The cup and medals that are to be given to the one making the most number of points in the bicycle races to be held in New Glasgow on July 12th will be on exhibition in Charlottetown in a few days. The cup is a handsome specimen of artistic skill; a regular beauty. It cost between eighty and a hundred dollars. Nothing like it has ever been turned out of Nova Scotia, or east of Montreal. Hundreds have admired it while on exhibition in New Glasgow in Eastwood's window. The medals also are very fine, they are the best of their kind ever turned out of Eastwood's. This Cup was subscribed by the citizens of New Glasgow and presented to Central Star L. O. Lodge, 1550, to be given to the victor in the bicycle races.

NEW YORK LETTER

Work of the Mazet Reform Committee.

THE QUIETED BOWERY

A New Juliet—Dewey's Return and His Presidential Chances.

NEW YORK, May 29—Those who want to see New York while it is the "real thing" had better send in a hurry order for a through ticket, and make an appointment here as soon as possible.

For the signs a fast multiplying that poor old Gotham will at an early day be but a shadow of its former naughty, naughty, self.

Here is the Mazet Committee putting ahead the clock of "reform" in New York dear knows how many years. His famous committee, conceived and convened no doubt for political purposes against the Democratic municipal Government, is achieving noble social results that those who sent it forth do not of. The committee, with Mr. Frank Moss of Albany as its chief inquisitor, has certainly proved a "whip" of the genus Scorpio for civic officials, but, is indirectly doing a praiseworthy work. Mr. Moss, while spurned and rejected of Dr. Parkhurst for certain reasons, is yet Parkhurstian in spirit and principle, and has used the authority given the committee for the best purposes. The Journal has entitled him "the city's legislator from Albany" but the Committee has paid no attention to anyone except those on the witness stand. The results promise to surpass the record of the famous Lexow investigation of '93 in revealing "inwardness" in civic officials.

And so it is that poor old New York threatens to become monotonously good and virtuous at an early date. Gradually but surely of late years—more particularly since the Lexowing in '93—there has been a tendency in civic circles towards the stamping out of vice in the city. But even clear of official action the City's life has shown a perceptible impulse towards improvement. The extraordinary diffusion of newspapers here and wonderful sanitary reforms have perhaps contributed greatly to this betterment.

Even the famous localities in New York, known all over the world in an invidious sense, are slowly but surely yielding to better conditions. The Bowery and the Tenderloin, of course, still sink into their flame, the rural moth who comes "the sights to see."

OUR SWEET PEAS

In the season of 1898 our Mr. G. H. Hazard grew 46 varieties of sweet peas, they being selected from over 150 varieties old and new now in commerce.

The collection of 30 kinds which we now catalogue has been selected from the 46 when in bloom last season.

Mr. Hazard took first prize for Sweet Peas at Halifax last season in competition with flowers from all the lower Provinces, and has done so for the last two years.

HAZARD & MOORE

But their old unpleasant picturesqueness, exploited in song and story in many lands, is fast disappearing. This is particularly true in regard to the Bowery. What a host of picturings of never-ending misery and real bewildering devilry has the name, Bowery, called up in the cerebrum of the person who has never seen it! Alas! the Bowery is no longer the real thing. The Bowery of today is not the place it was ten or even five years ago. A visitor who wandered over there casually after nightfall, not knowing the street, might go all through it without noticing anything peculiar. If he went as far downtown as Chatham Square he would "see things" but the Bowery proper has become sadly respectable. Music Halls abound as of yore, and that is about the only tie that binds the Bowery that was to the one that is. In these music halls a stranger who wishes to become giddy and careless and free can of course find the full realization of his desires, but if he carries his gladness out upon the sidewalk he will certainly, soon regret that he is not the ice man. And so goes the Bowery—Bowery no more; only a kind of second edition of its mighty sister Broadway, whose ceaseless roar of ceaseless life continually calls to it to hurry up and be good and it may some day also have its sky scrapers and cable-cars, and the Bowery intends to keep on improving. When Macaulay's New Zealander takes his seat on a broken arch of Brooklyn Bridge to sketch the ruins of the World building he will see no sign of the Bowery of tradition—the Bowery of sand-bagging and of stilletoes and of pitiful importuning femininity, but a new and nobler Bowery, alive with the pursuits of useful trade and dotted with spires.

MAUDE ADAMS AS "JULIET."

New York's greatest dramatic success of this season—indeed for years past—took place last week when the famous actress, Maude Adams, presented for the first time her interpretation of Juliet. Juliet is the "jumping-off" place of most actresses: to make even a fair success as Shakespeare's heroine is considered creditable. Hitherto the best conception of Juliet on the American stage was Julia Marlowe's. It remained, however, for Miss Maude Adams, who has made Barrie's little Babbalanza so famous, to present the Juliet for which the cities have long waited.

The interest awakened in New York may be guessed when it is mentioned that the advance sales of seats totalled \$35,000. The engagement lasted only a week, and hundreds were turned away from the Empire each night, some seats fetching exorbitant prices in the hands of speculators.

ADMIRAL DEWEY'S RETURN.

New York is vastly excited over the coming into port of one George Dewey, sometime of Manila Bay, where on the first of May last year he presented Spain with a submarine squadron. George is now on his way home and spent Queen's Birthday in the loyal port of Hong Kong, on which day a speech being expected of him he promptly contracted an attack of indigestion. There is no reason to believe his indisposition was due to a want of loyalty to Her Gracious Majesty; it is only another evidence of the heartiness with which Admiral Dewey dislikes all speechmaking and laudatory occasions. He was sick at Manila for similar reasons; there is every reason to suspect grave intestinal disabilities for the Admiral when he comes near New York Harbor. On the other hand when a fight is "up" to him his amazingly vigorous state of health is remarked. On first of May last year his abounding physical vigor must have proved exasperating to delicate spectators—those on the shore for instance. Ah, George is not only a true and fearless sailor of Uncle Sam's, but a man of unlimited and God-given tact. His real greatness is in the things he has failed to do. He may be a far-seeing student of human nature and psychology and affect all this sublime reticence, but it is, to use a slang phrase, "sawing wood" for him at an average of several thousand cords a day. Ah, George will be pre-ident yet, sly, sick old dog, indigestion and all, and who knows it better than himself? His Uncle Samuel tells him to ask and he will receive. If he does not see what he wants he must ask for it. Ah, George your victory is far away. Manila Bay was a somewhat snide one, but your Uncle Samuel makes no nice distinctions, and he will reward you beyond anything that you can ask or think.

ISLANDERS' RECEPTION

Given By The Ladies' Society, to the

REV. J. W. WADMAN

Left Cambridge Yesterday En route to Again Visit Japan.

The vestry of Epworth Church, Cambridge, was filled Tuesday evening, May, 16, with people from the church and friends from several suburbs of Boston. The occasion of this gathering was a reception given by the Ladies' Society to Rev. J. W. Wadman and his wife. It was the spontaneous expression of the affection of the many people to whom Mr. and Mrs. Wadman have endeared themselves during their year of furlough spent in Cambridge, where they have made their church home at Epworth. No more genuine love and respect could have been shown to a pastor and wife closing a five years term of service. They have so won the hearts of all that it is with the greatest regret that farewell must be said, as Mr. Wadman returns to duty in Japan. The presence of such representatives of missions does more real good to the cause than many an impassioned appeal in behalf of suffering heathen. We are inclined to think the authorities at New York would do well to give more frequent furloughs to their workers in foreign lands may return home, and by the wholesome influence of their Christian character and service increase the popular interest in missionary work.

A year ago Mr. Wadman was comparatively unknown to us, but it was not long before his rare worth was recognized. Calls from many churches came inviting him to present the subject of missions. Wherever he spoke he gained new friends for the work, while at the same time cheering those already devoted to the good cause. The genial spirit and pure Christian manliness of the man convinced his hearers that whatever he represented was worthy of confidence and support. With such men as our leaders in the Sunrise Kingdom, the church may feel that her interests are in safe keeping; but, what is far more important, we may be sure that the religion of Jesus Christ must come with relentless appeal to the Anglo-Saxons of the East when interpreted by men of such high and noble Christian character.

Coming from Canadian Methodism on years ago, Mr. Wadman joined our church and was immediately sent to Japan, where he and Mrs. Wadman have done nine years of excellent work. For the last four years they were in Tokyo, where Mr. Wadman was connected with our publishing house. His chief work has been a translation, but he has not confined himself to this alone. Two volumes of Commentary on the New Testament in Japanese, prepared by him, have already been printed; a third volume will soon issue from this press.

At the recent session of our Japanese Conference, Mr. Wadman was appointed presiding elder of Hakodate District on the Island of Yesso. This is a frontier region, and in the absence of good schools he has decided to leave Mrs. Wadman and the children in the country for the coming year. Mr. Wadman will leave Cambridge, May 29, and will sail from San Francisco, June 17. His home will be at Hakodate, a seaport in the southern part of the northern island of the empire. We wish for him a safe voyage and abundant success in his new field of labor.

Mount Allison.

SACKVILLE, May 29—The fair sex had a fine day Monday for their performance which ensured full houses. Many arrived from neighboring towns, "Ladies' day" usually attracting large crowds. A piano recital by conservatory pupils took place in Beethoven hall.

It was a delightful entertainment and up to a high standard. It was the first occasion on which the orchestra played alone in public, and they did excellently.

At 2 o'clock anniversary exercises of the Academy took place at Lingley hall. In the evening at 7, the Ladies' college anniversary exercises were given in Lingley hall.
