

Japs' Latest: Suicide Pilots To Fly "Winged Torpedoes"

Nose is really a torpedo

Helpless pilot is locked into cockpit from the outside

Salute to a doomed man

The goal—a crash dive into an Allied warship

Planes which actually are flying torpedoes, flown by "suicide" pilots and intended to be crashed against Allied battleships and carriers are reported to be in large scale production by the Japs in Manchuria.

A huge torpedo, being packed with 2240 pounds of high explosive, and the plane explodes when either nose or a wing touches a solid object. The pilots, who must die in the blast, are given six months' training before taking off on their one and only mission.

When the craft becomes airborne. So a pilot, should he change his "suicide" ideas, cannot bail out nor can he land without exploding his plane. After the takeoff, reports say, the entire personnel of the air base stands at attention while the doomed flyer circles the field three times.

More Problems For Frisco Conference

BY C. R. BLACKBURN Canadian Press Staff Writer

SAN FRANCISCO, April 30 — (CP) — Two more problems had arisen today to trouble delegates to the United Nations security conference. They were fresh Russian demands for recognition of the Lublin-Warsaw Polish Government and the proposed admission of Argentina to the United Nations.

Russia has consistently opposed the entry of Argentina but there were reports that she was ready to swallow these objections if the Lublin group was recognized as suitable for representation at the conference here.

The expectation here is that there will be no departure from the Anglo-American stand against any Polish government not organized in the spirit of the Yalta declaration which called for a Polish government of national unity, including representatives of the Polish government in London, Britain and the United States do not recognize the Moscow-sponsored Lublin group.

Another Report

Another report circulating here is that a proposal will be made, possibly by Canada, that the present conference seeks only to erect a skeleton but firm framework of an international organization for the maintenance of peace and security.

The details could be written later by a continuing conference commission which might labor six months or a year and make its reports at the first general assembly of the organization.

Such a procedure would tend to avoid the possibility of hasty decisions being made by a conference working under the pressure of historic events in Europe, which must distract the attention of many of the top-ranking delegates here.

Community Concert Holds Annual Dinner

BY HOWARD M. NORTON Baltimore Sun Papers War Correspondent (Distributed by the Canadian Press)

WITH ITALIAN PARTISANS IN MILAN, April 30 — (By Radio) — The body of Benito Mussolini lies in the mud in the Piazza Loreto here this morning and thousands of Milanese are fighting their way through crushing crowds for an opportunity to spit on it.

The enormous shaved head and loose messy jowls of the fallen Duce are resting on the breast of his mistress, Clara Petacci, 25-year-old daughter of a Milan doctor, who, with Mussolini and about 12 other high Fascists, was given a hasty trial and shot by partisans near the town of Dongo yesterday at 4:10 in the afternoon.

Lying in grotesque positions, in a mass of blood and gore around their leader, are other Fascists shot with him. They were all dumped there without ceremony after dark yesterday by partisans who brought them to Milan in a moving van from the town where they were tried and executed.

This particular spot was chosen by the partisans to display the bodies for sentimental reasons. It was there that 15 innocent victims were executed by the Fascists and their bodies left exposed for a full day.

Eden Takes Lead At Conference

LONDON, April 30 — (CP) — Warm praise for Foreign Secretary Eden's work at the San Francisco United Nations security conference came today from British correspondents covering the parley, with one reporter declaring that Mr. Eden was holding the conference together, particularly through his success in acting as a "regulator" between delegates from the United States and Russia.

The British reporters declared that Mr. Eden was drafting compromises, advising and aiding Edward Stettinius, United States Secretary of State, helping pilot the dominion delegates and generally striving to speed up the tasks facing the conference.

WOODED STATE

Hardwood forests cover more than half of eastern Paraguay.

Mussolini's End

Who Will Be Next Governor-General?

BY THE OTTAWA STAFF OF THE CANADIAN PRESS

OTTAWA, April 30 — (CP) — One of the first things a newly-elected government of Canada will consider will be the appointment of a governor-general to succeed the Earl of Athlone, who will return to Britain in August.

It is understood there is a move in some Liberal quarters to have a Canadian selected for this post, following a precedent already established by Australia and South Africa.

Among the names mentioned as Canada's first Canadian representative of the King are Gen. Crerar, commander of the 1st Army, and Maj.-Gen. Georges F. Vanier, Canadian ambassador to France.

Some Progressive - Conservative circles have said they would like to see Field Marshal Montgomery offered the post.

Monthly Meeting

Royal Edward Chapter I. O. D. E.

The regular monthly meeting of the "Royal Edward" Chapter of the I. O. D. E. was held yesterday afternoon with the Regent, Mrs. James McMillan presiding.

After the opening ceremony, the Regent, in a few well chosen words, spoke of the death of the late President, Franklin D. Roosevelt, while the members bowed their heads in a tribute of respect for this man who had given his life in service for mankind.

Good reports were received from all committees. Some discussion took place in regard to future activities, especially of the Sewing Committee, who are no longer being asked to do the regular war time sewing, their requirements being taken care of nationally, as the cessation of hostilities in Europe are drawing near. It was decided that the energies of this committee could be gradually diverted to local needs.

Accordingly, a child and welfare committee, consisting of Miss Mary Irving, Mrs. T. W. L. Prowse and Mrs. Harry Hill was appointed to find out any special needs and bring these to the attention of the chapter.

Suggestive programmes for use of schools on V-E Day were received by the Educational Secretary, Mrs. C. H. Beer, copies of which are to be given to City schools.

A shipment of woolen comforters playing cards, soap, candy, and gum was sent this month to the adopted ship, H.M.C.M.L. 1001.

A very important event in the month's activities was an auction sale, held at the home of Mrs. A. E. Morrison, Prince St., on the evening of St. George's Day. This was a very successful evening, both socially and financially.

The next event of interest will be the annual Rose Day Sale on May 26th.

The annual meeting of the National Assembly of the I.O.D.E. is to be held in Regina the last week in May. Mrs. James Paine was appointed the delegate from this chapter.

Mrs. J. A. Lawson, Liaison officer of the W.P. & T.B. spoke for a few minutes on the misunderstanding of the use of preserve coupons for canning sugar. She explained that extra preserve coupons, namely P-13 would be valid at a later date. These, with the ones already due and those valid on May 15th would provide sufficient coupons for the extra 10 lbs. allowed for canning.

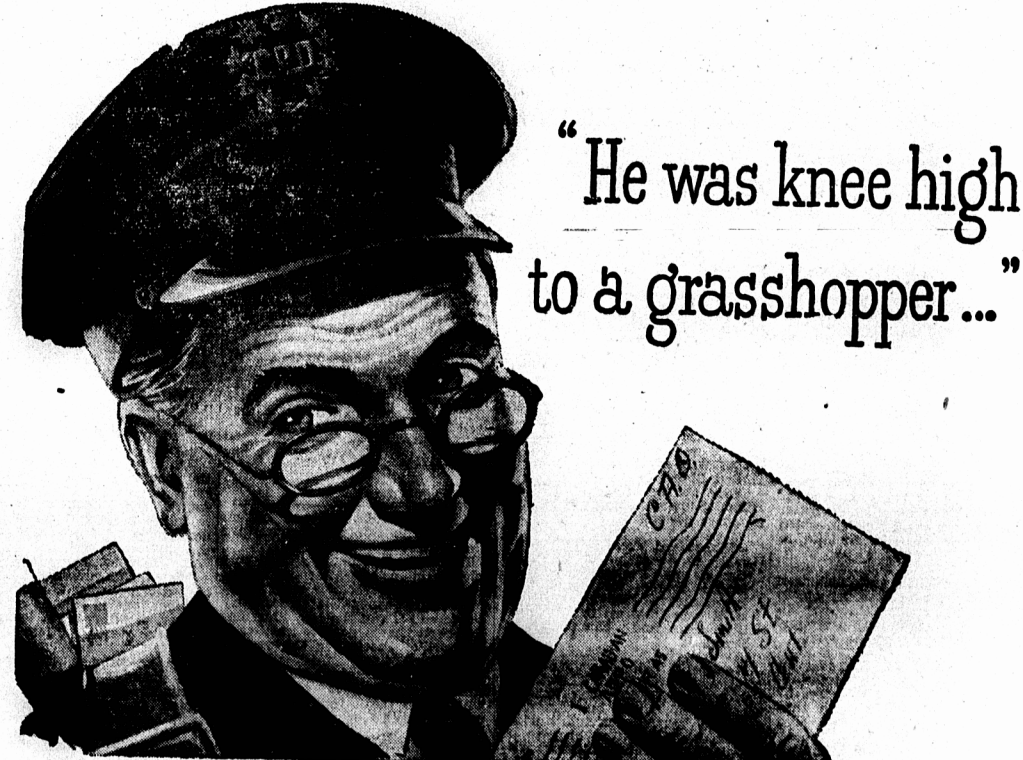

The meeting closed with singing.

A finish hog ready for market has eaten over 900 pounds of feed.

Soil lost by water erosion from deforested areas is sometimes to 20 times greater than that from a forested area.

ANCIENT CITY

The history of Jerusalem goes back to the Stone Age.

"He was knee high to a grasshopper..."

"It does my heart good to deliver letters like this. It's from that youngster who lived at one hundred and ten. He's in the thick of it, his mother says."

"Funny—but I can't help thinking of him as I knew him first... a chubby little chap in short pants. But he'll have learned plenty about being a man by now—though I'll bet he's as chipper as ever and spunky as they make 'em. Everything we love and hope for is in his hands... his and his pals'!"

"I never thought they'd have to fight so long."

When I can't sleep at night I think about the awful cost... the terrible things they go through, and the debt to them we can never repay.

"That's why I've never failed to buy Victory Bonds—don't see how anyone can. They must fight... we must provide the means of fighting. It's that simple!"

"This time I'll buy an extra bond... especially for that youngster from one hundred and ten. And if enough others like me will only think straight, this 8th Victory Loan will go over bigger than ever!"
