

"THE HURRICANE"

Blazing Tropical Love Drama Opens at Prince Edward TODAY

Fight with them... escape with them...
 through the restless beauty of South Sea nights... the magic fire of tropic days... adventure is lived!... A man and a woman defending their love against the vengeance of man-made law... fighting for their right to live against the death-dealing fury of nature!... "The Hurricane", by Charles Nordhoff and James Norman Hall, authors of "Mutiny on the Bounty", is truly a mighty motion picture. Two years of painstaking effort and a vast fortune helped to create the excellence of this spectacular production.
