Business Evolution

It is a fortunate business that has hereditary endowment of honesty, industry and perseverance, but these are not of themselves sufficient to insure the highest success. It must be open to the influence of environment—in close sympathy with the spirit of progress—and quick to adapt modern ways and means.
We are ever on the alert for the best tools, and to adopt modern methods in order to give our customers the very best satisfaction on work entrusted to our care.
Give us a trial and see if we do not speak truly.

MANUAL TRAINING.

Falstaff was wont to say that he was not only witty himself but was the cause of wit in others. Prof. J. W. Robertson, Canada's Agriculture and Dairy Commissioner, has proved his great value to the Dominion not only by what he has himself done but by what he has incited others to do. He has entirely revolutionised the dairy industry of Canada, and made our country famous for cheese and butter. He has been a veritable apostle of better methods in agriculture, and cold storage. He has taught Governments how to legislate and administer in all that pertains to progressive farming, and he has done more than any ten other men in Canada to instruct our farming population in improved methods, and to show them in what direction their true interest lies.

Now Prof. Robertson comes to us with a proposal, surprising in its generosity and which if diligently and prudently carried out must greatly enhance the value of the teaching in our public schools. A modest benefactor stands in the back-ground to supply the means, just as the Government was behind the improved dairying movement. But in both cases Prof. Robertson has devised the plan and given direction to the power. All honor to the princely benefactor. But honor must also be given to the Commissioner who knows so well how to devise plans for promoting the welfare of the Canadians people.

Manual training in schools is not a new thing. It has been tried in other countries and its utility has been confirmed by experience. It has been advocated in many Canadian journals, and viewed with favor by some leading educationists. But while it was in the air nothing was practically done to introduce it. Liberal grants were made for education in the Provinces along the old lines, but no money was voted for new departures. The Governments did not move in the matter and the people were too inert to act upon a mere theory.

Those who heard Prof. Robertson yesterday were doubtless all convinced of the value of manual training. The experience of the Mother Country, his own observation of its working there, and his judgment as to the good effect that may result here will carry great weight with all. Prof. Robertson is not a man of mere theories or "fads." He is eminently practical. Our thanks are due to him for his apparent willingness that Charlottetown shall be the starting centre for manual training in the Maritime Provinces, and we shall hope to see the generous proposal promptly carried into effect in our midst.

It is a source of pride to every patriotic Canadian that productive industry, manufacturing, trade and mining are now most prosperous. The Toronto Globe has issued a pretty illustrated booklet, a feature of which is views of many federal and provincial public buildings, while statistics are appended to show the rapid growth and development of the country in many lines. The Globe's enterprise is commendable, and it has been given a very attractive form.

An important meeting was to have been held yesterday at Moncton, at which Sir Louis Davies, Hon. A. G. Blair, Premier Farquharson and Hon. B. Rogers were to discuss the action of the Federal and Provincial Governments to be taken to carry into effect the recent legislation in regard to the Hillsboro Bridge and Belfast Railway.

The action of President Loubet in convening the Senate of France as a High Court for the trial of treasonable conspiracy against the Republic, shows a situation of extraordinary gravity. No such measure has been taken in many years. We are not told in our brief despatch whether or not the conspiracy is connected with the Dreyfus affair. There have been hints from time to time, however, that members of the army staff, who were opposed to the re-trial of Dreyfus, have been plotting a revolution. It is not improbable that this is the occasion of the summons to the Senate, and the arrest of prominent persons may follow in the near future.

ORANGE BLOSSOMS

Stewart-Robinson.

One of the prettiest weddings of the season occurs this morning at 7.30 o'clock at the home of Mr. Henry Robinson, Stewart street when his only daughter, Miss Emma Robinson will be united in marriage to Mr. James W. Stewart, for many years employed in the Messrs Jas Paton & Co's carpet department. Rev. G. P. Raymond, M.A. performs the ceremony. The bride wears a travelling dress of petunia broad cloth, trimmings and hat to match, and carries an elegant bouquet of white astors with maiden hair ferns. The bridesmaid is Miss Grace Robinson, cousin of the bride, who wears a green cloth dress with hat to match. She also carries a bouquet of pink astors with maiden hair fern. The groom will be supported by Mr. S. McLeod, of Dunstaffnage, his cousin. After the ceremony a dejeuner will be served. The wedding presents are numerous and costly including a silver tea service from the employees of Messrs James Paton & Co.

The happy couple will leave on the morning express for Summerside, en route to St. John and other points in the Maritime Provinces. Mr. and Mrs Stewart will reside on Water Street

REMEMBER the Bicycle Races commence at 1 o'clock sharp to-day.

Headache

Is often a warning that the liver is torpid or inactive. More serious troubles may follow. For a prompt, efficient cure of Headache and all liver troubles, take

Hood's Pills

While they rouse the liver, restore full, regular action of the bowels, they do not gripe or pain, do not irritate or inflame the internal organs, but have a positive tonic effect. 25c. at all druggists or by mail of

MANAUL TRAINING.

Continued From the First Page.

comfortable and happy living in their native land.

In reply to Dr. Taylor, Prof. Robertson said it was not proposed to erect new buildings for the experiment. His friend was able and willing to carry out his proposal—pay for the lease of a building, pay the organizer and teacher and pay a number of teachers to go to England and learn the system.

Dr. Taylor, Dr. Anderson, Senator Ferguson, Mr. F. L. Haszard and Mr. Horace Haszard all expressed agreeable surprise at the generous proposal and thought it should be promptly acted upon. Dr. Anderson suggested the appointment of a committee, and moved that the thanks of the meeting be accorded Prof. Robertson for his interesting and valuable address and the good news he had brought us. Senator Ferguson seconded the motion which was heartily adopted.

Dr. Taylor moved the appointment of a committee to consider and act upon the proposal of Prof. Robertson and if necessary, to call another meeting, said committee to consist of Messrs. Dr. Anderson, J. D. Seaman, Duncan McLeod, Landrigan and Blanchard. This was carried.

Prof. Robertson proposed thanks to the chairman, Superintendent McLeod, under whose official supervision he hoped to see manual training introduced and developed in this Province. The thanks were duly voted and the meeting closed.

Asthma Cure vs. Asthma Relief.

It is a recognised fact among those suffering from asthma that the longer they use the temporary relief asthma remedies which require to be burned, the worse they become, until it loses its effect entirely. Clarke's Kola Compound is not among this class, but will permanently cure the worst case of asthma in from 60 to 90 days. Mr. F. J. Painton, proprietor of Painton's Music Store, Vancouver, B. C., writes: "I have been a great sufferer from asthma in its worst form for over 15 years, and had consulted many physicians both in England and Canada, but obtained no relief. A friend of mine who had been cured by the Kola Compound advised me to try it, and three bottles have entirely cured me; it is now over two years since my recovery and asthma has not troubled me since; and previous to taking Clarke's Kola Compound I have many nights had to sit up nearly all night. It is truly a wonderful remedy, and it affords me much pleasure in attesting my appreciation of anything so worthy." Clarke's Kola Compound is sold by all druggists. Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents.
