

# The Province Must Return TO SANE GOVERNMENT

The Campbell Administration has broken every promise given to the Voters in 1935, and secrecy and suspicion has surrounded its every act.

It has squandered the tax payers' money by a waste and extravagance never paralleled in this Province.

It has enriched its individual members and friends, but has neglected the needy farmer, fisherman and laborer.

The rights and liberties of the people of this Province have been trampled in the dust.

It has taxed the people to the breaking point, and borrowed to the brink of bankruptcy.

It has passed pernicious legislation, placing additional burdens on our already overtaxed people.

Every elector going to the polls tomorrow should cast his or her vote in disapproval and censure of the misdeeds and mal-administration of the out-going Campbell Administration.

Vote them out and return the Party that can be trusted, the Party that will once more deal fairly with all classes and bring back prosperity to the Province.

### TRAINING CHILDREN IN THE USE OF MONEY

The Federal Children's Bureau has issued the following ten rules for a child's training in the use of money.

1. Give the child a regular fixed allowance; teach him not to beg and tease for additional money.
2. Let him learn by experience that denial must follow extravagance.
3. Teach the child not to expect pay for duties he ought to perform.
4. Encourage him to earn extra money by giving him a real job, preferably one which has real commercial value; pay him no more and no less than it is worth.
5. Be sure that any work he does outside the home is not physically harmful, and does not expose him to wrong influences.
6. Don't tip the child for rendering small services to his elders or for being good or polite.
7. Teach the child the value of saving for a definite purpose instead of for the mere sake of saving; let him learn the folly of spending all his money at once

and of going into debt to buy something he wants.  
8. Teach him that saving things that cost money is as important as saving money.  
9. Help the child to realize the importance of giving as well as of spending and saving.  
10. Remember, that the example of financial responsibility parents set will influence the child's attitude.
