A Very Good Reason

Why Zam-Buk is the choice of the good housekeeper—it is reliable. She knows that money spent upon Zam-Buk is well spent because this famous balm does a what is claimed for it.

WHEN AIRMEN FIGHT

One imagines picturesque duels to the death between A (the great French or English ace) and X (his German competitor)—the multitude of straining, upturned eyes, the distant rattle of shots, the flaming spin of the loser. As a matter of fact a duel between two monoplane, handled by pilots of anything like equal skill, who are aware of each other's presence, is not unlikely to end without bloodshed.

MARKET REPORT

Market Comments for Week Ending April 10th, 1919.

Live Stock.

TORONTO, April 15.—There was a heavy run of cattle during the week, a total of seven thousand eight hundred head being on sale. While extra fancy prices were paid for a few individual animals, trading on the whole was inclined to be slow, and toward the end of the week reductions of from 25 to 50 cents per hundred were noted on medium and common grades of cattle.

There were a few heavy steers on sale, and five head shipped in from Meaford, Ontario, averaging thirteen hundred pounds each, sold at \$15.50 per hundred, while six head of about equal weight but lacking as good quality sold at \$16.00, these were about the top prices.

Lambs.

Lambs and sheep were in active demand, and extra choice quality lambs sold up to \$22.00 per hundred. Top sheep realized \$15.00 per hundred.

Hogs.

The hog market gained additional strength during the week and \$21.00 to \$21.25 per hundred, was the range for, fed and watered hog quotations, although most of the hogs were bought at \$20.25 to 30 cents country points.

MONTREAL, April 15.—The direction of the market for some time past has been towards higher prices, and this trend of trading was further emphasized during the past week. Prices were advanced from 50 to 75 cents per hundred on nearly all grades of butcher cattle. A few steers averaging eleven hundred and twenty-five pounds sold at \$14.00 per hundred; two loads on the C.P.R. Yards were quoted at \$15.75 per hundred; twelve steers and three or four heifers averaging eight hundred and seventy-five pounds sold at \$14.00.

Sheep and Lambs.

Not enough sheep and lambs were received to make a market.

Hogs.

Hogs reached a top of \$21.25 per hundred, of cars for selects. The strong prices are bringing out a large number of light unfinished hogs. It is the opinion of the trade generally that the market cannot hold unless farmers finish their hogs before marketing. Grading is not so strict as it was a few weeks ago. Sows are still \$3.00 under selects, but number of lights and heavies has gone through at select prices.

WINNIPEG, April 15.—There was a dull tone to the market for butcher steers throughout the week. Local packers purchased for immediate needs only, and southern inquiry was light. There was, however, a fairly active trade in female stuff, for mature animals. Two steers from Wellwyn, Saskatchewan, topped the market at \$17.00 per hundred, while one load of good quality steers from Glenboro, Manitoba, sold at \$15.50. Steers of over twelve hundred pounds were weighed up from \$14.00 to \$15.50, and steers ranging in weight from ten hundred to twelve hundred pounds sold from \$13.00 to \$15.00 per hundred for those of good quality, and from \$11.50 to \$12.50 for those of common quality. Light butcher steers were very scarce and the few offered sold from \$13.00 to \$14.00. Butcher heifers sold well on an active market, good quality stock being weighed up from \$11.00 to \$12.00 per hundred and fair and common stock from \$8.50 to \$11.00. Butcher cows of good grading sold up to \$12.25 per hundred, while most of the good animals realized from \$10.00 to \$11.50 per hundred. Canners and cutters were unchanged in demand as well as in price. Oxen sold mostly from

\$9.00 to \$10.00 per hundred, although one pair of extra quality, weighing twenty-one hundred pounds, from Rupert, Saskatchewan, changed hands at \$14.50. A number of choice veal calves sold from \$14.00 to \$15.00 per hundred, while most of the sales were made from \$11.00 to \$12.50. Good stockers passed out within a range of \$8.25 to \$9.25, and feeders weighing nine hundred pounds sold from \$12.00 to \$13.00 per hundred. Fair stuff sold from \$10.00 to \$11.50. Receipts of cattle were four hundred and forty head fewer than those of the previous week.

LIMERICK IN THE THROES OF A GENERAL STRIKE.

LIMERICK, April 14.—(By the Associated Press)—This city awoke today to find itself in the throes of a general strike called by the trades unions as a protest against martial law which has gone into effect in the Limerick military area. The gas and electric supplies were cut off at two o'clock this morning and no factories or stores opened today, even the drug stores having their blinds down. Food supplies have ceased coming into the city as the farmers refuse to take out military permits to enter Limerick.

There have been no disorders, but several processions were cheered loudly when they marched through the streets. The military area has been extended to include the district north of the River Shannon.

It was reported that the railway men had given notice that they would strike in forty-eight hours unless the order for martial law was rescinded. A railroad strike would isolate the city completely, as public automobiles are not operating because of the strike. The only transports would be by starting cars, hiring price of which already has begun to advance.

The electric workers returned to their plants early to-night in order that the bakers might be able to work. The gas to-night was still cut off from some sections of the city.

The strike committee permitted provision and milk stores and bakeries to open for a short time this afternoon. There was a scramble for supplies, as many families had been without food since Sunday night. Prices meantime had risen rapidly.

The strike committee insists that the strike shall continue until the demands are met, but the opening of the shops is taken in some quarters to mean that Tuesday or Wednesday will see the end of the strike.

GOMPERS FOUND NO REPENTANCE AMONG BOCHES FOR CRIME

NEW YORK, April 14.—In his first public utterance upon returning to the United States from Paris, where he headed the American labor delegation to the Peace Conference, Samuel Gompers, president of the American Federation of Labor, today denounced both of the great disturbing elements of present-day Europe—Bolshevism and the German revolution. Mr. Gompers reached New York Thursday on the steamship Rotterdam.

Mr. Gompers declared that he held the Bolsheviks, standpatters, and profiteers to be "equally a menace to the civilization of our time."

The German revolution, he characterized as a "sort of opera bouffe" and said that the junkers were still in power. "I have not yet met, or heard of, or read of, a single German who said that he repented any of the monumental crimes that his country committed during the war," the veteran labor leader said. "You have heard and read of revolutions and internal strife of the past, brought about by wars or other causes—have you ever heard of one where, of those in authority against whom the revolutions were inaugurated, not one man was arrested, or punished?"

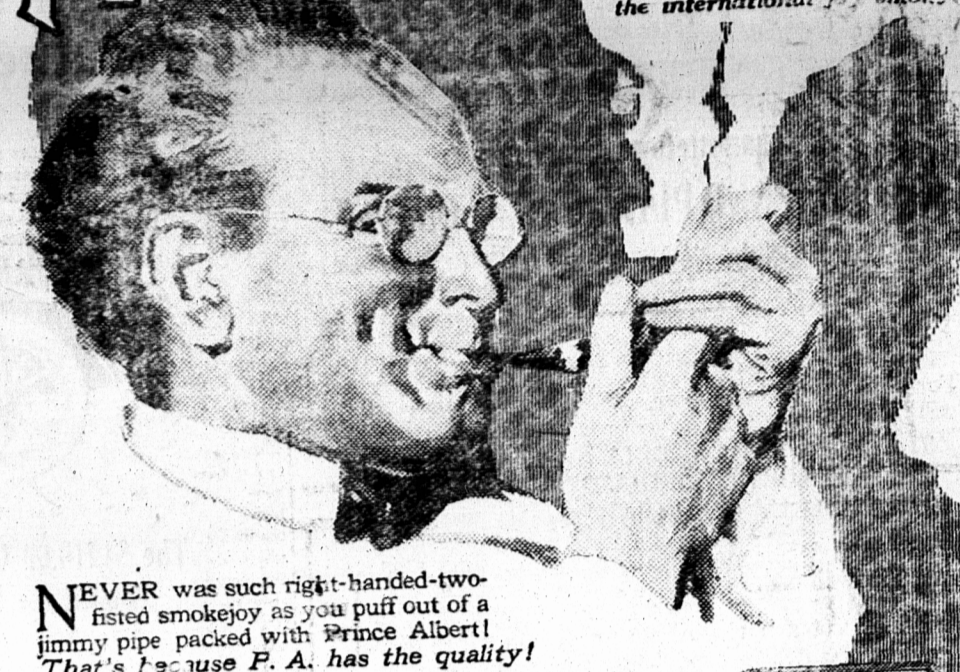

Sort of Opera Bouffe

"And yet they call it a revolution in Germany. Not one of the persons who constituted the overthrown government has been arrested or even detained, not one has been hurt and not one killed. Draw your own inference. It is nothing but a sort of opera bouffe. The same junkers are running the government; there is the same propaganda that there was before, there is the same policy of spreading discontent and the same men are remaining in power."

Mr. Gompers showed plainly the effects of hard work and admitted that he had experienced "the hardest grind" of his life abroad. He was, however, highly optimistic regarding the prospect of having labor well protected in the final peace treaty.

"I was perfectly satisfied before leaving that the convention we drafted would be accepted by the peace commission," he said. "It was an instrument that could only make for the good of working-people of all countries of the world. It provides the machinery for international conferences, to be held annually and for a governing board in the interim, or
