# IS A MISER AN ECONOMIST?

**MISER;** a covetous person, especially one having wealth who lives miserably to increase his hoard.  
—Webster.

No, a miser is not an economist. Misers, for example, would never use Wakefield CASTROL Motor Oil, because it costs a few cents a quart more than ordinary oils.

A miser wouldn't spend his money to learn that while CASTROL costs a little more, it gives the car double, treble, four times the mileage before an oil change is necessary.

## Castrol Users are Thrifty Men

More and more thinking motorists are today using CASTROL, because CASTROL gives greater mileage and also provides perfect lubrication under every condition.

CASTROL was developed and perfected many years ago in England to meet the lubrication problem of the high speed, high compression motor—the same problem which is now interesting America.

Economize and play safe.  
Fill your crankcase with  
CASTROL today.

**WOE AND SORROW**—Who hath woe? who hath sorrow? who hath contentions? who hath babblings? who hath wounds without cause? who hath redness of eyes? They that tarry long at the wine; they that go to seek mixed wine.—Prov. 23:29,30.

**PRAYER**—Lord, save us from tampering with false appetites.

**BLESSED ARE THE HOME-MAKERS**

How blessed are the homemakers, whose job it is to stay And do the tiny trifling tasks day after dreary day; Who get up coals and sweep the steps, and light the kitchen fire, Making a lyric of their lives to suit an angel's lyre.

Yes, blessed are those royal souls who work on bended knee, Or polish tape, or mangle clothes, or make a cup of tea; Who rise up early every day, and work in any weather, And all to be a homemaker and keep a home together.  
—Pay Inchfawn.

### Large Entry List For Fredericton Races Next Week

FREDERICTON, July 23.—New horses which have not yet appeared on the Maine & New Brunswick Circuit will make their first appearance of the season at the meeting of the Circuit at Fredericton next Wednesday and Thursday, July 25 and 26, according to the list of entries which has just been made public, and shows over 100 entries for the eight events carded for the two days.

Several new stables from New Brunswick cities and towns are included in the list, the 2.16 trot and pace having Peter Stratton, entered by Frank O'Brien, of Moncton, and Jack Volo, entered by R. R. Reid, of Gagetown, while Baretta Aubrey and Eileen Aubrey are entered by W. J. Alexander & Son, of Saint John, in the 2.21 trot. New-comers in the 2.24 pace include Western Harvester, entered by Blois & Long, of Chatham, and Peter Keys, entered by W. L. Eaton, of Calais, Me. Captain L. Leggart, of the Keys stable, may make his first start of the season in the 2.18 class, and H. H. Carvell, of Chatham, has Joe Nyles entered there.

The program has been arranged as follows by Secretary Dave Griffiths, the numbers in brackets after each class indicating the number of entries:

Wednesday, July 25.—2.16 trot and pace (16); 2.21 trot (15); Junior Free for All, 2.10 pace (14); 2.24 pace (12).

Thursday, July 26.—2.18 Trot and Pace (18); 2.13 pace (16); Free for All, (9); 2.14 trot (9).

New officials will also appear at the Fredericton meeting, R. M. Webber, of Milltown, N. B., who was for some years secretary of the St. Croix Driving Club, and who has acted as starter at a number of Fredericton's most successful meetings the past few years, having been engaged as starter for this week's meeting.

An almost entire absence of control on the part of the starters at the Woodstock and also the Houlton meetings was evident, neither official enforcing discipline, and as a result there was much unnecessary and tiresome scoring which convinced Circuit officials that time had arrived when an end must be put to such practices and the Fredericton management will have competent judges associated with Starter Webber and under instructions that the National Trotting Association rules are to be enforced to the letter, penalties being imposed upon drivers who persist in violations.

The usual heavy speculation at the Fredericton meeting is expected to mean a busy time for the officials in the judges' stand and the management will have experienced and qualified men as presiding judge and in the other positions. One racing rule which will be effective at the Fredericton meeting for the first time on this circuit will give the judges the selection of the driver for the second horses starting from any stable having plural entries in any event. For instance, if W. R. Fleming should decide to start both Blue Jay, 2.08 1/4, and Major Mozart, 2.11 1/4, in the 2.14 trot, the judges will select the driver of Major Mozart if Mr. Fleming drives Blue Jay. This would make it likely that Major Mozart could be used as a helper for Blue Jay in carrying Bill Sharen, 2.04 1/4, wide and otherwise making unfair races.

### Feats In Mountain Climbing

(Special to the Guardian)  
JASPER, Alta., July 20.—After camping for a week in that famed Tossuin Valley of Jasper National Park in the Canadian Rockies, under the shadow of the perilous rampart range nearly 200 members of the Sierra Nevada, Club of California moved out today to take up their new quarters at Mount Robson and Berg Lake. At least 14 members climbed the precipitous heights of Bastien Peak 9,812 feet and many took the easier climb in the district. Forty in one big party had the thrill of going over Draw Bridge Pass glacier.

Those whose names have come out from the valley as having conquered Bastien are Miss Jessie M. Whitehead, Cambridge, Mass.; Miss Irma Weill, J. O. Downing, Anella Adams and Miss Elsie Bell, Bradshaw, Los Angeles; E. John Marsh, Oakland; Ernest Bacon, Charles Spinner, J. Whitmore, San Francisco; F. M. Bumpstead, Miss Helen Leconte, Miss Dorothy Huggins, Berkeley; Miss Josephine Spates, Pasadena; Miss Margaret Horst.

Over the mountain while climbing was the principal reason for many joining the camp and the result was the largest hiking party ever to enter Jasper National Park. After a day at Jasper Park Lodge they took their Canadian National Railways special train to Gelkie and hiked in 12 miles to Mount Lake at the foot of the frowning masses of rock they were to tackle.

Bastien was the graduating year of the Club of Canada several years ago and is a peak to test the mettle of the hardest. One of the hardest was the guide, Heintje Fuser, who climbed Bastien four days in succession. Starting out at a o'clock in the morning the climbers reached the summit an hour
