

THE CENTRAL GUARDIAN

MR. IRVING BEERS.

Who will direct and play one of the principal roles in "The Tyranny of Tears" at the People's Theatre next Thursday night, the 12th, under the auspices of "The Patriotic Fund." Mr Beers has been for fourteen years an actor and producer, and at intervals during that period he has put on amateur productions in all the large cities of Canada.

THE "TORONTO SATURDAY NIGHT" will be an excellent Christmas gift to friends at home or abroad. Send your orders early to A. McKinnon, Box 432, Charlottetown. Subscription, \$3.00 per year. 6443.

FINANCIAL SUCCESS.—The gross receipts of the Children's Patriotic Concert in the Prince Edward Theatre on Thursday night amounted to \$370. The net proceeds will be \$3.30 which is an excellent contribution to the Patriotic Fund.

SLIGHT AFFAIR.—The Fire Brigade was called out yesterday for a slight "flare-up" which occurred at the premises of Mr. J. Pickard, Queen Street. The scene of the fire, if it can be called a fire, was in the cellar of the building, and in a very few minutes the brigade had done its work.

VICTORIA.—Mr. Alfred Calnen, Halifax, owner of the schooner Palatia, is at present in Victoria, where the schooner is being loaded with produce. Mr. Gerald Bremner, Charlottetown, spent a few days last week visiting in Victoria. Mr. Alex McKinnon, Charlottetown, spent part of last week visiting in Victoria. Mr. H. B. Proffit, Victoria, was in the city Friday.—V.

THE PORK MARKET.—The Guardian understands that advice by wire from Toronto Saturday morning quotes the live hog market slightly firmer. The local packers, Davis and Fraser, acting on their regular principle to pay all the market will legitimately allow, are accordingly advancing prices at all country points. However, it is not yet known whether any one is prepared to say, but with a fluctuating market no doubt any farmer having hogs ready will take advantage of the prices now being offered. Advance is really 25c. per cwt. live hogs, Toronto.

—WEDDING BELLS.—Sacred Heart Church, Alberton, was the scene of a very happy event on Tuesday morning, Nov. 3rd, when Annie F. Wallace, of Alma, became the bride of H. Frances Ready, of Tignish. The ceremony was performed in the presence of a large number of friends and relatives, by the pastor, Rev. Maurice McDonald. The bride was attended by her sister, Miss Clara Wallace, while James Christopher ally discharged the functions of groomsmen. After the nuptial had been tied, the happy couple drove to the home of the bride's parents where a sumptuous breakfast was served. The ceremony was eclipsed only by the excellent dinner in the culinary art. Among the guests present were Rev. Maurice McDonald, Mr. and Mrs. Joseph Keefe and Mrs. Cahill, of Tignish. In the evening a large number of invited guests assembled to extend their congratulations to Mr. and Mrs. Ready and a very enjoyable time was spent in dancing and other amusements. The bride was the recipient of many presents, which testified to her popularity. They left on the following day for Tignish where they will reside in future. Their many friends join in wishing them a long and happy married life.—A.

GOOD MEETING.—An Agricultural meeting was held Friday night in the new hall at Iona. It was addressed by Mr. Holmden, the Potato Inspector and Prof. Theodore Ross of the Department of Agriculture. There were about fifty-five persons present and the best of attention was paid to all that was said. Mr. Holmden had with him specimens of potatoes affected with the Powdery Scab, which he had taken in his inspection during the day. He outlined the necessary course to follow to get clear of the disease, and pointed out that whereas he had in the past stated that he had not found any Dakota Reds affected with Powdery Scab, he had recently seen two samples with this disease. So that it looks as if there was no varieties of potatoes exempt from it. The specimens were examined by all those present, and compared with the common scab. Prof. Ross was the next speaker. He pointed out that there was a great variety of potatoes in the city through scab of any kind, and also through roughness made by deep eyes, etc. The smooth clean potatoes is what is wanted in the city and a premium will always be paid for potatoes of this kind. He then proceeded to speak on the value of live stock and building up and fertility of the soil. He pointed out that it cost about the value of 25 bushels of oats to raise an acre of oats, and that the profits of the growth comes from big yields so that farmers should be growing big crops. Big crops can only be grown where the land is rich, that is, where the crops are fed to live stock on the land and the manure returned to the soil. Some questions were asked regarding the use of fertilizers, mineral mud, etc., and the following answers were given: A vote of thanks was tendered to the speakers. Rev. Father Smith presided and thanked the lecturers for their presence and the audience for their attention. He thought that it would be of advantage to have meetings of this kind more frequently.

PATRIOTIC FUND.—The Relief Committee of the above fund, in order that there be no delay in investigating applications for relief by those dependent on soldiers going to the front, and that prompt payment be made, ask all those desiring for the second contingent to fill in and sign a duplicate, before leaving, the printed form necessary as a voucher for the registration of all applicants on the fund. These forms can be obtained from the Recruiting Officers or from Major Bartlett, General Secretary. They will need to be certified by the Recruiting or other officer, and one copy will be left with the dependent seeking relief; the other must be sent direct to me.—R. R. Fitzgerald, Chairman. AUTOMOBILE BEARING

FOUR PASSENGERS

PLUNGES OVER WHARF

Meerly dashing along at full speed in a vain attempt to overtake a car ahead, a large touring car with four occupants suddenly made a desperate swoerve and before the passengers realized just how serious the situation was, the evel of the wharf was reached, and with a mighty plunge the gigantic automobile toppled over taking with it four of the members of the Black Hundred, who, bent on securing the millionaire's daughter, Florence Hargreaves, took a desperate chance with fate and for the second time lost.

It is a thrilling scene, decidedly so, to see that seven passenger touring car dash into the water with four human beings struggling to get clear, is something no ordinary picture drama ever boasts of and to fully appreciate the risk and danger involved in carrying out this act one certainly must see it for themselves. It comes as a climax of the seventh chapter of the now famous Million Dollar Mystery to be shown at The People's Theatre this afternoon and evening—ONLY.—6429.

Notice Regarding Dressing Hogs

As a result of Government Inspection it is absolutely necessary that more attention be given to dressing hogs for market in order to avoid refusal by Inspectors.

They insist that the head, ears and feet should be thoroughly cleaned, every hair removed, the carcass carefully washed and kept perfectly clean when handling.

Some few farmers are not splitting the hogs between the hams and are leaving the bung gut—and in some cases even the manure—in. This must be remedied also, and in future a reduction of 2 lbs. per hog will be made on all hogs reaching here dressed in this manner, as to say the least it does not look well. Hogs must be split down completely, and bung gut and refuse removed.

We want to build up a reputation for Island Hog products, and can do so only with your co-operation.
