkey in the area of war, Bulgaria must be prepared for any eventualities.

Next to the Turkish situation the appearance of German warships off the coast of England is causing most of the discussion in this country to-day. There is a disposition among naval men to believe that no serious raid was intended, but that the Germans hoped to induce British warships to follow them, and by laying mines as they retired to catch some of the bigger ships as they did the submarine D-5. The fact that Germans laid mines seems to indicate to naval experts here that the ships engaged in this work were old ones. These experts argue that the Germans would not take such risks with new vessels, and as if to prove the contention experts say that the firing at the British cruiser Halcyon, which resulted in slight damage to that vessel, showed the German ships were not armed with modern guns.

Official reports of the fighting on land, as issued to-day, recorded only advances at various points and repulses of the enemy's attacks at others. There is in fact no great change in the situation according to these reports.

It is definitely announced that the Germans have given up their positions along the Yser having been driven out of there by the flooded country and gun fire of Allied troops and warships.

The Germans, however, have kept up their attacks on Allies' lines around Ypres where British troops are fighting. Although there is evidence that the new main effort of Emperor William's forces to break through this point has not really commenced, the Germans continue to bring up reinforcements and under the eyes of the Emperor are preparing to make another big attempt to get through to the coast.

Military men here say the Allies have just as good means for bringing reinforcements to their lines as have the Germans and express confidence that the new attack will prove as fruitless as the previous ones.

Indian troops and the pick of English Territorial forces have distinguished themselves in the fighting and come in for compliments from General French.

For the trend of events on the East Prussian frontier reliance has to be placed entirely in Russian reports as the German Headquarters say nothing about it.

FORMING NEW CABINET FOR ITALY

ROME, Nov. 4.—Signor Salandra, the Premier of the Cabinet, which has just resigned because of differences among its members regarding questions of financial policy, having been semi-officially entrusted by King Victor Emmanuel with the duty of forming a new Cabinet, spent the whole of the evening on Monday night in consultation with political friends, as he wishes to solve the crisis in the shortest possible time, owing to the international complications. According to the custom here the official announcement of his having been entrusted with the formation of a Cabinet will be given out simultaneously with the announcement of the new Cabinet.

ARABIAN TOWN BOMBARDED

(Special to The Guardian)
LONDON, Nov. 4.—The British cruiser Minerva has bombed the Arabian town of Niiddah on the Red Sea.

GEN. FRENCH COMPLIMENTS THE INDIAN TROOPS

(Special to The Guardian)
LONDON, Nov. 4.—The Official Press Bureau in a statement issued to-day pays tribute to the bravery and adaptability of the Indian troops now serving in France and Belgium saying they are performing great work notwithstanding the fact that the nature of the country in which they are fighting is entirely different from that to which they were accustomed. General French expressed himself greatly pleased with the bearing of these troops and has sent the following message to the Indian Corps Commander:

Please congratulate Indian troops on their gallant conduct and express our gratitude to them.

GERMAN SUBMARINE IN TRAWLERS NETS.

LONDON, Nov. 4.—A despatch to the Daily News from Rotterdam says that a Ymuiden steam trawler reports that Friday, while fishing, a submarine boat became entangled in the nets and sent up a rocket. The Captain hailed the submarine in English, but received no reply, and the trawler abandoned her nets.

The Daily Mail's Amsterdam correspondent says it was the anonymous German submarine U-9 which got entangled in the trawler's fish nets.

GHEENT ISOLATED FROM COMMUNICATION.

WASHINGTON, D. C., Nov. 4.—Ghent is isolated from communication, according to a despatch received by the American government sent out by messenger to Sluis, Holland, by United States consul general Henry A. Johnson.

The despatch added that the American consul general had ordered the consulate at Ostend closed and gone to Ghent, where he was safe, but without communication. Officials here infer that the fighting was so fierce in the coast towns that all Americans have withdrawn to the interior.

NOW THE OPINION HAS BEEN COMPLETELY AND FREELY EXPRESSED THAT THE GERMANS WOULD NEVER REACH THEIR OBJECTIVE.

KING AND QUEEN INSPECT CANADIANS

Attended by Lords Kitchener and Roberts His Majesty Complimented "The Boys"

(Special to The Guardian)
LONDON, Nov. 4.—Their Majesties in brilliant sunshine inspected the Canadian troops at Salisbury Plain to-day. The royal party was met by General Campbell, Commander of the southern district, and his staff, also Lieut.-General Alderson and staff on the parade ground between Bafford and Westdown Camps.

Accompanying their Majesties were Lord Kitchener, Lord Roberts, Lord Stanfordham, the King's private secretary, Hon. Geo. Perley, Sir Richard McBride, Col. Carson, Col. Wilson, Col. McDougall, Col. Nell, Lieut. Col. Grant Morden, Lieut. Col. Reid and other staff officers, who were presented to their Majesties. Addressing the troops the King said it gave him pleasure to get such a fine body of men as he had found in the first overseas contingent.

GERMAN SAILORS ARRESTED AT N. S.

WINDSOR, November 4.—Last evening an intelligence officer and a trooper came from Halifax to Windsor to look up two German sailors, who were on board the four-masted American schooner "Charles D. Endicott" which is discharging chemicals here.

The sailors were removed from the Imperial moving picture theatre, where it seems they had previously given offense by hissing when the picture of King George was thrown on the screen. With the assistance of the local police and attended by a large crowd of curious and excited citizens, the two sailors were escorted to the police office and examined by the intelligence officer.

The result was that Captain Johnson of the schooner, signed papers making himself personally responsible and agreeing to deliver the Germans to the officers on Thursday next, when they will likely be removed to Melville Island, Halifax.

FUR PRICES ARE ADVANCED BY WAR

OTTAWA, Nov. 4.—One of the Canadian Trade Commissioners in England reports that in consequence of the war an advance may be expected in the price of furs, particularly in the popular and cheaper kinds. The fur which is likely to be the most scarce is the seal dyed coney, which of late years has been so extensively worn. One reason is that the furs are being used for coats for the French soldiers in anticipation of a winter campaign, and another reason is there is no means of dyeing and preparing them for the English market. France and Belgium are the two countries which specialize in the preparation and dyeing of the coney skin, and the people of these countries are too much occupied with the war to turn out more than is required for their own military requirements.

Furs from animals which have their haunts in Russia are also scarce, owing to the fact that the hunters have been called away from their regular occupations. Wolf and fox skins are already 25 per cent. dearer than last year.
