WEDNESDAY, MARCH 5, 1913

IDENTIFICATION.

On the field of battle while the war is raging there is no difficulty in distinguishing friend from foe. Each wears his country's regimentals and follows his country's flag.

On the world's battlefield, where the forces of evil and the forces of righteousness are pitted the one against the other, there are no distinctive regimentals, no wearing of colors. There is, it may be, a confused following of the respective flags but the friends of evil and of righteousness mingle freely with their respective foes.

A very large proportion of the people of the civilized world are nominally Christians. The great majority of them are church goers. If asked at any one of the church services which side they were enrolled on they would unhesitatingly answer, "the side of righteousness, of morality, of temperance, of purity."

Members of the different fraternal societies are thus identified. Their attitude on questions relating to their craft is known to the outside world and, this being known, they cannot afford to play fast and loose with their professed principles.

What if the professed followers of either cause, were distinguished by a badge, by dress, by their party's colors? Suppose the professed friends of righteousness, of morality, of temperance and of purity were known to the world by external and visible marks, say an emblematic badge, a button or a bit of ribbon?

The statement was made in a Charlottetown church, not many Sundays ago, that if the Christian church acted as it professed on the temperance question the liquor business would be beaten out in a week.

There should be some means of identification. It is true that many thousands throughout the civilized world are identified by their clean lives, their outspoken denunciation of evil in all its forms, by their unswerving allegiance to the principles they profess.

What can we do to improve conditions in our Province? This is the question to be discussed at a meeting of the Charlottetown Board of Trade on Thursday night. The discussion is to be led by Premier Mathieson and Consul Frost—and no doubt will be participated in by other prominent citizens.

The subject, the speakers and the cause, taken singly or together, should be enough inducement to bring every able-bodied and mentally fit man in Charlottetown to the meeting. Premier Mathieson is in the midst of government movements on the success of which his reputation as a leader of the people very largely depends and in which, as a Prince Edward Islander anxious for the development of his country's resources, he is deeply interested.

Dr. Morse's Indian Root Pills

It is certainly one of the most disagreeable ailments which flesh is heir to. Coated tongue—bitter taste in the mouth—nausea—dizziness—these combine to make life a burden. The cause is a disordered liver—the cure Dr. Morse's Indian Root Pills. They go straight to the root of the trouble, put the liver right, cleanse the stomach and bowels, clear the tongue and take away the bitter taste from the mouth.

How are these things to be brought to the attention of the public? The answer to the question to be discussed on Thursday night.

Man is perpetually changing. He is on evolution's path, urged ever onward to new experiences, and, through them, ever developing new powers. The universe without changing, becomes a new universe to us as our perceptions of it widen.

As spring approaches the prospect of enjoying the privilege of a wade, without leaving the sidewalks, grows steadily. Many of the sidewalks are walled on both sides with snowdrifts from a foot to three or four feet in depth.

The varying temperatures the skin is subjected to during the winter give rise to chapped, burning and roughened skin. For this there is nothing better than Rexall Face Cream. It is easy to apply, doesn't contain excessive grease or oils and as a skin food is in a class all its own.

EVERY LOVER LOVES A LOVER AND EVERY WOMAN LOVES A BARGAIN
