Consider Pontiac's definitely increased performance and value, represented by these new mechanical improvements.

New and even stronger Fisher Bodies with new convex belt mouldings.

Sloping non-glare VV windshield that deflects blinding lights from the driver's eyes and makes driving safer.

Improved more powerful motor developing 60 horsepower.

Stronger and more rigid crankcase, effecting greater quietness.

4-point rubber-insulated engine mounting, quelling vibration and noise.

Improved four-wheel brake system—practically no lubrication required.

Easy worm and sector type steering gear.

Weatherproof rubber draft seal collars on foot pedals and steering column.

Improved Lovejoy hydraulic shock absorbers with rubber-insulated metal links.

Drive this great car, and investigate these features carefully. Your nearest dealer will gladly demonstrate. You will find that the dollars which go to purchase a Pontiac Big Six have greater buying power than ever before!
