Y. BOWLING

Rebekah League

Table with bowling scores for various leagues including 'Tals', 'Canucks', 'Zippers', and 'Cando'.

Rebekah League Schedule

Schedule of bowling matches between various teams like Kan-Doos vs. Zippers, Pals vs. Canucks, etc.

STAFFORD SPRINGS, Conn., Oct. 17—With the largest list of entries in its history, the Stafford Springs Fair light harness racing programme opened with four events, one of which was unfinished because of darkness.

Toll Gate, Canadian pacer, was the victor in the 2.08 pacing event, winning the second and third heats after finishing second to Nell Brooke in the initial heat. Full Trust was victor in the 2.14 trot, coming back after a poor fifth in the opening heat to triumph in the succeeding two. Miss Hatfield won the first heat of this event. The 2.15 pace was divided into two divisions. Bert Abbe triumphed in the first division, taking three straight heats. In the second division, Henry Armstrong, Mat D. and Hollywood Ruth each copped a heat. The summary:

Table of race results for 2.08 Pace, Three Heats, Furse \$500, listing winners like Toll Gate, Nell Brooke, and others.

DEMOCRATS

Continued from page 1

Walsh, Montana, Democrat, declared, "that Premier Bennett stated preferential tariff arrangements would mean that \$250,000,000 of trade with Canada, that would otherwise go to the United States, would go to Great Britain. It is nothing but the fruit of our own policy of erecting indefensible barriers to international trade generally and with Canada in particular."

FOR SALE

GRANDMA 2.09 1/2 Standard Bred and Registered. Also one well bred Colt weighing 1050 lbs., and one good general purpose work horse, weighing 1250 lbs. A few good used cars at bargain prices to clear. Will consider foxes in trade for any of the above. F. R. McLAIN.

P. W. C. And 2nd S. D. U. Teams Meet For Opener Of Their Series.

The first league game of a series of three to decide the intermediate rugby championship of the province will be played between Prince of Wales College and the second Saints this afternoon at 4.15. Both teams are fast and aggressive. In years past the intermediates have always played a brand of rugby pleasant to watch, and of a style which called forth little criticism.

PERSONALS

Miss Eileen Foster left yesterday morning for Toronto on a vacation trip. Mr. Oliver Pye left on Saturday morning on a visit to friends in Boston. Mrs. Elizabeth Jenkins of Durell is spending a pleasant holiday visiting friends in Vernon, Hazelbrook, Southport and Marshfield. Mrs. Miller Rynhart and Miss Dorothy Caddagan have returned to their home in Pittsfield, Mass., after a pleasant visit in Johnston's River, being the guests of Mr. and Mrs. Daniel Driscoll and family.

KING HESITANT IN ACCEPTING PARLEY PACTS

(Canadian Press) OTTAWA, Oct. 17.—"How can we accept these agreements, based as they are on Conservative protectionist tariff policies?" Rt. Hon. Mackenzie King, Liberal leader, asked in the House of Commons today. He referred to the trade agreements negotiated by Canada at the Imperial Economic Conference and which, he added, Premier R. B. Bennett said a few days ago were based on the policy of protection. The people of Canada and Great Britain both should be consulted before higher tariffs are imposed between the two countries, Mr. King said.

The Old Fashioned Wedding Survives

HADAM, Turkey, Oct. 17.—(By The Canadian Press)—Despite the modernistic fashions spreading throughout Turkey one still sees numerous old fashioned wedding ceremonies which are celebrated for several days. At the wedding of Stan Hanim and Falk Bey more than 3,000 guests assembled. Six hundred horsemen escorted the bride to her husband's home. Depression or no 1,000 sheep were sacrificed, roasted on spits, and eaten—a sheep to each three guests. There was "pilav," the national dish, flavored (as is the custom at weddings) with saffron worth its weight in gold; and 900 pounds of rice went into its making.

The statement that thousands of dollars worth of sugar is wasted annually at the bottom of teacups will probably create a bit of a stir.

BRINGING UP FATHER

The Abegweit football team has now two games in prospect, one, an exhibition game with a team from the crew of H. M. S. Saguenay, the other the first league game with St. Dunstan's for the Prince Edward Island championship. The game with the Saguenay will take place some time during the next few days, while the league game will probably be played on Saturday afternoon. The fact that the team will later this Fall journey to the mainland to play off for the Maritime championship with the winner of the N. B.-N. S. series should be kept in mind.

Mr. Oliver Pye left on Saturday morning for Toronto on a vacation trip. Mrs. Elizabeth Jenkins of Durell is spending a pleasant holiday visiting friends in Vernon, Hazelbrook, Southport and Marshfield. Mrs. Miller Rynhart and Miss Dorothy Caddagan have returned to their home in Pittsfield, Mass., after a pleasant visit in Johnston's River, being the guests of Mr. and Mrs. Daniel Driscoll and family.

Young People

Continued from page 1 the practical exclusion of the spiritual side. Societies that tried to build up their work and hold the young people by having "feed" after "feed" would never be successful, he declared. In time the young people would rise up and say the church had failed them, and they would be right. They could get physical bread and butter at home; what they needed and should expect in the church of Jesus Christ was spiritual bread and spiritual water.

PLAN TOWER 2,000 FEET HIGH FOR WORLD'S FAIR

Dwarfing any structure ever built by man, a tower of steel and aluminum more than 2,000 feet tall has been proposed for the 1933 World's Fair at Chicago. Frank A. Randall, Chicago consulting engineer and originator of the project, says such a tower is practicable from an engineering standpoint, and could be erected within seven months to serve as an attraction for sightseers. His design, shown above, outwardly resembles that of the Eiffel Tower of Paris, but the new tower would be double the height of that structure, and top the Empire State Building by 813 feet.

WOULD REJECT TREATY

OTTAWA, Oct. 17.—(C.P.)—Reputation of the Canada-United Kingdom trade agreement on a score of indictments was proposed in the House of Commons today by Rt. Hon. Mackenzie King. Concluding a two-and-a-half hour speech in which he branded the pact as "protection gone mad" and calculated to injure, not promote, Imperial trade and relations, the Liberal leader read an amendment which would have the effect of rejecting the treaty. Mr. Speaker George Black reserved judgment on its admissibility.

Advertisement for ROXY MILD VIRGINIA CIGARETTES. Includes an image of a cigarette pack and a man sitting in a chair. Text: 'Experience Utmost Pleasure Without Any Regrets. You have only to smoke ROXY for a day to recognize at once that here is a cigarette—pure, mild, smooth—with every quality a cigarette must have to give you greatest pleasure without any regrets, night or morning. In Kent to Rochford; down Rochford to Water St., along Water to Pownal, up Pownal to Euston, along Euston to Queen, down Queen to Water, along Water to Great George, up Great George via west side square to Elm Ave., across to Upper Prince, down Prince to Water, along Water to Hillsboro, up Hillsboro to Euston, along Euston to Weymouth, down Weymouth to Grafton, along Grafton via square to Park Roadway. Bicycle parade route. Starting from Fire Hall down Queen to Water St., to Prince St., up to Grafton to Pownal and to Euston, to Hillsboro, thence to Kent St. back to Fire Hall.

STUDY HUGE

Continued from page 1

000; barley \$5,600,000; lumber \$23,500,000; apples \$10,300,000; copper \$20,000,000; lead, \$650,000; zinc \$300,000; raw leaf tobacco \$75,000,000; hog products \$28,300,000. Total \$195,150,000. CAN BE DIVERTED This enormous trade can in the main be diverted to the Canadian agriculture, lumbering and mining. In fact all can be taken care of within the Empire and Canada the major beneficiary. It is becoming more apparent on investigation that Canadian agriculture, lumbering and mining will be the most greatly benefited by the Empire preferences demanded and obtained by Mr. Bennett. This great advantage to Canada and disadvantage to the United States is on ten of the primary products which received preferential treatment. But there are many more preferences, both on primary and industrial products which will be proportionately beneficial to Canada. CAN GET SHARE The aggregate value of United States exports to Great Britain on preferred products, other than the ten mentioned, aggregate nearly \$50,000,000. Of this amount the opportunity is afforded to Canada

EFFECTS OF

Continued from page 1

and the other Dominions to receive a considerable share. If, it is estimated, the Canadian producer and the British manufacturer seize the opportunity, then an aggregate of U. S. exports to Great Britain and Canada of \$350,000,000 can, to a large degree, be shut out and this trade divided between Canada and Great Britain. Strong criticism of the trade agreement between Canada and Great Britain will be made by not only the Liberal party in the Commons but some of the Progressives and Independents will express disappointment. It is not believed they will carry their opposition to registering their votes against the adoption. Liberal criticism is expected to take the following lines: 1—The trade agreement will impair Canada's economic independence. 2—It will seriously disrupt Canada's trade with foreign countries and make favored nation treaties impossible. 3—The system of bargaining will endanger the goodwill and solidarity of the British Commonwealth. 4—That any advantage that may be obtained will be at the expense of the British people through taxing their foodstuffs and raw material. 5—That it will be found there is little or no increased advantage to the British exporter to the Canadian market. 6—It will preclude any possibility

EFFECTS OF

Continued from page 1

of negotiating a reciprocity treaty with the United States after the coming presidential election. 7—That the Dunning budget was more beneficial to trade between Canada and Great Britain without the dangers and entanglements of the proposed arrangements. 8—That the increases in the tariffs of Canada and Great Britain will prevent any world's tariff wall reductions. WILL PROBE PRICES The Canadian Tariff Board will be instituted immediately after the adjournment of Parliament and one of the first tasks assigned it will be an inquiry into the prices of anthracite coal to the Canadian consumer. Another important step to be taken will be appointment by Order-in-Council of a General Committee under a cabinet minister to formulate a national policy to be inaugurated in spring to solve unemployment by occupational readjustment. Still another committee, probably of departmental officials, will consider a scheme of contributory unemployment insurance. ACCEPT CHALLENGE We the Fredericton Team accept the Challenge to a Tug-of-War at Stanley, Thursday, October 20th. Unable to meet Tuesday night. (Signed) N. AUBREY CUTCLIFFE, Captain
