I'M MISS STACIE—MY FIRM HAS PUT OUT A NEW RADIO SET AND I THOUGHT YOU MIGHT BE INTERESTED IN BUYING ONE. PROCEED. 'HELLO DAUGHTER—I JUST BOUGHT TWO RADIO SETS—JUST TO PLEASE YOU.

The RAILWAYS of Canada

THE citizens of Canada are under everlasting obligation to the far-sighted railway officials who have provided them with facilities for a rapid and permanent growth.

What appears like a sudden and marvellous expansion in trade and industry is the logical result of the change from preparation to fulfilment. Canada now has 54,000 miles of railway track, a greater mileage per capita than any country in the world, making available the natural resources of the Dominion.

Nearly 6,000 locomotives and approximately a quarter of a million cars are in constant use on these railways; 40,000,000 passengers and 120,000,000 tons of freight being carried annually. Over 170,000 employees work on our railways, handling the trade and traffic of this young nation, and receive a quarter of a billion dollars in wages per annum.

The Northern Electric Company is gratified that it has been able to supply a share of the electrical equipment which is part and parcel of Canada's great railways.

Northern Electric COMPANY LIMITED Equipment for Transmitting Power and Sound

86 HOLLIS STREET HALIFAX, N. S.

INFORMATION The Northern Electric Company has 14 branches situated at strategic points throughout the Dominion, serving not only the railways, but also all other forms of Canadian industrial activity.
