

Engineering Firm Loses Heavily on Yea's Operations

LONDON, June 2.—The report of the Armstrong, Whitworth firm, one of the most important engineering companies in England, constitutes a fresh shock to the financial world, used as it is nowadays to serious losses in the heavy trades. The loss of the firm's operations during the past year roughly \$900,000, pounds, which necessitates the transfer of that amount from the reserve fund. The poor state of trade, high costs of production and foreign competition is the official explanation for the poor showing. The firm invested more than five millions sterling in the Newfoundland Power and Paper Company, but it is believed the firm has recently arranged this investment on a more satisfactory footing. Five directors of the Armstrong Whitworth firm have resigned. Lord Southborough is the new chairman. The board of directors is unwilling at present, it is believed, to recommend drastic reconstruction similar to that undertaken by the Vickers firm last year, when the assets of that great armament and industrial firm were written down by twelve and a half millions, and the result of five years of deficits on operations. The directors of Armstrong, Whitworth will be discussed at a meeting of the shareholders next week.

How Mrs. Pennybacker Entered League Council

ATLANTIC CITY, June 4.—How ubiquitous woman found her way, unofficially, into the councils of the great, was revealed by Mrs. Percy V. Pennybacker of Austin, Texas, speaking tonight before the General Federation of Women's Clubs. Mrs. Pennybacker, who is a former president of the Federation, spoke on "Geneva, 1925". Arrived at Geneva and faced with the impossibility of entering the "Glass Room", where the Council of the League of Nations was sitting upon the question of Great Britain and Turkey's dispute over the Mosul. Mrs. Pennybacker said she "sat down and thought and thought, for half an hour without anything happening." Then she recalled a young American newspaper correspondent who had once promised "to do her a favor, to see nothing I had come so far to see nothing but the back of a good looking foreign correspondent!" On the morning of the first session Mrs. Pennybacker again made use of woman's wit, and her "thinking" cap. The press representative stated in front of her was "at least six feet low" she said, adding "imagine my exertion to think I had come so far to see nothing but the back of a good looking foreign correspondent!" Did Mrs. Pennybacker Write It? She did not say how she did it, but she next day the correspondent was absent, and also the few days following. But hearing Mrs. Pennybacker one felt that if the good-looking correspondent's signed dispatches of that particular session had been closely examined, one might have seen some feminine touches similar to the "Shandyism" that, thanks to "Maggie", were wont to creep into John Shandy's speeches in Berrie's "What Every Woman Knows."

How Weak Girls Can Gain Strength

It Comes Through the Tonic Blood-Making Qualities of Dr. Williams' Pink Pills. In the life of almost every girl there comes a time when weakness attacks her. The strain upon her blood supply becomes too great, and there follows headaches and backaches, loss of appetite, attacks of dizziness, heart palpitation and constant weariness, and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And there is no other treatment so sure and so speedy as that through the blood-making qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years. Here is a bit of positive proof of the value of Dr. Williams' Pink Pills in cases of this kind. Miss Clara Fraser, Theston, Ont., has been brought back to health and strength through the timely use of this medicine, and gives expression of her gratitude as follows:—"I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. They have restored me to health. If, indeed they did not save my life. I was suffering greatly from anaemia. I lost flesh and always felt tired and nervous. At last I grew so weak I had to remain in bed. The doctor did not seem to help me any and I was growing weaker. And my heart was bothering me. At last a friend who called to see me said she had read of a similar case restored by Dr. Williams' Pink Pills and urged me to try them. I felt helpless but decided to take her advice, so my mother got me a supply of the pills and I began taking them. It was not long before I began to feel better and in less than two months my health was restored. In fact I was in better health than I had ever enjoyed before. I strongly recommend Dr. Williams' Pink Pills to all who are weak and run down, for I feel sure they will not be disappointed." You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Riviera Village Swamped With Dead Jelly Fishes

NICE, June 4.—A.I. is not roses and sweet-scented scenery in the neighborhood of the French Riviera. The little fishing village of Crois-Cagnes, just outside Nice, soon will be uninhabitable unless some means is found of disposing of the millions of jelly fish which have appeared in the bay. Huge piles of dead fish are nightly thrown up on the beach and the authorities recently were unable to clean them away before they commenced to rot. Attempts to burn the fish had been unsuccessful.

Junked Motor Cars Stop "Washing" Of River Bank

PIERRE, S. D., June 4.—Junked motor cars are being put to a new use here—that of helping to "clean" the Missouri river. The "Big Muddy" has a copy habit of tearing away large chunks of South Dakota farmland abutting the stream, during the spring rises, and carrying them downstream sometimes in twenty-acre chunks. The piling of logs, brush and debris along the bank has not availed to stop the channel's depredations. But it has been discovered that the frames of junked cars, piled one upon another wherever the channel is cutting away the bank, settle so firmly and are so impervious to the channel stream that they stop the cutting away of the bank. Several scores of abandoned automobiles are serving more effectively than expensive piling.

They Are Well Worth The Money

What Mr. C. Young Says About Dodd's Kidney Pills. Nova Scotia Man Suffered With Backache and Kidney Trouble and Found Relief in Dodd's Kidney Pills. Sydney Mines, N. S., June 4.—(Special)—From all parts of Canada come the same glad tidings, telling the same glad story of sufferers that suffer no longer, of the weak being made strong and healthy, and of the good work that is being done by Dodd's Kidney Pills. People are now learning the importance of keeping the kidney in shape, of watching for the least symptoms of Kidney Trouble, and they turn at once to Dodd's Kidney Pills, because they know they are a remedy that never fails. Right here in Sydney Mines, Mr. Chas. Young comes forward with a statement that adds to the list of grateful letters. He says: "I have suffered a great deal from backache and kidney trouble and I found that Dodd's Kidney Pills did me a great lot of good. I always keep a supply in the house and take them when I feel the least bit of pain. I always get relief and think they are well worth the money."

Will Try To Solve Fuel Problem

The Premiers of Nova Scotia, Quebec, Ontario and Alberta are to be invited to appear before the special committee of the House of Commons investigating Canada's coal supply, in an endeavor to establish a national fuel policy, and discuss rates, methods of handling and a scheme of standardization. J. A. Ellis, Fuel Comptroller for Ontario, will be one of the first witnesses to appear before the committee. The group above shows: Left to right—Premier Brodie of Alberta and Premier Rhodes of Nova Scotia; centre—J. A. Ellis; below, left to right—Premier Ferguson of Ontario and Premier Taschereau of Quebec.

The Community's Responsibilities

MONTREAL, Que., June 4.—Sergregation of the feeble-minded; eradication of venereal disease; elimination of starvation wages to shop girls and others; betterment in slum living conditions and the introduction of national laws relieving prospective mothers from work for a certain period, were fore-shadowed by Dr. W. W. Chipman, who is president of the American College of Surgeons and gynecologist of the Royal Victoria Hospital, addressing the Kiwanis Club on the responsibility of the community and nation to its mothers. "If the world is to progress, each successive generation must be better than the last," declared Dr. Chipman. "And the mothers of one generation largely determine the mental and moral calibre. Nothing can take the place of a well-ordered and affectionate home life. Compared with that, schools of whatever kind are comparatively unimportant. Could we but segregate the feeble-minded," Dr. Chipman went on, "could we but eradicate venereal diseases fully half of our social troubles would be cured at the beginning. And this will be so. This must be so, when at last we call a spade a spade, and our ostrich-like complacency is replaced by common sense."

TOURING THE MARITIMES AND NEWFOUNDLAND

Recognition of the attractions of the St. Lawrence River and Gulf as a locality for summer cruises and as a means of reaching excellent fishing and hunting grounds is increasing yearly. One result has been that a fresh link between Newfoundland and Canada has been established this season by the addition of the Northland, a splendidly-equipped passenger and cargo vessel, to the fleet of the Clarke Steamship Company, Limited, which serves both north and south shores of the St. Lawrence and terminates the run of two vessels at Corner Brook, Nfld. The accompanying map shows the territory served by the Clarke fleet. The ships of the north shore route, as well as connecting with Newfoundland, establish a service to the Canadian Labrador, while those of the south shore in some cases proceed to Chaleur Bay. The Northland has been placed on the Montreal, Quebec, Gaspé and Newfoundland route and will maintain a fortnightly service throughout the navigation season. It will be seen that Charlottetown is connected up in the map with this cruise but unfortunately this season arrangements could not be concluded to include it in the itinerary; it is hoped, however, to book up next year.

Leprosy, Treated Early, Curable, Says Physician

MANILA, P. I., June 4.—Leprosy, when treated early, is curable in fifty to seventy-five per cent of the cases, declares Major A. P. Hitchens, health advisor on Governor General Leonard Wood's staff. The Philippine Health Service is encouraged to believe that within a quarter of a century complete control of the disease in the islands, is possible. Major Hitchens said the Philippines have now reached the peak of the malady and that unless present machinery for its control and treatment breaks down, the disease will recede rapidly.

The Only Medicine Baby Has Had

Is What Thousands of Mothers Say of Baby's Own Tablets. Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many minor ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs. Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says:—"I shall always have a good word to say for Baby's Own Tablets." I have given them to our baby. In fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving it Baby's Own Tablets. Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

ENVOY SAYS STRIKE OUTCOME IS BENEFIT TO WHOLE WORLD

NEW YORK, June 4.—The recent general strike in Britain served, in the opinion of Sir Esme Howard, the British Ambassador, to establish "once again, and for generations to come, a belief and a faith in the principles of free constitutional parliamentary government." In an address before the American National Association of Credit Men here tonight, which was confined almost entirely to a discussion of the strike, he said that, "on the whole, I think not only Great Britain, but also the world at large—always excluding our friends at Moscow—may be congratulated on the outcome." While Sir Esme said there was general recognition that the miners of England should be paid a "living wage", he took the position that mine owners could not be called on to work their properties at a loss, or the Government to continue indefinitely a subsidy to maintain wages.

Benjamin's Historic Home in South To Be Preserved

BRADENTON, Fla., June 4.—The historic mansion where Judah Philip Benjamin, secretary of the Confederacy, took refuge during the Civil war, is to be preserved as a memorial by the Daughters of the Confederacy. Benjamin, when General Robert E. Lee surrendered, hid in a secret chamber in the rear of a large fireplace. It was directly from this home that Benjamin finally fled to England, to escape the hardships of reconstruction days.

Kisses For All But Wife When Arab Returns Home

TAZA, Morocco, June 4.—There is not the American thrill of hubbly homecoming for the wife of the unsmiling and inscrutable Arab. The menfolk return from their sojourns with sober, nearly sad faces, kiss brothers and fathers and male friends on the cheek and with never a look at their women, solemnly stalk out of the station. There is scarcely a peal of laughter, or expression of joy at reunion, and never a smile on the face of the Arabs one meets along the 300 miles of railway.

Lepus Curing Flora in Brazil More Effective

RIO DE JANEIRO, June 4.—Numerous genera of leper curing flora exist in Brazil, including one species which is thought to be more efficacious than the famous chaulmoogra tree of Hawaii, announced the National Agricultural Society. The Brazilian tree which is thought to contain a superior grade of the magic ehyt ester is popularly known in Portuguese as "sapucainha." In various parts of Brazil the seed is called "leper fruit" and "leper bread," indicating that the natives believe that it cures the disease. The tree grows wild in several states.

Corns Stop Aching, Quickly Dissolve Away

The misery of a sore corn comes to an end quickly when you apply Putnam's Corn Extractor. This statement means just what it says, and you can easily prove it in your own case. Full directions are given in each package for the hot water treatment, and for applying a few drops of Putnam's to the spot that is sore. You won't be disappointed. Putnam's is not an experiment; it is a tested preparation that painlessly, removes, warts, corns, callouses and thickened foot lumps. Sold for 25 cents.

16 different Mayonnaise Dressings for Salads and Sandwiches. Recipes for 16 different Mayonnaise Dressings — as well as recipes for Russian, French and Italian Dressings — are in Colman's Recipe Book, which we will send you FREE for the asking. And Other Recipes which it contains are for new and attractive ways of preparing Meat and Fish Dishes, Pickles, Chow-Chows and Catsups. They are all worth knowing. Send your name and address and we will mail you a copy. FREE. COLMAN-KEEN (Canada) Limited, Dept. 9 1000 Amherst Street, Montreal. Colman's Mustard aids digestion.

Embrace Christianity Urges Japanese Editor. OSAKA, June 4.—If Japan expects to absorb the benefits of Western civilization, "it will be necessary for her to welcome Christianity with open arms and harmonize the religion of the West with the national characteristics of the Eastern empire," in the opinion of the Osaka Mainichi. This newspaper's editorial on the subject, which attracted considerable attention, said it "is indeed a great mistake to think that Western culture grew up quite independent of its religion, just as it is absurd to think that Eastern culture is independent of its religious thought or feeling." "Strange to say, the majority of Japanese seem to think that we can very well absorb Western culture and without paying any heed to its religion—Christianity. It is our humble opinion that in order to fulfill the heaven-sent mission, if such it be, of welding the Oriental and Occidental civilizations into one, it is almost incumbent upon us Japanese to welcome Christianity with open arms, so as to be able to make that religion our own, just as we did Buddhism and Confucianism in the past. "To welcome Christianity means not necessarily to make this country a so-called Christendom, but it means that the nation as a whole should become conversant in Christian doctrine and sentiment in a similar degree as Western peoples who profess that religion. "Christianity perfectly harmonized with her national characteristics, and so well assimilated as to make it her own religion, side by side with her inherited spiritual cults, such as Buddhism, Confucianism and Shintoism."

McLaughlin-Buick shares its price with many motor cars ~ but its Value with none. Because of the great number of McLaughlin-Buicks bought each year, and because every dollar of the savings of great volume goes back into McLaughlin-Buick value, McLaughlin-Buick's moderate price buys quality. McLaughlin - Buick can, and does, build its cars the way all motor car engineers would like to build theirs, if their volume or selling price permitted. Only on the most expensive cars will you find chassis elements in any way comparable in cost and quality to McLaughlin - Buick's. Torque Tube Drive; "Triple - Sealed" Valve-in-Head Engine; Full Pressure Engine Lubrication; "Sealed Chassis"; Controllable Beam Hlights and Mechanical 4-Wheel Brakes. The public want finer transportation at lower cost. And they get it in McLaughlin-Buick. The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time. The Better McLaughlin-Buick leads in registration all cars in its price range. UNIVERSAL MOTORS DEALERS FOR QUEEN'S AND KING'S COUNTIES CHARLOTTETOWN, P. E. I. McLAUGHLIN-BUICK
