CAPITOL SUMMERSIDE

P. E. I. FISHERY

(Continued from Page 1)

Many Difficulties

The fishing industry in Prince Edward Island, he said, is a feast one year and a famine the next.

This is largely due to regulations, transportation difficulties, and lack of proper supervision by the fishing authorities.

Mr. McLaughlin further asked for more cooperation from the Department of Fisheries in educating fishermen to put out higher-grade products for the market.

Of the lobster situation, Mr. McLaughlin said: "When one looks at the public work done by the industry, he sees that we did not have an opportunity of selling our lobster in the highest prices were offered."

Procedural Works

In the course of the debate on fisheries estimates, King (Aberdeen) urged on Mr. Bridges the need of co-operation between the fisheries and public works departments.

Expect Morrison, Churchill To Clash In Commons Debate

LONDON, Dec. 2 - (CP Cable) - Herbert Morrison, the dockyard policeman's son, and Winston Churchill, his niche in history secure, are expected to be the principle antagonists in a two-day no-quarter House of Commons debate starting Wednesday.

Conservative front-benchers, mostly experienced Parliamentarians, are expected to have a word to say in this action by Maj. Gwilym Lloyd George, liberal son of the famous Lloyd George, the late Earl Lloyd George.

Word of the motion opens up an immense field of debate. It denounces the Government for "neglecting their duty" of conducting reconstruction of industry.

Conservative front-benchers, mostly experienced Parliamentarians, are expected to have a word to say in this action by Maj. Gwilym Lloyd George, liberal son of the famous Lloyd George, the late Earl Lloyd George.

Progress Made In Airport Housing Project

The Charlottetown housing project at the airport, drawn up to relieve the housing needs in the city is now getting into full stride.

Occupants will have little to worry about in the way of heating. Central heating operations are now underway with one boiler in operation and once the system is in full swing there will be enough heat to provide for 70 apartments.
