Owing to a large excess of Assets over Capital, a portion of these Assets were recently applied to cancellation of the un-called Capital Stock, increasing the Paid Up Capital from \$120,000 to \$240,000. As will be seen from the above figures these Assets still represent a large surplus over Capital. Net earnings for 1905 were over 20 p. c. upon the old capitalization and more than 10 p. c. upon the increased capital. Doubtless equally favorable results will be attained for the present year. This stock is now sold as fully paid.

FRED CAMPBELL returned home Thursday morning from the P. E. Island Hospital, where he underwent an operation for appendicitis. He is steadily improving and will soon be on duty again. He speaks in the highest terms of the treatment received in the Hospital both from nurses and doctors.

MR. WHITE of the Registry Office, Charlottetown, and L. B. McMillan, Secretary of Public Works, were in Summerside yesterday, and with Registrar Campbell opened the vault of the Registry Office, Summerside. Everything was found in good condition which speaks well for the safety and vaults of that institution, as they were subjected to a very severe test in the recent fire.

THERE is naturally a good deal of discussion about the Summerside fire and its origin. The theory of incendiarism seems now to be pretty generally disbelieved, and indeed, had there been fire bugs, they would no doubt have chosen a more opportune time. The special had just arrived and there were crowds of people around the Station and freight house at the time. The fact that the fire made such rapid progress is due to its having started in a part of the building where oil was kept. It is quite probable that it originated in a careless y dropped match or a lighted cigar.
