Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get a course of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

Home Life Menaced

Never in the history of the world has the life of the family as a social unit been menaced as it is today. Social unrest, the independence afforded women by opening up almost every profession and every line of industry to them, equal rights with men, all of which are perfectly justified if not abused and women have the health and strength to carry out their inclinations in these matters. But alas, when a woman is almost at the point of breaking from her household cares and social life, to take on outside duties often means the breaking point, and homes are often neglected for lack of strength or some ailment develops because of overwork. Weak and ailing women will do well to remember that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs benefits 98 out of every 100.

SWEDEN PLANS TO SPEND \$12,600,000 FOR RAILROAD

STOCKHOLM, June 6.—The first coast to coast railroad electrification in the world, extending from Stockholm, on the Baltic Sea, to Gothenburg, on the North Sea, is heralded in the official request just made to the Swedish government by the State Railway Administration that it be empowered to begin immediately the expenditure of the 23,000,000 crowns which have already been appropriated toward this project.

This is an important step in the great movement which has already resulted in the electrification of hundreds of leading industrial establishments, and at least 50 per cent of all the farming area in Sweden.

The trunk line from Stockholm to Gothenburg, which carries heavy traffic both of freight and passengers, is nearly 300 miles in length. The work of electrification is being carried through within two years says the Railway Administration, and if it is begun immediately the total cost will be \$12,600,000.

BAGDAD RAILWAY REPAIRS WILL EXCEED \$25,000,000

LONDON, June 6.—The recent sale to British financiers of the Anatolian section of the Bagdad Railway and its branches to Angora and Konia is one of the biggest commercial deals in recent years.

The syndicate headed by Baron Rothschild, Baron Schroder, Baring and Company and Lloyds Bank which purchased the holdings from the Bank des Chemins des Lignes Orientaux will immediately advance \$25,000,000 to start the rebuilding of the lines. Under the agreement with the bank the British promoters must not only supply the capital to rebuild a great part of the 900 miles of the Anatolia Railway destroyed by the Greek retreat, but also must build more than 1,200 miles of new lines required by its original concession, notably the Berlin to Bagdad line.

The total investment will be much more than \$25,000,000. In

STOCKHOLM, June 6.—Betting in connection with horse racing was introduced in Sweden for the first time May 7 at Jagersro, the largest race-course in South Sweden.

For many years the question of betting has been before the Rigsdag taintervals, and many times it has been rejected as immoral.
