PRUNING FRUIT BUSHES

In pruning gooseberry bushes keep centre of bush open. When branches are more than three years old they should be removed. The finest fruit is borne on young wood. After two or three years of bearing the wood begins to fail and produces inferior fruit.

Black currants bear most of their fruit on wood of previous season's growth, hence it is important to have a plentiful supply of one year old healthy wood. The red and white currants produce their fruit from wood two or more years old, hence it is important in pruning red and white currants to leave the two and three-year-old wood to bear the fruit. Older wood will bear inferior fruit.

The first cement works to be built in Iraq has been shipped out there complete from a famous British steel works.

It includes a large plant for crushing limestone, large mills for grinding the limestone and clay to the necessary degree of fineness, a rotary kiln, 300 feet long, for burning the raw materials, another large mill for making finished cement, and an ingenious machine which automatically packs the product in paper sacks.

The works which will turn out 250 tons of cement a day will be able to increase the output, should the demand warrant it, to 600 tons a day.

1st. CHARLOTTETOWN TROOP (BASILICA)

On Friday March 14 the First Troop held a very good meeting in their Troop Headquarters. Instructions were given in Tenderfoot work and last week's work reviewed. Some new methods of tying knots were taught. While the Troop attendance is very good, some improvements could be shown in the weekly collection of dues. In the Troop Competition the Owls under P. L. Bambrick have a slight lead over the Foxes (P. L. Haughty) but the Foxes expect to catch up at the next meeting. Due to the Queen Square Ice Sports last night the regular Scout Meeting was postponed but a complete snappy programme will be prepared for next week. All Scouts and especially the P. L.'s are reminded of the Camp Fire next meeting night and are asked to have skits etc. prepared.

HAVE YOU NOTICED?

By this time all Scouts and Cubs should have the new 1941 Scout Catalogue. How observant are you? What's wrong with the Cover? the printing. There is a mistake. Check over the Scout, the Flag and the printing. There IS a mistake. Can you find it?

2nd. CHARLOTTETOWN PACK (ST. PETER'S)

The Cubs of the Second Pack greatly enjoyed their last meeting at which all boys took part in short periods of boxing. Two sets of gloves were in evidence and the meeting finished without any knock-outs, decisions of injuries, although at times the gloves were flying from all angles and Akela, Baloo and Tall Timber had a hard time keeping the fans out of the ring. Games were also played at this meeting and ball throwing practice held.

5th CHARLOTTETOWN TROOP

A very lively period of games was enjoyed after the regular meeting of the 5th Troop at their last meeting. Test work in the Troop is progressing very favorably, although the attendance, due to Sports, hockey games etc. is not as good as it should. Scouter Fred Wedge was a visitor to the Fifth and instructed some boys in the Scout Law.

S. M. Kerr and A. S. M. Yeo thanked Mr. Wedge and also Tall Timber for the help they were giving to the Troop and expressed the hope that other visits would be made by these Scouters in the future. The Leaders in Charge have decided that more active games would be played during the coming meetings and that test work would be pushed as usual.

"GOD SAVE THE KING"

Cubs must know the 1st and third verses of "God Save The King" for their Second Star Test. Sometimes it is difficult to secure a copy of the third verse, so some Cub Leaders and Cubs may find the following copy useful:* -

Thy choicest gifts in store
On him be pleased to pour;
Long may he reign;
May he defend our laws;
And ever give us cause
To sing with heart and voice,
God save the King!

3rd CHARLOTTETOWN TROOP (ST. JAMES)

On Saturday March 8th the third Charlottetown (St. James Troop) started out from their headquarters on a sealed orders' hike. The Scouts, after marching "a few extra miles" finally arrived at the Camp Site, where dinner was cooked and gadgets made. About 3.00 p.m. the S.M. and A. S. M. arrived and inspected the site. The Scouts were instructed in shelter building by S.M. Bourke, and fire laying and lighting by A. S. M. Anderson. On the way home the boys stopped at the Old airport and inspected the "ruins". The Troop arrived home about 6.00 in the evening. The turnout was fair, but not good enough. A swell time was had by all who took part in this Scouting adventure. (The Scribe)

THE SCOUT LAW

Some time ago a short verse was published to help new Scouts to remember the Scout Law. Although this verse is known by all old-time Scouts we are giving it to you in the hope that it may be of some help to Tenderfoot Scouts and Recruits.

Trusty loyal helpful,
Brotherly courteous kind
Obedient smiling and thrifty,
Clean as the rustling wind.

ST. JOHN AMBULANCE COURSE

Thursday evening the First Aid Class sponsored by the Charlottetown Scouters' Club visited City Hospital where a skeleton and a number of X-ray pictures were studied. The members feel that now they have a more complete knowledge of the structure of the bones of the human body and that their ability as First Aiders will be greatly increased because of this knowledge. Next week the lecture will take place in the City Hall at the regular time, 7.30. Thursday evening.

3rd CHARLOTTETOWN TROOP (ST. JAMES)

At a meeting last Saturday evening the Third Troop decided that a big push would be put on in regard to test work and that special classes would be held for those interested in Hobbies such as stamp collecting, model building, radio etc. The meeting included new games and a camp fire. An interesting part of the camp-fire was the practising of the Indian and Zulu songs, "Kili Kili, Watch Watch" and "Hold Em Down You Swazi Wallahs". Both these songs were new to the Scouts of the Third but they picked them up very quickly, and entered into the spirit of the songs with vigor. Certificates have been received for the following tests:- -Tenderfoot — George Campbell. Second Class — Don MacLeod and Dick Dumont.

Comic Artists Go shopping For Ideas In Douglas Warplane Factory

J. R. Williams, whose "Out Our Way" cartoons are used in more newspapers than any other comic in the world, went shopping for ideas the other day in the Douglas aircraft plant in Los Angeles, Calif. Long before his famed series of machine shop cartoons, featuring the "Bull of the Woods," began to attract attention, Williams himself was a machine shop worker in Alliance, O. Friends thought it would be a great idea if the artist who interprets shop workers to 20 million readers should visit a great modern industrial plant and observe streamlined counterparts of the "Bull of the Woods" speeding up defense orders. Left to right in the picture are Merrill Blosser, close friend of Williams and artist of "Freckles and His Friends," Jim Williams, and a Douglas mechanic.
