Keep Up Your Vitality

Whenever a reliable tonic is needed, especially for cases of chronic throat or lung trouble, for loss of weight, wasting diseases there is one remedy you can depend upon to give prompt results. It is our

Elixir Cod Liver Oil.

The value of Cod Liver Oil is conceded, but it is a remedy that often can not be taken by those who need it most.

In our Elixir of Cod Liver Oil we present the essential medicinal properties of the oil with the greasy, disagreeable properties left out. It is very pleasant to take. Price one dollar full pint bottle.

THE CHARLOTTETOWN GUARDIAN

FRIDAY, FEBRUARY 16, 1912.

THE CIVIC ELECTION IN CHARLOTTETOWN.

The civic election in Charlottetown on Wednesday was keenly contested in almost every ward and polling division. No candidate for the Mayoralty, for Water Commissioner or for Councillor was permitted to get his election by acclamation. There were perhaps some undercurrents, both political and sectarian, but these were not obtrusive and only a minority of the electors paid any heed thereto. The polling was marked by order and quiet. There were several pretty close contests in the wards, but Mr. Lyons in the Mayoralty race came out with a strong lead.

To those outside the city who are interested in such matters, it may be said that the new Mayor is a Catholic and a Conservative, while the Councillors appear to be divided in equal numbers between the two faiths and the two political parties. The new Water Commissioners are, we believe, all Conservatives. Four members of the late Council—all who offered themselves for re-election—were returned and there are four new men chosen as Councillors.

In one respect the election was historic. It was the first time in the fifty-five years of the city's corporate history that the election was conducted otherwise than by open voting. The new system worked smoothly and satisfactorily. Those accustomed to the old order of things perhaps missed the usual hourly bulletins of the state of the poll and the result had to be awaited at the final summing up of the votes. As in Dominion elections this left matters uncertain to the last and perhaps added something to the interest. In the near future the ballot will be brought into our provincial elections and the days of open voting will be past forever.

We congratulate Mayor Lyons on his election and his fine majority, which was no doubt somewhat the larger because of the three-handed contest. Mr. Lyons has fairly earned the recognition he now receives, by his past excellent service at the Council Board, his prominence in business and his character and standing as a worthy citizen. We do not doubt that he will discharge the duties of the Mayoralty with fairness, diligence and dignity. He will have to do excellently well, however, to surpass ex-Mayor Paton in that regard and there were not a few who regretted their inability to vote for both of them. Mr. McDonald is yet young enough to wait for the promotion which will no doubt come in due time.

In like manner we congratulate the elected Water Commissioners and Councillors and extend our condolences to those who for want of a few more votes failed of election for the time. There are a number of the unsuccessful ones who had they been elected would have rendered efficient and useful service at the Council Board. The city has had good honest government for years past and we see no reason to doubt that the new Mayor and Council will carry forward a like honest, efficient and progressive administration of civic affairs for the next two years.

MIXED FARMING.

In one notable respect the eastern farmers are an example to their western brothers. Here we have mixed farming; there nearly all are grain-growers. The result of the westerners' proclivity for growing grain to the exclusion of all other forms of husbandry is a constant impoverishment of the soil and dependence upon outside sources of supply for many food products which ought to be produced at home.

Farmers who buy all, or the greater part of their meats, poultry, milk, butter, cheese, eggs, potatoes and vegetables, or who dispense with these necessities of the table, are not conducting their business on a sound basis. Winnipeg is now a great city, located in the rich Red River Valley, the best of all the prairie country, and yet the capital of the Canadian West is forced to purchase hundreds of thousands of dollars worth of farm produce weekly in the United States, paying exorbitant prices for the same and heavy freight and express charges for its carriage also.

"In one day," says a writer in The Canada Monthly, "one dealer alone in the city of Winnipeg brought in 700 gallons of milk from Minneapolis. One dealer out of many. He paid in addition to original cost, express charges on a 400 mile haul and a so-much-per-cent duty on top of that. But he collected every cent from Mrs. Winnipeg." Western Canada is said to be the granary of the Empire. But who wants bread without butter? And every city householder knows that butter costs the family more than flour. The West must come to mixed farming in the end, and the sooner the better. For a farming community to go on exhausting the soil without returning anything thereto, and at the same time importing and paying for the greater half of the food products that go on the tables of the farmers is a rather senseless and almost a suicidal policy. In this regard the Eastern farmer is wiser in his generation than the children of the West.

Back Full of Aches, Headaches and Depression

Much of Woman's Suffering is Needless and Can be Prevented by the Use of Dr. Hamilton's Pills.

That Stab-like Pain in the Back is Sure Indication of Kidney Trouble.

Mrs Anna Rodriguez writes as follows from her home in Valencia: "For a long time I suffered with failing strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky, I was sallow and thin, felt rheumatic pains, dizziness and chills. I unfortunately didn't suspect my kidneys, and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that comes to all who use Dr Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr Hamilton's Pills I can't describe. They speedily put me right, and their steady use keeps me active, energetic, strong and happy. I strongly urge others to regulate and tone their system with Dr Hamilton's Pills of Mandrake and Butternut."

No greater medicine exists than Dr Hamilton's Pills for the cure of indigestion, constipation, flatulence, liver, bladder and kidney trouble. Refuse substitutes for Dr Hamiltonjs Pills, 25c. per box, or five boxes for $1.00, at all dealers or the Catarrhozone Company, Kingston, Ont.

A HAPPY EDITOR.

W. F. McLean, M.P., also editor of The World, is the happy proprietor of an estate at Donlands, close by the city of Toronto, where he keeps live stock, poultry, has a sugar maple grove, an ice pond of two acres, six feet deep and fed by springs, and so on. And from time to time The World tells a waiting nation how things are prospering at Donlands.

The latest report tells that the ice this year is 18 inches thick on the pond and clear as crystal; neighbors can get it, ready cut, for 50 cents per ton and hospitals may have all they want free. The report goes on: "The hens at Donlands have averaged 11 eggs a day for some weeks in this arctic weather and from now on two dozen a day may be expected. In four weeks more the maple trees will be venting their sap, the syrup will be running off from the big evaporator in the sugar house in the valley; and generally an air of spring joy and sweetness will pervade this delightful retreat, where the grasshopper is never a burden and where wild beasts disturb not the happy glades."

Truly a happy editor! Perhaps the happiest in the happiest of mundane callings.

In Toronto the Hotel Keepers' Association are on the warpath, says The World. They each pay $1,600 for license and are required to contribute to the provincial revenue 5 per cent on the extra receipts of the bar when these receipts are $60 per diem-that is, if a bar takes in, say $100 in a day, the licensee must pay $2 of the extra $40 to the Government. To make the accounting easy, all holders of liquor licenses must make a daily accounting to the Government under oath, stating the amount of the receipts over the bar counter. The license men do not like this and are on the warpath for a "flat rate."

A FAMILIAR FRIEND OF 100 YEARS AGO.

Marvelous changes have been wrought in the way of living in the last 100 years. We prepare our food in a different way, we eat differently, dress differently, are taught differently in the schools. If we stop a moment to compare our "ways" with those of a hundred years ago, we are almost led to believe that everything has changed and everything has been improved.

In the matter of treating our ailments the changes are no less noticeable than in other things. Old ways and old methods are gone. Amid all this change, however, we are almost startled when we think of one household preparation which has come down to us out of the remote past unchanged, and which is today more highly respected than ever before. We refer to that old reliable household remedy, Johnson's Anodyne Liniment, which has been used continuously by the people of this country for 100 years.

One hundred years is a long time. To go back to when it began is to get out of the age of the flying machine, the automobile, the telephone and the telegraph to a time when such things were not even dreamed of. It goes back beyond the steam railroad into the realm of the stage coach. The steamboat was a hundred years ago a new thing. In 1810, when Johnson's Anodyne Liniment was first compounded, James Madison, 4th President of the U. S., had just been inaugurated. Abraham Lincoln was then a one-year-old baby. The country then had less than one-tenth of the population it now has and not one in a hundred thousand of its present 90 million people had then been born.

With the age of this 101-year-old friend goes respectability. The respect is due solely to its virtues. It could not have lived over 100 years if it had not been one of the most efficient remedies the world has ever known for the aches and pains, the ills and ailments to which the human family is subject. During its lifetime thousands of other liniments have come and gone and been forgotten. The 101-year-old liniment lives and grows in the affections of the people. Where it has once been used in a family it is a rare thing that anything else has ever been found to take its place. Thus, in innumerable households it has come down, like a valued heirloom, from father to son for generations.

The Anodyne Liniment is manufactured by I. S. Johnson & Co., Boston, Mass., and is sold by dealers generally throughout the country.

ABSOLUTELY CURES STOMACH TROUBLE AND INDIGESTION

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia or out-of-order Stomach is merely a matter of how soon you begin taking some Diapepsin.

If your Stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little Diapepsin occasionally, and there will be no more Indigestion, no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggest and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

HOCKEY AT QUEBEC.

MONTREAL, Feb. 15—By defeating the Canadians last night, the Quebec hockey team climbed to the top of the National Hockey Association for the first time this season. The final score was 2—1, the winners scoring twice in the first period, while the losers tallied once in the third. The game was a rough one, and Prodgers and Pitre were ruled off for mixing up, the latter being the aggressor. There were a number of other fouls, and the National Hockey Association will be enriched $40 in consequence of fines inflicted for strenuous tactics.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would be competitors imitators."

If you feel weak and rundown after fighting a heavy cold there is nothing we could recommend that will do you so much good as VINOL $1.00 bottle, E A Foster, Vinol Agent, Central Drugstore.
