The Centenary of the Diocesan Church Society of the Diocese of St. John's is fittingly observed in Paul's Church, Charlottetown, and St. John's Church at St. Eleanor's today when the preacher at both services was the Rev. Canon E. M. Malone, Charlottetown, and the Most Reverend Derwyn T. Owen, D.D., Archbishop of Toronto, and Primate of the Church of England in Canada. The service in Charlottetown was at 11 o'clock in the morning and at St. Eleanor's at 7 o'clock in the evening.

The morning worship was led by Rev. Hugh Miller, M.A., B.D., and the sermon was delivered by Rev. Donald O. Boothroyd. The theme of this address was "Foundations," and in it the minister stressed, as the three great foundation stones of Christian society, faith in the Christ-likeness of God, faith in the power of God, and faith in the love of God. The choir, directed by the organist, Mr. A. Roy Kendall, sang the beautiful anthem by Stainer, "God So Loved the World," in their usual fine manner.

The preacher at the evening service was Rev. Hugh Miller, who spoke on the theme "The Sacrament of the Lord's Supper." In his address he reiterated the invitation and challenge of Christ to all sincere followers to participate in Holy Communion and to dedicate their lives to the extension of the Kingdom.

Canadian Rifleman's Aim Deadly

AN EASTERN CANADIAN PORT, July 12 (CP)—Canadian rifleman during their brief tour of fighting in France displayed deadly marksmanship against enemy soldiers returning here said today.

Bill McMunn of Hamilton, Ont., a husky sergeant in the 48th Highlanders told how unerring fire from his rifle alone brought down three German planes at Bourcy as the Nazis attacked Allied soldiers in that port before they were evacuated from France.

Sergeant McMunn said men of the Royal Canadian Regiment brought down two planes and another Canadian unit accounted for a third. So accurate was the shooting, he said, that after one of the planes had crashed it was found the pilot's head had been riddled by a half-dozen bullets.

It was one of a group of around 180 Canadian soldiers invalided back to Canada or returning on leave. McMunn, who walked with a cane because of a motorcycle accident. None had been wounded in action. It was stated.

SUCCESSFUL FESTIVAL—A very successful festival was held on Mr. Joseph Murray's lawn at West Royalty Thursday night. The lucky ticket on a lawn chair was drawn by Mr. Eugene Chien, St. John's. Mr. Pope Thorne, Charlottetown, was the winner of a fruit cake. Both young and old enjoyed dancing. Thanks are due to those who generously contributed to make such a successful evening. The proceeds are being used for war purposes.

The church in St. Eleanor's is the oldest on the island and dates from 1824 and was visited in the summer of 1827 by Bishop Inglis who consecrated a site for the proposed church and burial ground. St. John's Church was the first church on Prince Edward Island belonging to the Church of England. The church was begun soon after the parsonage was finished but was not finished until 1881. In 1961 the church celebrated 100 years of continuous services. The late Ven. Archbishop C. DeWolfe White was rector at the time of the centennial celebrations.

His Grace the Most Reverend Derwyn T. Owen, at the morning service, chanted: "He shall have dominion also from sea to sea and the river unto the ends of the earth." After bringing words of greeting to the church as Primate of the Church of England in Canada, he centered his sermon around the question, "How Do We Think of God?" and spoke of the revelations of God in nature and the supreme revelations of God in the progress of the church very much to that of a river in its falls, finding its way on to the sea. It is only by the consciousness of the presence and power of God that the church can be steadily on her course. That consciousness of God's presence is the greatest gift we can have. He was referring to the trouble-passing and expressed his belief that fear would disappear if God were kept in the centre of our lives. Nothing is so strengthening as the adoration of God, he added.

RELEASED AFTER QUESTIONING—Some excitement was caused in Charlottetown early yesterday when a man, wearing a dark camera in his hand, was seen by a citizen and his wife taking pictures in the park overlooking the harbor. A few minutes later she was seen in conversation with a stranger who subsequently stated he was a Dutch wireless operator from a ship which is unloading coal here. He was noticed examining the camera by the man and his wife who immediately grabbed the wireless operator and held him until the City Police were notified. The police took the young man to the station and questioned him. He claimed he was innocent of any attempt to obstruct the harbor and said he was only talking to a local photographer and if the police wished they could get them. The wireless operator was released. A large crowd gathered outside the station during the questioning.

THE SERMON

His Grace, Archbishop Owen took for his text passages from Genesis Chapter 12 and spoke particularly of the Church of England and the Diocese of St. John's. He spoke of the pleasure and privilege of being able to be with the parishioners of St. John's Church, he spoke of the early church in Canada. In eloquent language he told of the founding of the church in the far north of the dominion. Of the pioneer clergy and missionaries and how the spirit of the early church lives on in those far places. He stressed the responsibilities that the church has in the Indian and Eskimo who have embraced the church. He spoke of the problems of the church particularly with reference to the vestments of the clergy which made the church work more difficult but which the missionaries have overcome and which we as church members but never lose sight of our responsibilities and duties as church members. In closing His Grace asked the congregation never to lose faith in the great leader of the church Christ Jesus who has led the church through the ages and will continue to do so and bring us home to life eternal.—S.

PART 1

The closing exercises of Central Royalty took the form of a Junior Red Cross meeting, conducted on Monday afternoon, June 26, by the pupils.

The present, Elaine O'Meara, called the meeting to order by singing "O Canada." The minutes of the last meeting were read and adopted, and the reports of the different committees were given. FINANCE MINISTER CITES HUGE INVESTMENTS OF U. S. CAPITAL IN CANADA.

OTTAWA, July 12 (CP)—In view of the large amount of American-owned industry in this country, Canada is not in this time of war, Finance Minister Flanagan yesterday said he expected to see a large amount of American capital invested in Canada. "Thousands of industrial plants were almost wholly owned in the United States," he said.

Mr. Flanagan recognized some of these enterprises might be willing to undergo risks of war time plus taxations which took most of their profits but he did not believe all were. Conservative Leader Hanson had suggested 100 per cent taxation of excess profits.

Mr. Flanagan explained why he considered the proposed tax, plus the corporation income tax, as heavier than Britain's 100 per cent taxation of excess profits.

There was no corporation income tax as such in England. Then, the British excess profits tax started from a higher base, making a smaller amount to which the excess profit tax applied.

BRITISH KEEP CANADA UNABLE TO WIPE OUT PROFIT MOTIVE

WASHINGTON, July 11 (AP)—In the darkest hours for Britain during the Great War, the expression "Cheerio to the national slogan of unshaken morale, just as the thumbs-up" gesture of British soldiers amid today's portents is an ironic defiance of Nazi and Fascist salutes.

British war leadership of this day, however, is at pains to dispel any thought of a "cheerio" to the full development of the German war effort. The warning by the Under Secretary for War, Sir Edgar Grigg, that an attack on Archway in "several places at dawn," falls into that class. Presumably he intended to keep public attention centered on the probability of invasion. That attention has a definite asset, value because it keeps Britons on the constant alert.

Yet there are many circumstances suggesting that a German attempt to invade this island would be the first stroke of Nazi defeat. It also seems highly probable that when and if invasion is tried, Dover Strait, the narrowest stretch of the English Channel, will be the point of assault. There alone are there obvious possibilities of a Nazi bridge-head being established which could permit the swift ferrying to England of the mass forces and heavy mechanized equipment that successful invasion would require. If that is true, it does not appear that the awards we must be able to achieve invasion by surprise.

Actually, the intensifying German air and submarine campaign against British shipping and the danger of a Nazi effort to seize the island, thus encircle Britain by a blockade are probably of much more immediate concern to British leadership than the narrow prospects. The new triple-purpose British mine barrage from the Orkneys to the coast of Greenland is evidence of that.

The obvious fact about the recent invasion (order of merit):

1. Bernice Gault; 2. Ardell MacAusland; 3. Marlene Roper.

After the awards were made, the Women's Institute treated the pupils and visitors to chocolate dips.

The National Anti-air brought to a close a pleasant afternoon.

On Friday, the school day of the year, the parents, pupils and teacher again assembled and had their annual picnic at Rocky Point, St. John's.

The Nominating Committee reported the appointment of Mrs. Harold Dunning, New London, as delegate to the next Annual Convention. Mrs. Wesley Paynter, Spring Brook, was named as a substitute.

Tea was served on the lawn by Long River and Irishtown ladies and was a pleasant change for all.

U. S. Awards Huge Contracts For Warplanes

WASHINGTON, July 11 (AP)—Working toward a goal of 25,000 new war planes in the next two years, the United States Defense Commission announced today that \$100,000,000 worth of contracts had been awarded since July 1, when funds for the expansion program became available.

Officials said the fact that competitive bidding was not required had assisted them in launching the program swiftly. They said they have merely drew up specifications, found manufacturers capable of handling their orders and then let the contracts.

First plane deliveries are expected by early fall.

Dr. George J. Mead, aeronautical adviser to the committee, declared at a press conference today that representatives of the army and navy, aircraft manufacturing companies, the national advisory committee for aeronautics and the Reconstruction Finance Corporation had met Tuesday and had agreed on a program of expanded co-operation.

The following steps were taken:

1. Army and navy representatives agreed to standardize their specifications and inspection work, hitherto carried on independently.

2. Representatives of the industry agreed to undertake quick expansion of their plants, to place in immediate orders for necessary tools and materials and to begin enlisting additional trained workers.

3. The Reconstruction Finance Corporation agreed to make loans immediately available for this expansion.

Congress meanwhile, completed work on the \$4,000,000,000 naval expansion bill and sent it to the White House.

The Senate Appropriations Committee approved an appropriation of \$25,000,000 for the production of power resources in the Tennessee Valley area.

Chairman Carl Vinson, of the House Naval Committee, introduced legislation authorizing the navy to proceed with a \$250,000,000 housing program for naval personnel, and civilians engaged in national defense work.

The measure also would authorize creation of a new marine corps base of 15,000,000 expansion of naval training facilities. All-outrage sites has been selected for the marine base. Vinson said it could be located at Guantanamo, Cuba, where the navy has a long-standing base. The version of Germany's hard-hitting "Panzer" divisions.
