WATCH THE STOMACH.

HAVE YOU ANY OF THESE SYMPTOMS?

If you have either variable appetite, a faint gnawing feeling at the pit of the stomach, unsatisfied hunger, a loathing of food, rising and souring of food, a painful load at the pit of the stomach, choking sensations in the throat, headache and dullness of spirits, constipated bowls with alternate diarrhœa, are you gloomy and miserable?

THEN YOU ARE A DYSPEPTIC.

The cure is careful diet, slow eating, thoroughly chewing the food; avoid drinking at meals.

Keep regular habits, shun stimulants, tone the digestive powers and regulate the stomach and bowels with Burdock Blood Bitters. It has cured the worst forms of dyspepsia, even of twenty-five years duration. Mrs. Geo. Parks, Cooper, Ont., was cured; she writes: "I have used Burdock Blood Bitters and find that few medicines can give such great relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia and could get no relief until I tried B.B.B. It helped me right away and I think it a wonderful remedy. I would recommend it to all sufferers from dyspepsia.

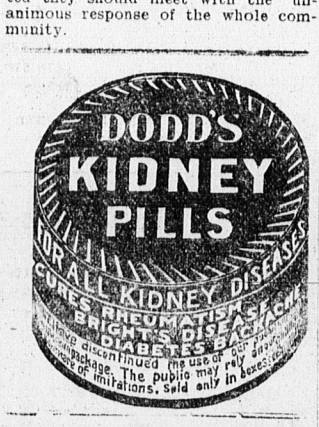
FOR ONE NIGHT ONLY

the 200,000 club will reign supreme at Wonderland and Monday is the night in question. To help raise funds for the proper advertising of the Island in the New England states and to make those who know nothing about this lovely Island more familiar with it the 200,000 club have procured the temporary possession of Wonderland the popular place of amusement, and for Monday evening only will have the screen at their disposal to show upon it views of the Island. These are most beautifully colored and depict the familiar places with a fascination that comes as a revelation owing to the familiarity with scenes which are to others as revelations from a Paradise.

This is the first time that these views have been shown here and the Club amalgamates with Wonderland in producing a program unique and entertaining. Wonderland puts on its full number of attractions, its beautiful motion pictures and two illustrated songs then the Club starts in and shows the Island views. This should bring the people out en masse for the object is one that needs all the encouragement possible to keep interest up in the tourist's work and in the object of the 200,000 club as well. Let the response to the appeal for help in making this province better known be met generously indeed. The ten cents admission is as nothing compared with the extent of the good it will do and when entertainment and helping along a good cause are united they should meet with the unanimous response of the whole community.



We Thank

our customeas and friends for their kind liberal patronage during the past year als extend to them our heerty best wishes for a year of Health—Happiness and Prosperity.

FREIGHT CARS ARE LYIN E

CHICAGO, Ill., Jan. 18—Railroads of the United States and Canada have 206,080 freight cars in excess of business demand according to a statement that will be issued this week by the car service commission of the American Railway Association Shortages exist on only a few roads the total number of cars that could be used on these lines amounting to 774. The figures are compiled from reports made to the committee by 158 railroads. Assuming the average value of a car to be six hundred dollars, equipment representing $124,080,000 of capital is lying idle on the tracks. The surplus cars aggregate nearly ten per cent of all the cars owned in the United States and Canada.

YELLOW WAR WILL SHAKE THE EARTH

WASHINGTON, Jan. 18.—Official Washington is discussing with zest a speech made by Supreme Court Justice Harlan at the annual dinner of the Navy League. The general comment is that, coming from a less dignified source, the speech would be looked on as rabid jingoism. The justice's speech, however, was received with enthusiasm by the guests, among whom were government officials, Congressmen and others prominent in public life.

"I believe," said Justice Harlan, "that we will see within the next ten years an army of perhaps 5,000,000 men in China, drilled and instructed by the Japanese, and when that time comes they will be in a position to say to us of their white race: 'You keep your country; we will keep this country. Get out.'

"I do not say that we will have war in the near future, it seems certain that there will be a conflict some day between the yellow and white races that will shake the earth. If it comes, I want to see our country in a position to meet it."

HOW TO TEST FLOUR

"How to know when food stuffs are good," is a puzzle that faces the inexperienced housekeeper at every turn. From market to butcher, from butcher to grocer, the same perplexity awaits her, but she can escape many mistakes by keeping a pad to jot down things she has proved, and has reason to know will be good.

Good flour should be creamy, not dead white, nor yet have that bluish cast that some flours have. It should not feel damp, sticky or clammy. It should not form into lumps when pressed in the hand; it should have some elasticity, some "life," as the millers express it. When made into dough it will be elastic, easy to knead, staying in round, puffy shape with a springiness that is quite noticeable.

Ontario fall wheat flour, with its rich mellow flavor, provides that beautiful brown crust in well made bread. Manitoba flour provides the gluten. The two combined and blended in just the right proportions give the good qualities of both, with their faults eliminated.

This blended flour stands every test. It has already gained a deservedly popular place in the esteem of good housekeepers, and in fact they declare the blended Flour is far ahead of any other that can be bought today.

The best way to assure yourself of the quality of flour is to buy a little and try it. You will save yourself some trouble, however, if you begin by using Blended Flour, then you won't want to use any other. Blended Flour is certainly best for bread, and best for pastry.

FACTS ABOUT THE ASSOUAN DAM

Sir William Garston has recommended that the great dam at Assouan, Egypt, be raised nearly twenty-three feet, which would more than double the present water supply.

The dam now supplies about a quarter of the water which eventually will be needed in Egypt.

With the proposed enlargement about 950,000 acres of land would be brought under cultivation. The change would cost about $7,500,000.

Since the establishment of the Assouan reservoir the sale value of lands already provided with perennial irrigation has increased by about $122,500,000, and this figure, when canals now under construction are completed, will be increased to approximately $140,000,000. In addition to this the cotton crop, which last year amounted to $140,000,000, has been assured.

PREVENT TAKING COLD.

Often you come home, cold and shivering—feet are wet, throat is raw, chest a little sore. A bad cold is just beginning. Put a Nerviline Porous Plaster on your chest, rub your throat with Nerviline, and take a stiff dose of Nerviline in hot water. This prevents a chill, and checks the cold instantly. No remedies so useful in the home, so sure to prevent serious illness as Nerviline and Nerviline Plasters. Sold by all dealers, 25c. each, but be sure you get the genuine and refuse any substitute.

Remember it and come. Help along the Island by contributing to the entertainment, and enjoyment will be found in all the splendid numbers of the program Mr. Harney will sing an illustrated coon melody, as sweet as catchy in rythm, and the popular Mr. Trainor has in store a selection which will render him more of a favorite than ever—so come; come; come; to Wonderland tonight.
