Difficult Digestion

That is dyspepsia.
It makes life miserable.
Its sufferers eat not because they *want* to, but simply because they *must*.
They know they are irritable and fretful; but they cannot be otherwise.
They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, an uneasy feeling of puffy fulness, headache, heartburn and what not.
The effectual remedy, proved by permanent cures of thousands of severe cases, is

Hood's Sarsaparilla

HOOD'S PILLS are the best cathartic.

VALUABLE ADVICE TO RHEUMATICS.

Eat meat sparingly, and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain s simply beyond belief. Buy a large 25 ent bottle to-day, test it, and see if thi not so. Polson's Nerviline always cure eumatism.

The evening was spent very pleasantly with music both instrumental and vocal including some very choice selections, also various games were indulged in. Ice cream and cake were served in abundance after which the company dispersed by singing Auld Lang Syne and pronouncing it to be one of the most enjoyable evenings spent for some time.

THE following from a South Carolina journal has been sent The Guardian by a friend:—The Index has received a copy of the Morning Guardian, a daily published at Charlottetown, Prince Edward Island, Canada, from J. T. Simmons, who with Mrs. Simmons is visiting there. In a note Mr. Simmons states, "I find the weather delightful. Nearly everyone wears an overcoat. Now, wouldn't that be the place today, or yesterday or any old day this July? Here we are weltering, perspiring and almost expiring with the heat, and on Prince Edward Island they are wearing overcoats. The Guardian is a bright, up-to-date daily. It is a ten page, six column paper and out of the sixty columns has about forty columns of advertisements. This is ahead of any daily of this size in the South.

THE Police Court was in session yesterday till after one o'clock to settle a series of complaints against George Carver, the well known oyster dealer of Queen Street. The charges were three in number and were assault on Benjamin Ling, Chinaman, annoying Chinamen in their store, and annoying S. F. Tarbush in his dwelling. The cases furnished much amusement for the spectators but resulted rather seriously for the redoubtable George. During the greater part of the forenoon the Court was engaged in extracting some meaning from the almost unintelligible evidence of the Mongolians. "Him cuttee me," "Him killee me with hatchet," "Him frighten us," was the tale they told. In the case preferred by Mr. Tarbush, Carver was fined $20.00 or 30 days; for assaulting the Chinaman by throwing a hatchet at him and inflicting a wound he got $10 or 30 days, and for annoying the Sons of the East in their habitation he was given another $10 or 30 days making in all $40 or 90 days. In revenge George at first decided to take advantage of the generosity afforded him by the magistrate and during the summer months be the guest of the Government at Hotel De Hamill but on a later view of the situation concluded to pay the fine $43 including the costs, and was released. John Shepherd, a colored man from the west end was attracted by the scarlet colored cards in the Post Office boxes indicating that registered letters were awaiting their claimants. To procure a few letters of this kind would insure for him a period of restfulness, so with characteristic inventive genius, he set out himself to the manufacture of keys that would place the pasteboard within his reach. The keys did not work however and then bolder grown he began to break the glass. His operations were interrupted by the appearance of the officers and at court yesterday he was remanded for a week pending an examination as to his sanity by a medical man.

EASTERN NOTES.—Rev. Mr. Bell of Souris preached acceptably to large congregations in the Baptist Church twice on Sunday the 19th inst., having exchanged pulpits with Rev. Mr. Gardiner for the day.—Rev. Mr. Murray preached at pre-ant for South Lake Church. He has been spending some time recently at the hospitable home of William Young—Great Eastern Lodge, I. O. G. T. still holds on its way. It counts among its members Alex. Scott, sen., who took the pledge 66 years ago and kept it ever since. Can any lodge on the Island produce a member to beat this?—Some mackerel are still hooked off South Lake and West River, though no very large catches have yet been made and the rush to the favored spot resembles on a small scale the rush of the forty-niners to the California gold fields the middle of last century. The farmer is leaving his hoe, the smith is leaving his forge, the carpenter is leaving his bench, the painter is leaving his brush, all making for the shore in expectancy of getting fish while east of Fraser's Harbor, where for years the seagull lived and loved, and reared her family in peaceful seclusion, an embryo city is springing into existence with a rapidity and irregularity equalling some of the paste-board cities of the west, and with a population equally as cosmopolitan and intransient. Further west the hake fishermen have been interrupted by an incursion of the hated dog-fish now proving such a menace to the fisheries of the North Atlantic whose very existence is threatened by their unwelcome presence. Fishermen also report the presence of numbers of the horse-mackerel this season. They have not visited these waters for years past in such numbers. They school on the surface of the water like the common mackerel, which they resemble in every particular only size, they being from six to nine feet long. Thomas Kickham hasn't yet floated the schooner Citizen, stranded at Black Point last fall, though he has been working at her for some time. As the mail closes a northeast storm, of unusual severity for July, is raging, which has driven her up higher then ever.—It is cold enough for November. The cool damp weather seriously interferes with the plans and increase of the potato-bug, and it looks at present as if his ravages and his numbers will be much smaller than usual.
